# LETTER FROM THE SUPERINTENDENT

## Dear Families and Students,

Thank you for your continued commitment to Detroit Public Schools Community District (DPSCD). We know you have several educational options, so it means even more to us that you have selected our district to ensure your child's academic and social success. We are proud of how we have worked through various challenges the pandemic has brought us while keeping the district together and serving the unique needs of our students, families, and the community. As we look to the 2022-2023 school year, we are excited to turn the pandemic corner and refocus our energy and focus on student achievement.

As we commit to returning to the academic improvement that was demonstrated before the pandemic, we will continue to maximize our one-time COVID-19 relief funding to expand summer school and after-school programming, provide nurses at each school, increase access to mental health services, and expand literacy support for students. We are also looking forward to beginning several facility projects that will significantly improve the condition of our school buildings over the next five years in the areas of heating and cooling, roofs, windows, and parking lots. With anxiety high due to an increase of mass shootings throughout the country, we will also continue to protect students and staff through the strategic use of our officers, security guards, enhanced security camera systems, student ID cards, and refinement of each school's safety and security plan.

This year we will be starting the school year earlier, on Monday, August 29, 2022. We are doing this in order to address the pandemic's negative impact on learning but to also end the school year by early June to avoid the warmer weather that impacted learning in late June.

We know you send your child to school every day so that they can acquire the knowledge and skills needed to thrive in any endeavor they ultimately pursue upon graduation.

Together we can make this happen in every school and in every classroom. Our number-one priority is to continue to place students first; we are here to support you and your family every step of the way. The pandemic has changed us forever. We're stronger together as we approach the new opportunities while honoring the legacy of DPSCD. We know when everyone does their part, students rise. Let's educate our future leaders!

Sincerely,

**Dr. Nikolai P. Vitti, ED.D.**

**Superintendent, Detroit Public Schools Community District**

## MISSION

We educate and empower every student, in every community, every day, to build a stronger Detroit.

## VISION

All students will have the knowledge, skills, and confidence necessary to thrive in our city, our nation, our world.

## CORE VALUES

### Students First

Make decisions that are in the best interest of students. Use every resource strategically so that we can meet students' individual needs.

### Excellence

Be relentless in your pursuit of greatness. Be bold and innovate. Learn from your mistakes. Hold yourself and others to high standards.

### Integrity

Do the right thing, even when no one is looking. Be honest. Be trustworthy. Be accountable.

### Equity

Diversity is an asset that makes us stronger. Advocate for the needs of others. Ensure that all members of our community have access to the tools and resources they need to be successful.

### Service

Listen. Empathize. Respond. Own problems and help solve them.

### Tenacity

Embrace hard work and perseverance in the face of challenges. Follow through on your commitments and strive to do your best, no matter what.

## PRIORITIES

### Transformative Culture

Build and sustain strong school cultures where everyone feels loved, challenged, and prepared.

### Outstanding Achievement

Offer differentiated learning experiences that dramatically accelerate the academic experience of all students and ensure they are college and career ready.

### Whole Child Commitment

Provide students with opportunities and resources to meet their physical and mental health needs, explore their interests, and honor their identities.

### Exceptional Talent

Build an excellent, effective team of dedicated staff to serve our students in a variety of settings.

### Responsible Stewardship

Ensure sustainable, transparent, and equitable deployment of resources to support safety and success.

## An Update on Health & Wellness

The district currently has nursing services at every school, funded through federal funding relief dollars. Our school nurses provide care and consultation as needed, as well as provide informational sessions and support for students with chronic health issues. When DPSCD became the first school district in Michigan to become a childhood immunization and COVID-19 vaccine provider, our school nurses began administering immunizations to students and families who provide consent. The district will continue to operate vaccine clinics through our 107 schools, making immunizations more convenient than ever before.

As a reminder, any new students to the district as well as students entering kindergarten or 7th grade are **required** to be current on their childhood vaccines (e.g., diphtheria, tetanus, pertussis, polio, measles, mumps, rubella, hepatitis B, meningococcal conjugate, and chicken pox). Parents who wish to seek a waiver for the required immunizations must make an appointment with the Detroit Health Department at (313) 876-4667 prior to enrollment.

Families and students if you need support coping with negative feelings or substance abuse, help is a phone call away:

