# Attainment's Early Numeracy

## WEEKLY DISTANCE LEARNING STUDENT SCHEDULE

**WEEK of 4/14/20 – 4/17/20**

### Learning Objectives:

1. Count movable & non movable objects
2. Rote count from 1 – 5.
3. Identify numbers 1 – 5
4. Show quantities of 1 -5.
5. Show ABAB patterns

### Procedure:

**Day 1** – Have your child touch and count on the Number line #s 1-5. Repeat. Ensure he/she is touching the dot that corresponds with the number below it as he/she says the number. Randomly, ask your child to touch a number on the number line. Ex. Touch a 3, touch a 5. Also, ask, while touching a number, “What number is this?”

**Day 2** – Read the story “Math is everywhere” to your child. Share and talk about the pictures.

**Day 3** – Repeat Day 2 and have your child to identify the items in the photos. Around the house: Ask your child to touch and count 5 spoons, 3 coins, 1 sink, etc.

**Day 4** – Repeat Day 3 and have your child complete Activity 1 and 2

**Day 5** – Repeat Day 4 and have your child complete Activity 3 and draw a picture of race cars. Tell him/her to count the cars when he/she is done and write the number on the paper.

# Built for Speed

**W**elcome to the Elm Street Speedway! This is a place that's built for speed. Everything moves fast. Get in line to buy a ticket. My ticket costs \$**3**. Watch me count out my money.

Your ticket also costs \$**3**. That's the same price. Here's my ticket! Look, today my ticket is a circle shape.

I need to hurry to my seat. The race is about to begin. What color is your seat? My seat is red. The seats are in an ABAB pattern. See? Blue, red, blue, red, blue, red.

The race is about to begin. It looks like there are **2** cars in the race today. Wait! Here comes **1** more car. Now how many are there?

It's time to start! The announcer says, "Ready, set, go! They're off!"

# Sunken Treasure

**T**he Captain Hook pirates are on the hunt for treasures. The pirates are going to sail the ocean blue to search for sunken treasure chests full of loot. This is going to be quite an adventure!

Two ships set sail. The ships have their sails up. Look, one sail is in the shape of a triangle.

The hunt for sunken treasures begins. After days of searching, a pirate finds **1** treasure chest. Then, another pirate finds **1** treasure chest. They are equal: **1** and **1**. The pirates open the treasure chests very slowly . . . and they find . . . coins.

Ahoy mates! They find coins. Look at all the coins. Then they find another treasure chest. There are **3** coins in this treasure chest. Oh wait, they find another one with **2** coins. How many coins do the pirates find altogether?

Wow—that's a lot of loot! Nice work! Give me a big pirate "Arrggg."

When the pirates line up their loot, they notice that it makes a pattern. The coins are in an ABAB pattern. See? Gold, silver, gold, silver.

Guess what! I heard that the next time the pirates will hunt for treasures will be in **2** days. Today is October **3**rd. I'll need to mark my calendar to make sure I don't miss that treasure hunt!

## WEEKLY DISTANCE LEARNING STUDENT SCHEDULE

**WEEK of 6/8/20 – 6/12/20**

**Learning Objectives:**

1. Counting coins
2. Identifying coins
3. Differentiating between coins

**For non-readers: Students can participate in a read-aloud and identify pictures**

**Procedure:**

**Day 1** – Watch the video on coins.

<https://www.youtube.com/watch?v=aajLkveG750> Complete the Activity Sheet: Penny Toss

**Day 2** – Watch the video on coins.

<https://www.youtube.com/watch?v=ACQWEklrVws> Complete the Find the Dimes Activity Sheet

**Day 3** – Watch videos from Day 1 and 2 again. Show your child actual pennies, dimes and quarters. Have your child sort out the pennies from the dimes.

**Day 4**– Present a quarter to your child first. Show all 3 coins. Point out what makes them different (value, size, color, etc.). View the videos again – stopping to ask your child to select the coin being discussed (from your 3 coins). Complete the Quarter Quest worksheet.

**Day 5** - Read a book about money or click here: [https://www.abcya.com/games/learning\\_coins](https://www.abcya.com/games/learning_coins)  
Complete the worksheet: Which Coin Is It?

**Extension Activity:** Take your child to the store with 2 quarters, two nickels, two dimes and a quarter. Ask for specific coins to pay for items. Ask your child for one dime, two pennies, 1 quarter, etc.
