## Athletics

### **Question: What safety measures are in place for athletes?**

**Answer:** All coaches are required to submit a negative COVID-19 test prior to working with the students. All students complete a daily symptom checker and have their temperature taken before practice. Athletes practice social distancing during conditioning activities and maintain an individual water bottle. Staff disinfects each area after students have completed practice.

### **Question: How are safety precautions being monitored while students are conditioning?**

**Answer:** Each school provided a practice schedule to avoid contact with other students. Students are only practicing outdoors where social distancing is possible. Each area used by athletes is being sanitized between uses and being deep cleaned, daily.

### **Question: Will my child be able to participate in sports if I sign him/her up for online learning?**

**Answer:** Yes. Students participating in online learning will be able to participate in sports.

### **Question: There has been a lot of discussion about the sports seasons being reorganized. Is DPSCD changing the sports schedules?**

**Answer:** The District works under the direction of the Michigan High School Athletic Association (MHSAA), which provides guidelines to all participating schools in Michigan. At this time, there has not been a change in the sports schedules. DPSCD would not make a change unless required by MHSAA's decision for high school sports.