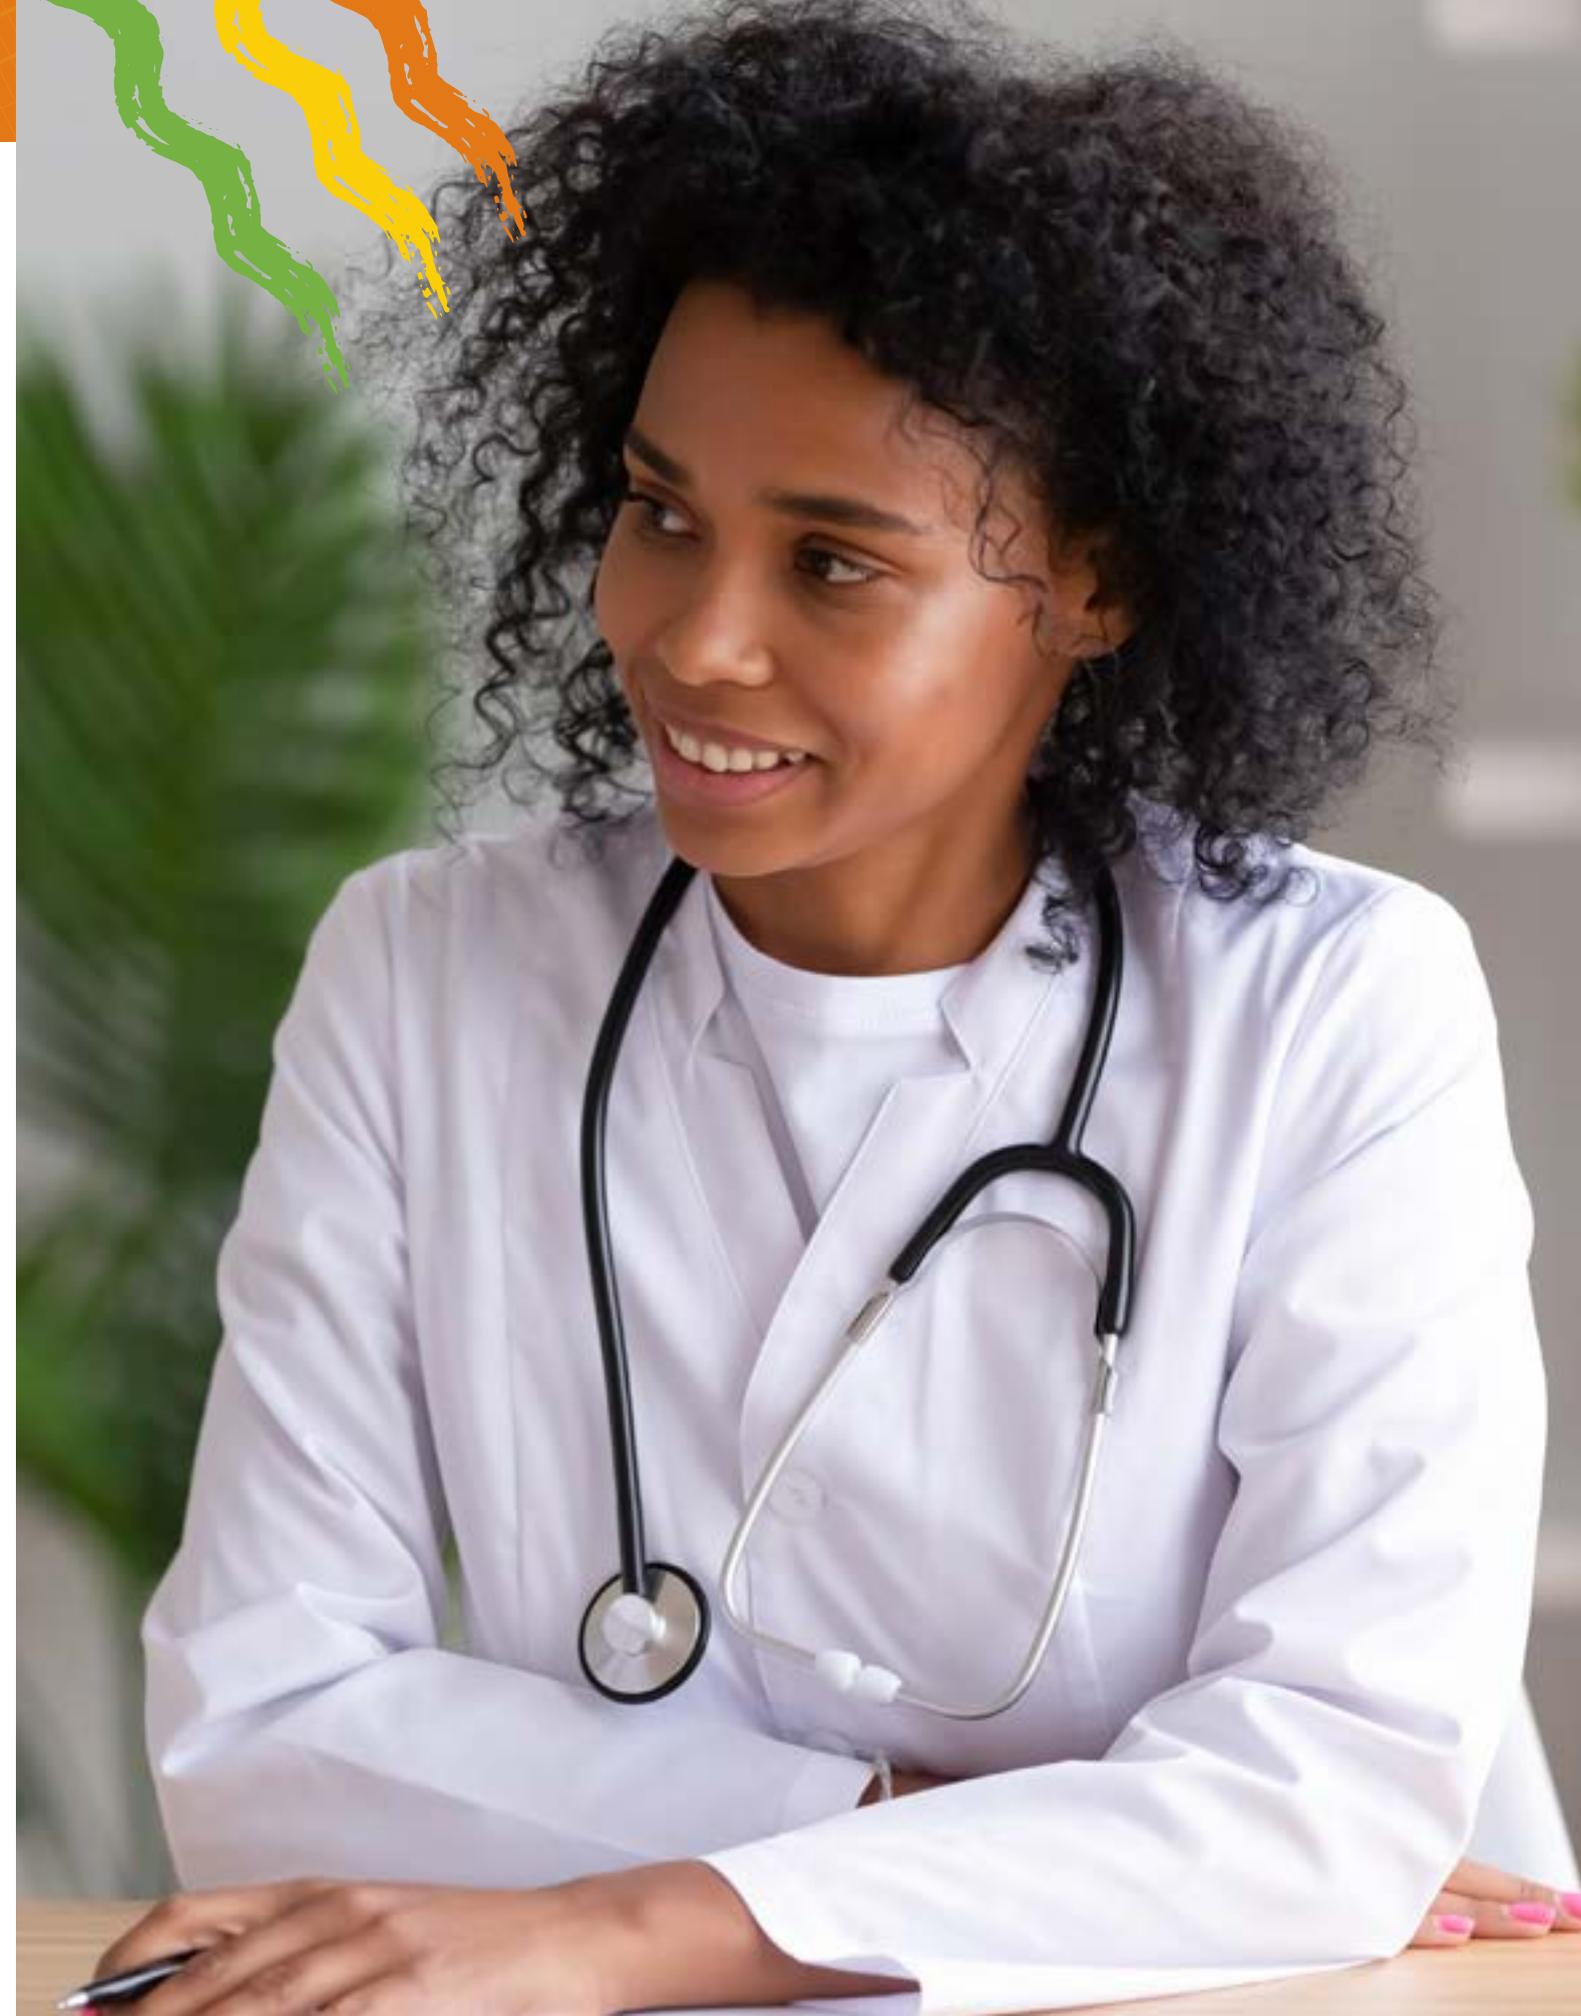

**Crisis & Mental Helpline:** (800) 241-4949, available 24/7 | **TTY:** (800) 630-1044, available 24/7

**For help with substance abuse, call:** (800) 241-4949, available 24/7

**For other support services, please contact Detroit Wayne Integrated Health Network:** Monday–Friday 8:00AM–4:30PM | **Toll Free:** (888) 490-9698 or (313) 833-3232

## Partner Support and Resources

DPSCD is proud to partner with hundreds of organizations across our community. To learn more about which partner organizations support each of our schools and how they do so, students and families can visit [www.tinyurl.com/DPSCDPartnerMap](http://www.tinyurl.com/DPSCDPartnerMap).

## Why is it important to start today?

Research has found that the years before kindergarten are the most important years in a child's development. Students who attend pre-kindergarten (pre-K) develop literacy, language, and math skills faster than non-participating pre-K children. The gains made are greater and persist into early elementary grades. Below, you'll learn how to ensure your student can take full advantage of pre-K.

## What does DPSCD pre-K offer?

DPSCD's Office of Early Learning and Montessori offers pre-K to ensure children have access to high-quality early learning and development programs and enter kindergarten prepared for success. We ensure that all early childhood outcomes include:

- Children thriving
- Children are developmentally ready to succeed in school
- Children are prepared to succeed by achieving appropriate grade-level reading proficiencies

We provide free, high-quality early learning experiences for students who are four years old by December 1 of the current school year in two pre-K programs:

### Great Start Readiness Program (GSRP)

GSRP is a state-funded pre-K program for four-year-old children. Class sizes range from 16 to 18 students, and students meet four days per week (M-TH). The program provides educational, health, mental health, and parental involvement services. Families selected for the Great Start Readiness Program must meet income guidelines.

### Montessori

DPSCD's free pre-K/K Public Montessori program is dedicated to Montessori philosophy. We are strongly invested in creating unique, student-centered learning environments and helping families nurture respectful, responsible, and resourceful children.

Apply today for **DPSCD GSRP pre-K** for the 2022-2023 school year in four simple steps.

1

## Rising Up with Career Pathways

Detroit Public Schools Community District offers a variety of career readiness opportunities to introduce middle and high school students to career choices, so they are familiar with their options after graduation. Career Pathways help students engage in eight industry cluster areas that were identified as the most critical areas for Detroit, Southeast Michigan, and the United States. The clusters are Business & Entrepreneurship; Healthcare; Technology & Media Arts; Law, Education & Public Safety; Engineering, Manufacturing & Transportation; Construction; Service Industries; Agriculture, Food, & Natural Resources. Students participate in hands-on elective courses located at their high schools or one of the three Career Technical Centers. Career Pathways allow students to explore areas of personal interest, making the schooling experience more relevant through a range of career development and work-based learning opportunities (e.g., internships, pre-apprenticeships, job fairs, and industry-focused field trips). It is possible for your student to graduate high school with a diploma, industry certifications, dual-enrollment credits and workplace experiences supported by strategic partnerships with local business and industry employers, professional organizations, and leadership clubs. The sky is the limit as we support your students' rise!

## Teacher Spotlight Having Fun While Learning to Read

Kim White, a first-grade teacher at Spain Elementary, engages her students in daily whole-group interventions. When asked about her favorite components of Orton-Gillingham (OG), she cited the repetition of the three-part drill and dictation. “I could see my students building their confidence writing on their own and sounding out words independently. I witnessed the growth of students being able to blend the phonemes (sounds) with letter cards,” said White. She also saw increased engagement with Orton-Gillingham. “OG kept my students engaged during the virtual learning. With the sound card drills, writing sounds on whiteboards, and the red word routines, students did not have time to drift off or become bored,” she said. Ms. White is looking forward to continuing to teach using OG with her first-graders next year, digging deeper into writing multisyllable words, and delivering more interventions during her small-group time. She is determined to ensure all students are on the right track with literacy.

## Learning to Read with the Right Tools

**Once you learn to read, you will be forever free.**  
—Frederick Douglass, civil rights leader, writer, and abolitionist.

As we re-emerge from the challenges we faced during the pandemic, the Office of Literacy is focusing on pushing student achievement through daily intervention. One tool used to support our scholars in both whole-group and small-group settings is Orton-Gillingham reading interventions. The Orton-Gillingham approach is a multisensory phonics program that uses practices grounded in the science of reading to increase student phonics proficiency. Students in grades K-8 engage in daily practice with skills at their level, ranging from learning letters to unpacking word chunks and their meanings. This multisensory practice includes using sand trays to practice writing letters, engaging activities to help students remember new sounds or chunks introduced in the lesson, practice examining word parts and syllables in the upper grades, and daily high-frequency word (red word) practices coupled with opportunities to grow reading and writing fluency.

