WEEKLY DISTANCE LEARNING STUDENT SCHEDULE

Distance Learning Plan Overview

We are providing students a Science Learning Packet, which includes 24 *Studies Weekly* learning booklets and 10-week plan (below) to be picked up at specified sites. In the plan below, we have mapped out the next ten weeks of learning if student focuses on science for at least 2 days a week for 30-45 minutes a day. Each booklet can also be found **online** through your child's **Clever account**, look for the *Studies Weekly Science* Tile on Clever. The online version of the science booklets includes tools to help your child read the text, as well as versions in Spanish and fun videos to support the learning. In addition to the booklets, we have added aligned **additional videos** and **myOn books** as enrichment activities that can be accessed through your child's Clever account using any device.

***PARENTS PLEASE NOTE:** Some of the activities require the use of household items you may or may not have access to at this time. We attempted to select activities with the least amount of required materials. Also, please complete all science activities with your child, they should not be done alone. Please follow all safety precautions.
