ATTENDANCE MATTERS

PARENTS DID YOU KNOW?

Too many absences — excused or unexcused—can keep students from succeeding in school and in life. How many are too many? 10% of the school year—that’s 18 missed days or 2 days a month—can knock students off track.

- 1 Attend School Everyday
- 2 Create a Family Routine
- 3 Participate in Parent Teacher Conferences and Workshops

! Children who were chronically absent in kindergarten and 1st grade are far less likely to read proficiently at the end of 3rd grade. Attendance improves when schools engage students and parents in positive ways and when schools provide mentors for chronically absent students.

LIMITED TO 15 FAMILIES

PARENTING IS EXPENSIVE.

THE CHILD TAX CREDIT GIVES YOUR FAMILY A RAISE!

Do you have children under 18 in your home? You should have received the **first half** of your child tax credit in monthly cash payments between July and December 2021. To receive the **second half** of your credit, file taxes in 2022!

Didn't receive your monthly payments? It's not too late to claim your Child Tax Credit! You may be eligible even if you are not the child's biological parent or if you do not usually file taxes or have low/no earnings.

Now more than ever, it pays to file your taxes. Changes to tax law mean that you may be leaving money on the table if you don't file.

HOW MUCH WILL MY FAMILY GET FROM THE CHILD TAX CREDIT?

Children under age 6: Up to \$3,600 per child

Children ages 6 to 17: Up to \$3,000 per child

First half paid in monthly payments, July - Dec 2021

Get the second half — a one-time payment — after filing taxes in 2022.

DON'T HAVE KIDS?

PARENT ACADEMY MENTAL HEALTH GUIDE

TIPS AND TOOLS FOR SELF-CARE

There is not a one-size fits all answer to self-care. When choosing strategies make sure you utilize practices that are personally relevant and helpful to you and your family. Here are some strategies to consider:

- Recognize and validate emotions
- Stay in the present
- Separate out what you can and cannot control
- Notice and manage your worried thoughts
- Pay attention to joy
- Balance structure and exibility
- Get active
- Stay connected

TIPS AND TOOLS FOR TALKING TO YOUR CHILD

Talking about mental health – Open ended questions:

- How are you feeling? Can you tell me more about what's on your mind?
- How can I help you feel better? Ya know, sometimes you need to talk to an adult about your feelings - I'm here to listen.
- Have you had feelings like this in the past?
- Do you feel like you want to talk to someone else about your problem?
- I'm worried about your safety. Can you tell me if you have thoughts about harming yourself or others?

TIPS FOR APPROACHING THE CONVERSATION

- Communicate in a straightforward manner
- Speak at a level that is appropriate for your child's age level
- Discuss the topic when you are in a calm environment and your child feels comfortable and safe
- Watch for reactions during the discussion and slow down or back up if your child becomes confused or looks upset
- Listen openly and let your child tell you about their feelings and worries

Download the Basement Backup & Flooding Handbook at detroitmi.gov/basementprotection or call 313-267-8000 for a copy.

Flood Safety

- Do not walk in standing water in your basement if the area includes fuse box, electrical appliances, outlets, and/or wires.
- Do not drive through flooded streets – take another route and make sure you report the flooding to DWSD (unless a freeway which is the responsibility of the Michigan Department of Transportation).

Help Prevent Basement Flooding/Sewer Backup

- Make sure there is no debris in your basement drains.
- Clean your gutters if you can safely do so – get help if needed from family or neighbors.
 - Move any items that are blocking the exits of your downspouts.
 - Remove the downspouts from the underground storm pipes and redirect them onto your lawn at least three feet away from the house as shown in the photos here.
- If you see a catch basin covered in trash, please remove the trash and debris.
- Clean debris and leaves from in front of your property to reduce catch basins from clogging.
- Consult with a licensed plumber to:
 - Inspect your sewer service line and drains, including but not limited to snaking your sewer line all the way to the city sewer collection pipe connection and placing a camera in your line to determine if there are any defects that you need to repair.
 - Your sewer line should be snaked at least once per year.

- Refer to the DWSD checklist, "Do you have a sewer backup; Looking to hire a plumber?"
- If you have the financial means, consider having a licensed plumber:
 - Install a backwater valve that closes your sewer line with a flap during rain events to prevent backups – you cannot use your toilets and drains during the rain event to keep the flap closed.
 - Install, inspect, and maintain a sump pump if feasible for your home (consult with a licensed plumber).
 - DWSD launched the federally-funded Basement Backup Protection Program - go to detroitmi.gov/basementprotection to see if your home is eligible.

Protect Items in Your Basement

- Don't keep valuables in the basement.
- Use shelves to store items to keep them above the basement floor.
- Store items in plastic tubs with lids.
- Consult with a licensed plumber and HVAC company to:
 - Replace hot water tanks with a tankless water system that is placed on the wall.
 - Have your furnace inspected and see if it can be raised up.

WHERE'S YOUR LINE?

Most of the city's sewer pipes are located in the rear of the property; a few are located in the street. Sewers are typically in the alley or the city easement in your backyard.

WHO WILL FIX IT?

Property owners are responsible for the sewer service from the point at which it leaves the house (beneath the basement) and connects to the city sewer.

*In some neighborhoods the property owner is responsible for the alley.

DWSD Lifeline Plan

Detroit's **FIRST-EVER** water affordability plan

Developed in partnership with community advocates and water affordability experts, the new Detroit Water and Sewerage Department (DWSD) Lifeline Plan is an income-based water affordability plan. It offers qualifying customers a fixed monthly rate that will significantly reduce their monthly bill – and erase any past debt.

Your water bill
past due debt
wiped out
for good!

Here's how it works.

Income-eligible enrolled Detroiters receive up to 4,500 gallons of water every month at a fixed rate. Average Detroit household (3 people) uses between 2,300 to 3,000 gallons per month.

\$18

Your monthly water, sewer & drainage bill **if you receive SNAP/FAP benefits.**

\$43

Your monthly water, sewer & drainage bill **if you are a low-income household and don't receive SNAP/FAP benefits.**

\$56

Your monthly water, sewer & drainage bill **if you are a moderate-income household and don't receive SNAP/FAP benefits.**

That's 1.8% of the average monthly household income for each tier – a standard set by community advocates and water affordability experts. If water usage exceeds 4,500 gallons per month, you'll be charged for that additional usage based on DWSD's new inclining block rate structure.

APPLY NOW AT:

waynometro.org/DWSDLifeline or call 313-386-9727

The program is funded by regional, state and federal dollars.