Across DPSCD, students enrolled in Orton-Gillingham interventions demonstrated progress from the beginning to middle of the year based on i-Ready Diagnostic Data. Your child's school or teacher will be happy to show you how they support student literacy.

## **DPSCD Parent Teacher Association**

Detroit Public Schools Community District (DPSCD) works with parent leaders to ensure there is an active Parent Teacher Association (PTA) established and implemented at each school. PTA has increased parent involvement, empowering our parents to work side by side with teachers and other staff for the benefit of children. Families receive leadership opportunities with access to training, workshops, grants, and scholarships during the year. Make sure you connect with your school's PTA to take advantage of their support and resources.

## **Parent Academy**

Families, there is no need to feel like you are lost in the education shuffle. The DPSCD Parent Academy was designed to support you and help you advocate on behalf of your children by providing frequent and free workshops, activities, and events. Gain valuable insight on topics such as mental health, choosing the best college, learning about financial aid, job tips, and more. Like to cook? Interested in learning to swim? These classes are available under personal development. Need help understanding your child's IEP or looking to understand the new math? We have this too. If you do not see a course you like, let us know and we will take care of you! This year, FACE opened a Family Resource Center where our parents shop for free. Programs are available in multiple languages to accommodate our diverse community of parents. Call (313) 873-7490 to register for classes and to learn more, or visit <https://www.detroitk12.org/Page/7422>.

## **Student Leadership Develop Program**

The Student Leadership Develop Program (SLDP) officially launched in the fall of 2018. It is a multifaceted initiative for high school students to develop them into future leaders through various components: education, community, activism, and self-discovery. The four prongs that make up this program include District Executive Youth Council, Student Business Luncheon, Student Board Representatives, and Student Leadership Courses.

The Student Leadership Course Development Catalog provides students with essential tools to unlock their potential as leaders while building lifelong leadership and personal development skills. In addition to acquiring a new skill and/or knowledge, students can earn \$25 per course and attend up to 12 courses at max. These courses enable emerging high school student leaders to "find their voice" in their classrooms, schools, communities, and leadership roles by integrating applicable leadership lessons and critical thinking skills.

## Overview of the Program and Highlights

The Office of Science, Technology, Engineering, and Mathematics (STEM) Enrichment focuses on three after-school programs: Academic Games, Chess, and Robotics. All programs are free to students and allow them the opportunity to participate in local, state, and national competitions, pending qualification. We do have national leaders amongst our students.

Students interested in joining an Academic Games team will learn different games such as Equations, On-Sets, LinguisHTIK, Propaganda, Presidents, Theme, and Current Events. Students learn how to work collaboratively, plan strategies, and enjoy camaraderie with teammates. The Academic Games season is September-February (local), March (state), and April (nationals).

Chess team participants learn the skills needed to not only play chess but to compete with their peers. They learn the chess fundamentals and tactics throughout the season. The chess season is September-March (local) and April-May (nationals). Families, please contact your child's school to sign up.

Robotics team participants learn how to work collaboratively while building a robot. The robotics season for K-8 students is September-December. Robotics for high schools is from December-March/April.

During the 2021-2022 school year, Academic Games teams at Mackenzie and Davison won state championships against top teams across Michigan. In addition, the Bates Academy Chess team took home the top honors in the middle school state championship. Eight teams qualified for the national chess competition: Bates Academy, Bunche Preparatory Academy, Cass Technical High School, Chrysler Elementary, Dixon Educational Learning Academy, Edmonson Elementary School, Renaissance High School, and The School at Marygrove. During SY21-22, DPSCD had a record number of FTC (middle school) Robotics teams qualify for state competition: Bates Academy, Clippert Multicultural Magnet Honors Academy, Davison Elementary-Middle School, Durfee Elementary-Middle School, Earhart Elementary-Middle School, Foreign Language Immersion and Cultural Studies School (FLICS), and Neinas Dual Language Learning Academy. The FLICS team won the middle school state championship and the Pershing Robotics Team won the district championship.

We are confident that your child will enjoy participating in these dynamic STEM Enrichment programs.

### DAKAYLA WILLIAMS, 9th Grade, Electrician

"The first two rounds our robot kept malfunctioning and I became even more nervous. However, after Round 3 we had worked out the kinks of the robot and the robot was working consistently. My very first competition and WE WON! I can't believe it!"

### SHAILYN MCKOY, 9th Grade, Coder & Driver

"It was a lot of work, and stressful at times, during the competition when Greg would fail to execute the programming correctly. However, my goal was to have fun and I DID!"

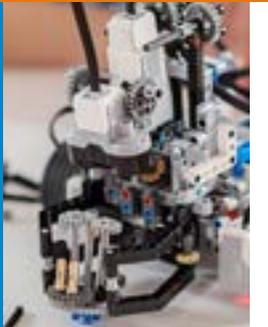

### MICHAEL PILLIVANT, 12th Grade, Team Captain

"I joined the robotics team my freshman year, because my older sister was a member of the team. I am the lead builder of the team, so I am responsible for the construction of Greg, the robot. During the first semester, we attended the MEZ, where we would attend various workshops preparing us for the next level of education (e.g., FAFSA, college admissions requirements, etc.)."

### SPECIAL MITCHELL, 9th Grade, Builder

"I just transferred to Pershing High School from Cass Tech second semester, and immediately joined the robotics team, as a builder, with my best friend Dakayla Williams. I have learned a lot in a short time I have been with the team, and I look forward to learning a lot more in the next three years."

## At DPSCD, You've Gotta Have Art

The Office of Fine and Performing Arts of Detroit Public Schools Community District (DPSCD) provides equitable opportunities for all learners to gain the knowledge, skills, and confidence to become lifelong creators in the arts. Art and/or music is offered at every school. Our K-12 arts programs unlock student potential through dance, visual art, theater, and music. By utilizing the wealth of resources and quality instructors in our great city, students are connected with meaningful, student-centered college and career opportunities from a young age. DPSCD's Cultural Passport program, a collaborative initiative between arts industry partners and the district, brings our students to cultural institutions throughout metro Detroit, including the Detroit Symphony Orchestra, Michigan Opera Theater, and the Detroit Institute of Arts. These opportunities enrich the whole child, giving them more experiences for creative thought.

