

Summer Resources for French Students Renaissance HS, 2020

French Teachers: Dr. V. Jackson, Mme. Safah-Varner

This year our school district is offering a great resource for French students to practice French through **French.Yabla.com**. This website/app is linked to the District Sharepoint via **Clever**.

This website/app is built around a variety of videos for students at all levels of French, followed up with comprehension activities and games.

How to access Yabla:

For students entering **Grades 10 – 12**, I have posted the **private link** in your **Microsoft Teams** class in the General Channel. This link will take you to a **Yabla** site only for Renaissance HS students. You will select your teacher and your class, and then proceed to set up an account.

For new 9th Grade students, you will need to email **Dr. Jackson** at valeria.jackson@detroitk12.org for the link. *(Since this is a private link for Renaissance students only, we cannot post it on a public website)*
Once Dr. Jackson has emailed you the link, you can go to the website and set up your account. First select your teacher (Dr. Jackson). For your **class**, select **other/not listed**, then complete the account setup process.

****New French students should select the beginning level videos. After each video, select a game to practice the new vocabulary. ****

Have a safe and happy summer. We look forward to seeing you in the Fall!
