Dear Parents/Guardians of:

My name is Danielle Bean Jackson and I work at Randolph Career and Technical Center as a Wayne RESA *Career Counselor*. As a former high school guidance counselor, I know how great the need is to connect with students and to assist them in both exploring careers and implementing an individual career plan for life after high school. I am thrilled to be able to join in this effort with the Randolph CTC Counseling staff to ensure students are supported.

You should know that I mostly support those graduating seniors who may be **undecided, career confused, or unsure about how to get started on their postsecondary goals**. For students with an unidentified career pathway, I can help them explore their values and interests, the world of work, career trends, high-demand fields, and local training opportunities. In addition, all students referred will receive a detailed action plan that will assist with the completion of their postsecondary goals.

If you'd like to know more about this opportunity or if you'd like your student to **schedule an individual career counseling session**, please feel free to contact me. I can be reached via email (beand@resa.net) or phone (734-431-0860). You are welcome to **text or call**. Because of current health concerns, **virtual and telephone career counseling sessions are available**. In person sessions are also available on Wednesdays at Randolph.

Finally, I would like to encourage you to visit our workforce development inventory website: **workforce.resa.net** to learn more about our work and review our career development resources. It contains a wealth of exploration, educational, training, and employment resources that you may find beneficial.

I hope that this information is helpful. I look forward to supporting your student on their postsecondary journey.

Kind regards,

Danielle Bean Jackson, MA LPC
Career Counselor
