PARENT ACADEMY MENTAL HEALTH GUIDE

TIPS AND TOOLS FOR SELF-CARE

There is not a one-size fits all answer to self-care. When choosing strategies make sure you utilize practices that are personally relevant and helpful to you and your family. Here are some strategies to consider:

- Recognize and validate emotions
- Stay in the present
- Separate out what you can and cannot control
- Notice and manage your worried thoughts
- Pay attention to joy
- Balance structure and flexibility
- Get active
- Stay connected

TIPS AND TOOLS FOR TALKING TO YOUR CHILD

Talking about mental health – Open ended questions:

- How are you feeling? Can you tell me more about what's on your mind?
- How can I help you feel better? Ya know, sometimes you need to talk to an adult about your feelings - I'm here to listen.
- Have you had feelings like this in the past?
- Do you feel like you want to talk to someone else about your problem?
- I'm worried about your safety. Can you tell me if you have thoughts about harming yourself or others?

TIPS FOR APPROACHING THE CONVERSATION

- Communicate in a straightforward manner
- Speak at a level that is appropriate for your child's age level
- Discuss the topic when you are in a calm environment and your child feels comfortable and safe
- Watch for reactions during the discussion and slow down or back up if your child becomes confused or looks upset
- Listen openly and let your child tell you about their feelings and worries

TAKE PART: Tap into the Lifeline Plan

DO YOU HAVE SEWER BACKUPS? LOOKING TO HIRE A PLUMBER?

BEFORE YOU HIRE, ASK THESE 4 QUESTIONS:

1 ARE YOU LICENSED AND INSURED?

Making sure your plumber is licensed and insured certifies they are qualified to perform and complete the work. Do not hire unlicensed or uninsured plumbers. In the event something goes wrong, you may be responsible and may need to hire a new contractor to make the proper repairs.

2 DO YOU HAVE A SPECIALTY?

Some plumbers specialize in certain work. Make sure your plumber specializes in drain and sewer line cleaning. Also, they should have the ability to snake your pipe at least 75-feet, can place a camera in the pipe, and have a hydrojet option. You may need these additional measures depending on the severity.

3 DO YOU HAVE REFERENCES?

Most plumbers should be able to provide references upon request if you don't already have a recommendation from a trusted source.

4 HOW FAR DO YOU PLAN TO SNAKE?

DWSD encourages residents to snake their sewer service line annually and most especially if you have large trees surrounding your home. Tree roots can cause damage to the pipe underground. Your plumber should identify the distance between your drain or cleanout and the city sewer collection pipe. Again, most houses are at least 75-feet from the city sewer pipe.

Example images that might be seen when using a camera while snaking a sewer line.

You can also watch our video by using the QR Code or going to youtube.com and searching "DWSD Tips for Homeowner Sewer Line Maintenance"

detroitmi.gov/DWSD

313-267-8000

ONCE WORK BEGINS:

- Watch the hired plumber perform the snaking.
- Make sure they are snaking your pipe all the way to where it connects to the city sewer system.
 - Using the camera connected to the snake, the plumber should also be checking for defects, especially if the snaking did not resolve the backup.

BEFORE THE PLUMBER LEAVES:

- Request a clear and legible copy of the findings.
- Talk to the plumber and make sure that they took all the necessary steps to ensure the line is clear of defects.
- Get a copy of the video footage. If you cannot, take pictures of the potential issue using your smartphone for your records, as it may be needed for insurance and/or DWSD.

WHERE'S YOUR LINE?

Most of the city's sewer pipes are located in the rear of the property; a few are located in the street. Sewers are typically in the alley or the city easement in your backyard.

WHO WILL FIX IT?

Property owners are responsible for the sewer service from the point at which it leaves the house (beneath the basement) and connects to the city sewer.

*In some neighborhoods the property owner is responsible for the alley.

WHAT IS THE CHILD PROTECTION REGISTRY?

The Child Protection Registry has been a success since 2005 in Utah and Michigan. Modeled after the national Do-Not-Call legislation it is a “Do-Not-Contact” program that allows families to prevent adult product solicitations to their electronic contact points. This registry blocks advertisements or promotions of products that minors are prohibited from purchasing, including alcohol, tobacco/vaping, gambling, pornography and illegal drugs/marijuana. The Michigan Child Protection Registry is administered under the Michigan Secretary of State Office.

WHY IS A REGISTRY LIKE THIS IMPORTANT?

Children as young as two are spending more time on computers, tablets and cell phones than ever before. Marketers, selling adult oriented products, are also using technology more and more to promote their brands and services. Unfortunately, the solicitations these companies are sending are falling in front of the eyes of minors through their email, text messages, and certain apps. We have laws in place to protect children from this kind of marketing in stores, in magazines, and on television—the registry would extend those protections to the digital world.

WHO CAN REGISTER?

Any electronic contact point to which a minor may have access can register for this service free-of-charge, including parents, grandparents, care-givers, schools and institutions.

DOES IT WORK?

Today over one million contact points have been protected in both Utah and Michigan. Since going live, both states have generated over a combined \$1.25 Million in revenue to protect children online, and millions of adult content messages have been blocked from targeting children and families.

HOW DOES IT WORK?

Individuals interested in not receiving adult product solicitations can register their email addresses, Snapchat, Instagram, Twitter and cell phone numbers at www.ProtectMIChild.com. Adult-oriented solicitors will then scrub their contact lists against the registry. Registered emails and other “contact points” will then be removed. The marketers will NOT have access to the actual contact point information. The registry does not store in its database a list of identifiable subscribers.

DO CHILDREN STILL USE EMAIL?

Social media sites and mobile apps require an email address to register for their service. Many schools require children to have email addresses to correspond with their teachers. Email is still a preferred form of communication and will continue to be into the future.

HOW IS THE REGISTRY ENFORCED?

Violations will be reported by recipients, at which point fines may be assessed. Marketers have 30 days to scrub registered contact points from their lists before complaints may be filed.

WHAT'S THE FISCAL IMPACT?

The registry generates its revenue by charging adult product marketers a small fee based on the number of addresses they check against the registry, so there will be no fiscal impact to any state that participates. In fact, the Utah and Michigan registries have generated a nominal revenue for those states.

“The state’s interest in protecting the well-being, tranquility, and privacy of the home is certainly the highest order in a free and civilized society.”
