Life is tough but so are you.

And once the storm is over, you won’t remember how you made it through, how you managed to survive. You won’t even be sure, if the storm is really over. But one thing is certain... When you come out of the storm, you won’t be the same person who walked in. That’s what this storm is all about.

– Haruki Murakami

CREDIT CHECK
Every credit counts! Know your status!!!
An on-target senior has earned...
At least 3 credits per required course per semester
Senior standing: 18+ credits by completion of the 6th semester (11th grade, semester 2)
*Please be mindful that credit recovery is the responsibility of the student and is necessary for graduation by Detroit Public Schools grading requirements*

DID YOU KNOW?
1. Your "body of work" aka transcript reflects your academic history over four years. Colleges base their admission decisions on your academic work after three completed years (6 semesters)
2. Standard four-year college admissions • CUMULATIVE GPA • SAT/ACT SCORE
3. "D" Doesn't stand for "Distractible" and "F" Doesn't stand for "Fantastic!"
4. Aims to get "A"s and "B"s but more importantly to understand the concepts presented in your course.
5. Sub-states "C-" will always be preferred over empty "F"
6. "F" = NO CREDIT You are responsible for retaking any failed courses on the transcript. Even when a course is retaken the "F" remains on the transcript.
7. Freshman year counts too!!! Colleges want to see progression over six semesters but most importantly a continuous progression. Be consistent!!!

*In March of 2020 COVID-19 had a profound impact on society. Most schools throughout the nation were closed and students were engaged in distance learning. As a result, DPS/CD issued pass or fail academic marks for the final semester (June, 2020). Cumulative GPAs remained unchanged which means colleges will make decisions based upon 5 semesters. Any F's that were earned will need to be retaken for credit.

5 Things to Consider When Choosing a Community College

- **Cost:** Community colleges are often cheaper than four-year colleges, making them a great option for students on a budget.
- **Location:** Consider the location of the college and how it will affect your daily commute.
- **Programs:** Check out the programs offered at the college and see if they align with your interests and career goals.
- **Support:** Look for a college that offers strong support services, such as tutoring and counseling.
- **Transfer Opportunities:** Consider if the college has strong transfer agreements with four-year universities.

- In addition to 1:1 meetings with parents for FASFA completion, there will be 2 FASFA nights for students and parents.

- We are currently working on having a small celebration for the students who get their 6 applications done by October 22nd.