The Office of Fine and Performing Arts serves to meet the growing and evolving needs of our K-12 students to help them achieve personal, collegiate, and career successes. Our sequential K-8 curriculum creates a rigorous platform for students to experience excellence in arts instruction before their subsequent high school years. Course offerings in beginning, intermediate, and advanced level courses in our high schools further prepare students for the creative challenges ahead of them after graduation.

Learn more about the Detroit School of Arts Pathway Program and the Middle School Arts Conservatories by visiting <https://www.detroitk12.org/Page/7319>. Whatever type of learner you are, there is a home for you in Detroit Public Schools Community District. Through our wide course offerings, expanding arts programs, and Cultural Passport, all students experience the connection to the arts.

## Save the Date for 2023

With your help, we produced a black-tie gala featuring a first-class, premier dinner and a magnificent recognition of alumni through an honors ceremony, accompanied by outstanding student and alumni performances. In addition, we will continue to provide mechanisms for alumni to further connect and support our current students, the global leaders of tomorrow. Thank you for participating in the first annual Come Home Alumni Hall of Fame Weekend!

2022 Come Home Alumni Hall of Fame Inductees are listed online along with weekend highlights found at [detroitk12.org/comehome](https://detroitk12.org/comehome).

## DPSCD Operations Supporting Blueprint 2023

The Division of Operations provides essential services to support the mission of educating and empowering our students. We are committed to ensuring the district operates at its optimum capacity. Our division strives to incorporate the district's core values and increase student pride in their schools through work organized into four departments: Department of Business Operations, Department of Facilities, Office of School Nutrition, and Office of Student Transportation.

### Office of Student Transportation (OST)

DPSCD is committed to the investment of safe, efficient, and dependable transportation for our students to and from DPSCD school buildings. This school year we have two major initiatives planned:

#### Expanding Transportation Services

Currently, the district owns and operates vans that provide service to students living outside of traditional bus routes. With the purchase of the additional fleet, transportation will extend its routes and increase the number of students who have access to ridership. Please visit <https://www.detroitk12.org/transportation> for more information.

#### ID Implementation

This year, DPSCD will implement a Radio Frequency Identification (RFID) system that will be deployed throughout every DPSCD bus and school building. This year, all students will receive a student ID. When students and staff members enter buses, they will scan their ID. Scanning will allow each bus to automatically capture data on ridership, specific to each student. With the implementation of this system, DPSCD will be able to keep accurate data with the time and location of each bus, while also making it easier for bus staff to adhere to regulations of student safety and accountability.

### Office of School Nutrition (OSN)

The Office of School Nutrition supports the educational development of DPSCD students by providing healthy breakfast and hot nutritional lunch to all students in grades K-12 at no charge. With on-site preparation, OSN ensures that meals are served hot in compliance with federal, state, and local health department regulations. This school year, the OSN Department developed key initiatives that support their services—including the extension of their menu, and campaigns to promote healthy eating and encourage food education. In order to properly serve all students, **families please complete the Household Survey-HS4 form by visiting <https://www.detroitk12.org/schoolnutrition>, navigating to the form, and clicking the link.**

#### New Menu Items

OSN will introduce a total of 13 new daily menu options. Four of the options will exclusively be offered as entrees in elementary and middle schools. The remaining nine will be entrees available to high school students. New menu items will range from hot entrees (including a vegetarian option) to salads and sub sandwiches.

#### Culinary Innovations

OSN will introduce three new cooking initiatives that will serve as a promotional tool to encourage students to eat healthy foods and learn more about culinary arts.

- **DPSCD Food Truck Visits** - Food trucks will visit each DPSCD high school on an assigned day throughout each month. This will allow students to have access to unique menu items not traditionally offered in school cafeterias. Food trucks will also be scheduled to visit elementary schools during end of the year celebrations.
- **Rotating Chef Demo Days** - DPSCD chefs will utilize kitchen action stations to provide students with cooking demonstrations and encourage students to attend the district's culinary career pathway program at the Career Tech Center.
- **Cooking with Our Kids** - All DPSCD elementary and middle schools will host cooking classes that will provide students with cooking demonstrations and education on culinary arts.

## Construction Updates: 20-Year Facility Master Plan (FMP)

*DPSCD families, below is an overview of the status of work happening in the district to improve school buildings, including the Facility Master Plan and planning implementation updates. More information will be provided throughout the school year.*

In January 2022, DPSCD presented a plan for a \$700 million series of investments that would help schools across the district achieve student-centered facilities. Over the course of four months and 32 community meetings, more than 2,500 district stakeholders helped shape a final set of recommendations known as the Facility Master Plan (FMP). On May 10, 2022, the DPSCD School Board unanimously approved the plan. The district's facility needs are estimated to be a total of \$2.1 billion (about \$7 per person in the US).

The board approved \$700 million of one-time funding to be allocated to the FMP, which identifies and prioritizes both short- and long-term investments. This school year, the focus will be on building reactivations, facility design improvements, and upgrades to outdoor spaces.

### Building Reactivations and Expansions

This school year 10 facilities will be included in the immediate improvement projects. Five buildings will be reactivated in addition to the development of five new buildings. These reactivations and expansions will improve learning environments and reduce student overcrowding.

### Long-Term Maintenance Costs

Key investments for long-term maintenance costs will be focused on environmental health and safety and maintenance costs, including LED lighting at each high school that is slated for renovations.

### Pool Upgrades

Southeastern High School, Denby High School, Central High School, Cass High School, and Marcus Garvey Academy will have newly upgraded swimming pools to support the physical development of our students and encourage participation in extracurricular activities.

### Playground Revitalization

Numerous playgrounds will be upgraded with repairs to play structures and asphalt to provide students with additional learning and connection spaces.

Please read the Facility Master Plan by visiting [detroitk12.org/facilities](https://detroitk12.org/facilities).

## Picking the Perfect School – Exceptional School Education

The Office of Exceptional Student Education (ESE) includes a full range of exceptionalities servicing approximately 8,000 students with an active individualized education plan (IEP) as well as Gifted and Talented Education (GATE). Detroit Public Schools Community District offers one of the most robust continuums of specialized programs and services found in the state of Michigan. See the lists below for a quick glance at some of the services and programs offered.

