

Curriculum Nights

Parents, families and community members are invited to attend an upcoming Curriculum Night. Take part in fun learning activities and school specific discussions around core subjects - English Language Arts and Literacy, Math, Social Studies and Science. Designed to empower and support students, participants of all ages will explore curriculum materials and student work samples to better understand each school's unique learning environment.

In addition, all K-8 schools will highlight Michigan's Third Grade Reading Law and Individual Reading Improvement Plans, and all high schools will also highlight new instructional materials in ELA, Mathematics, and in 9th Grade Science.

For more information, please contact your school directly or visit www.detroitk12.org/curriculumnights

Students Rise. We All Rise.