### Programs

- Autism Spectrum Disorder
- Mild Cognitive Impairment
- Moderate Cognitive Impairment
- Emotional Impairment
- Deaf or Hard of Hearing
- Visual Impairment
- Physical or Other Health Impairments
- Early Childhood Special Education (3-5 years)
- Early On® (birth to 3 years)

### Services

- Speech & Language Therapy
- Occupational Therapy
- Physical Therapy
- Audiologists
- Orientation & Mobility
- School Social Work
- School Psychologist
- Behavior Specialist
- Transition Specialist

## Gifted & Talented Education

Gifted and Talented Education (GATE) is a continuum of exceptionality that is often overlooked. While the state of Michigan does not currently have legislation directly supporting GATE, Detroit Public Schools Community District has committed to supporting all areas of exceptional needs for our students, with Dr. Vitti and our school board unanimously approving the ESE GATE plan. For more information, visit <https://bit.ly/3NgVGYN>.

Saturday, August 13, 2022, the Office of Exceptional Student Education will hold its first-ever Gifted DETROIT! Symposium at Renaissance High School for students, families, staff, and community partners.

**Register for Gifted DETROIT!** to learn more about ESE's launch of a Universal 2nd Grade Screener for Students this fall '22.

# SPECIAL OLYMPICS IN DPSCD

## What Is Special Olympics at DPSCD?

DPSCD Special Olympics provides year-round sports training and athletic competition for children and adults with intellectual disabilities. Many athletes can experience a level of success with the support of caring volunteers, coaches, family members, and other staff. We are very proud of our students, and your child can also rise and be supported on the DPSCD team.

Some Student-Athlete Experiences Include:

- Physical Fitness
- Social & Emotional Skills
- Appropriate Peer Interactions; Develop Friendships
- Community Development

**DPSCD Special Olympics Unified Champion Schools** is an education and sports-based strategy powered by an engaged student community that breaks down the barriers that separate students with and without intellectual disabilities. The Unified movement activates youth, engages educators, and promotes school communities of acceptance and inclusion where all young people are agents of change. It aims to increase athletic and leadership opportunities for students with and without intellectual disabilities.

The three CRUCIAL components of Unified Champion Schools, listed below, support our initiative of an inclusive culture within DPSCD schools:

- Inclusive Student Leadership
- Unified Sports
- Whole School Engagement

**DPSCD Special Olympics Young Athletes** is a sport and play program for children with and without intellectual disabilities, ages 2 to 7 years old. Young Athletes introduces basic sport skills, like running, kicking, and throwing. Children learn how to play with others and develop important skills for learning. Young Athletes is a fun way for children to get fit, develop social skills, engage in peer interactions, learn healthy physical, social, and emotional habits, and practice transferable skills, whether at school or within the community.

Over 2,000 athletes (children and adults with intellectual disabilities as well as Unified Partners and students) participate in Special Olympics at DPSCD with programs provided at no cost to athletes or their families.

- 24 sports are offered on a seasonal basis
- 6 state-level competitions
- 4 district basketball tournaments
- 5 Young Athlete events
- More than 20 local and regional events happening per year

**If you would like your DPSCD student with an identified intellectual disability (cognitive impairment, autism spectrum disorder, etc.) to participate in this program, you can sign up here for the quarterly family and school e-newsletter: <https://bit.ly/3NiD4b2>.**

## DPSCD Athletics – Building a Championship Culture

Participation in school sports can be one of the most significant and meaningful learning experiences for a student. That is why throughout DPSCD, interscholastic athletic participation exists as part of our Whole Child Commitment, the district's mission to unlock students' full potential. Interscholastic athletics are viewed as an extension of the academic curriculum and are expanded opportunities for students to develop confidence, self-discipline, respect and commitment.

DPSCD athletics also allows for students to be exposed to diverse experiences and promotes a transformative culture where all students, families, community members, and staff feel safe, respected, and connected.

Student-athletes from grades K-12 can participate in a variety of interscholastic sports, including:

- |                      |                          |                     |                   |                 |
|----------------------|--------------------------|---------------------|-------------------|-----------------|
| <b>Football</b>      | <b>Track &amp; Field</b> | <b>Golf</b>         | <b>Basketball</b> | <b>Softball</b> |
| <b>Volleyball</b>    | <b>Swimming</b>          | <b>Soccer</b>       | <b>Wrestling</b>  | <b>Lacrosse</b> |
| <b>Cross Country</b> | <b>Tennis</b>            | <b>Cheerleading</b> | <b>Baseball</b>   |                 |

The 2021–2022 school year was full of athletic accomplishments throughout DPSCD

### MARTIN LUTHER KING JR. HIGH SCHOOL VARSITY FOOTBALL Division 3 State Championship

- Fifth state championship in school history (2007, 2015, 2016, 2018, 2021)
- Third state championship under the leadership of Head Coach Tyrone Spencer
- Led by 2021 Mr. Football Dante Moore and 2022 Mr. Basketball Chansey Willis, Jr.

### RENAISSANCE HIGH SCHOOL GIRLS TRACK & FIELD Division 1 State Championship

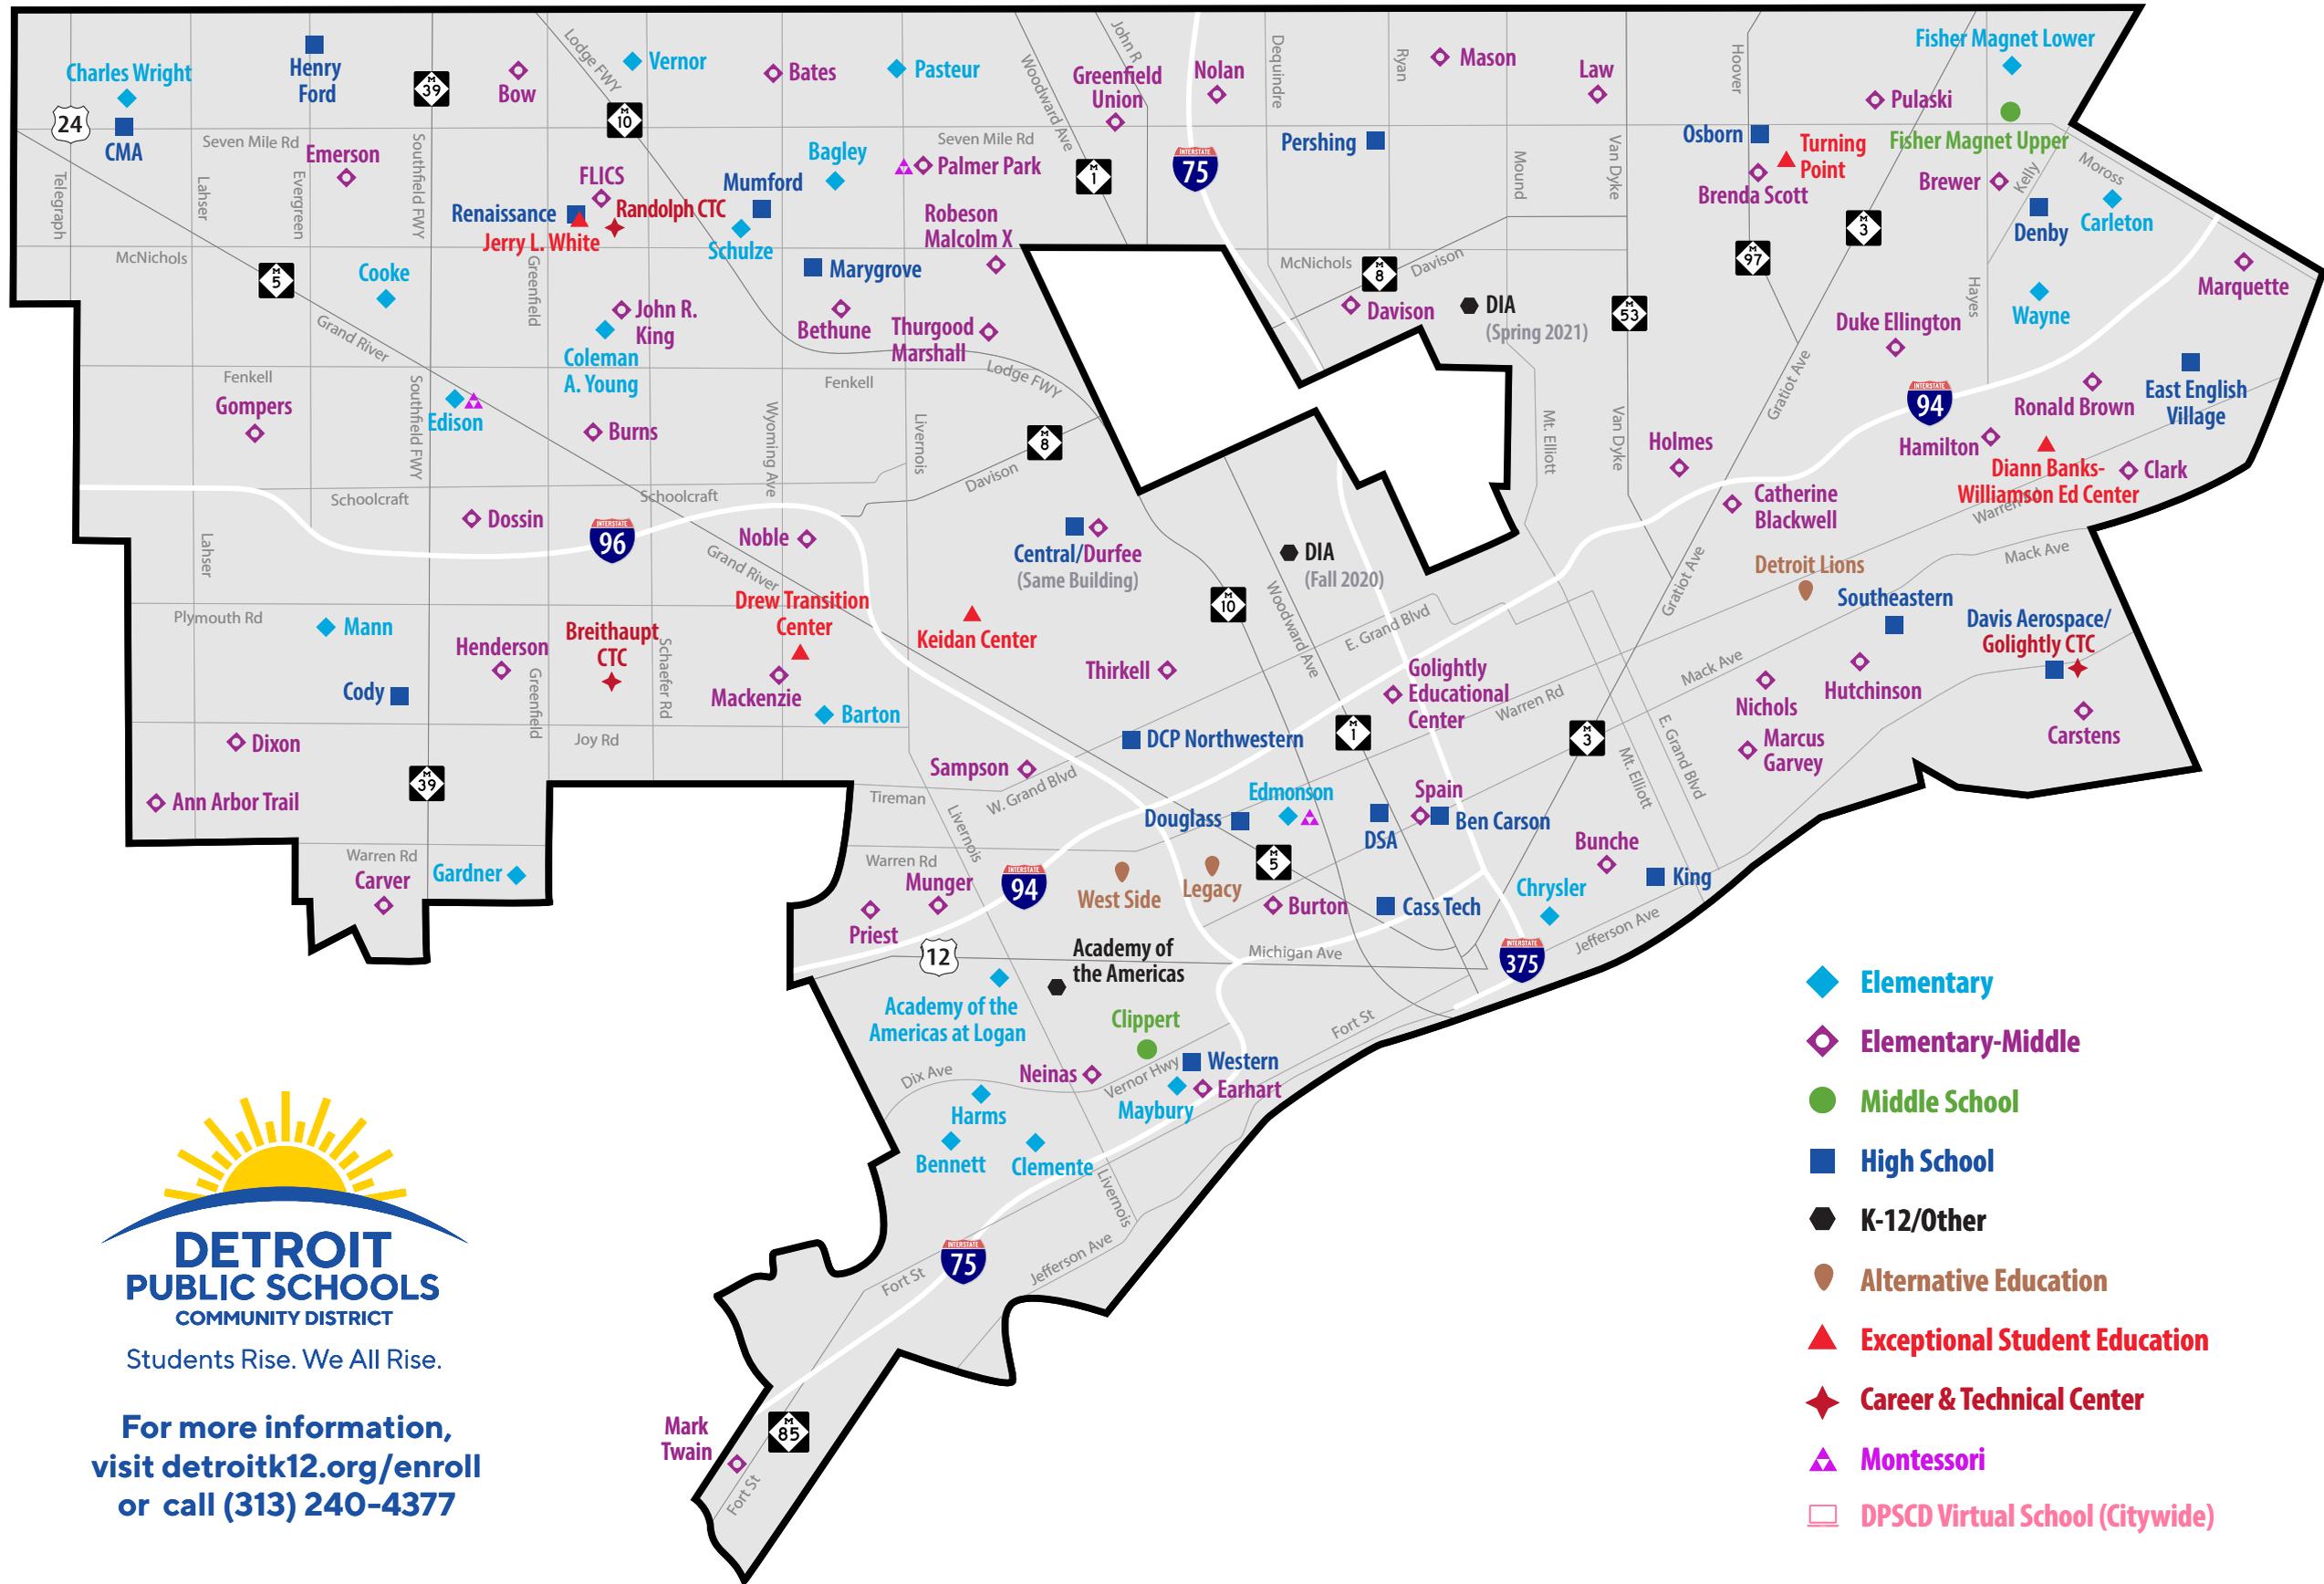

- Led by seniors Leah Burr, Chloe Vines, and Kalia Jackson
- Girls 4x200 Meter Relay-State Champions
- Girls 4x100 Meter Relay-State Champions
- Leah Burr Individual State Champion 400 Meter Dash
- Kalia Jackson Individual State Champion 100 Meter Dash
- Kalia Jackson Individual State Champion 200 Meter Dash
- With this year's performance (time of 23.51), Kalia set the state record in the 200 Meter Dash. The previous record was 23.74.
- Girls Track Team received over \$16 million in athletic scholarships for the graduating class of 2022.

### MUMFORD HIGH SCHOOL WRESTLING Division 2 Individual State Champion JaMarcus Smith

- On March 5, 2022, JaMarcus Smith took the mat at Ford Field in front of a packed stadium. Just by competing in the championship match, he had already made history. Competing in the 103-pound class, he secured his spot in the record books, becoming the first and only DPSCD athlete to win an individual state championship.

**Points of Pride:** Detroit Lions Academy (DLA) is an alternative middle school with a unique program. Our program provides an opportunity for over-age students to get back on the path to success in order to reach high school graduation. Students have a second chance to be successful in a supportive academic and social environment. Detroit Lions Academy provides high-quality face-to-face education. In order to meet each student's needs, we offer smaller classroom sizes to deliver individualized or small-group instruction. DLA participates in our district's implementation of Positive Behavior Interventions and Supports (PBIS) to improve and encourage positive behaviors and academic outcomes. We proudly stand with our district by supporting "Expect Respect." Students are taught positive character traits to help them become respectful individuals who treat others with kindness. Our strong partnership with the Detroit Lions Organization helps us provide incentives, experiences, activities, resources, and supports to students and families. If you are looking for a school where your child can take the next step on their academic journey, consider enrolling them at Detroit Lions Academy, where second chances lead to greater comebacks.
