DPSCD Board of Education

Detroit Public Schools Community District welcomed its new Board of Education at a public swearing-in ceremony at Cass Technical High School on January 11, 2017. The ceremony officially ushered in the return of the school district to local control under the governance of the seven-member board. The purpose of the locally elected Board is to serve as the governing body of the District and to provide public education services to children residing within the geographic boundaries of the City of Detroit. The Board is fundamentally a policy-making or legislative body rather than an administrative body. It is the responsibility of the Board to see that schools are operated properly, and not to administer them directly.

- Angelique Peterson-Mayberry, Vice President (term ending 12/31/2022)

- Sonya Mays, Treasury (term ending 12/31/2020)
- Dr. Deborah Hunter-Harvill (term ending 12/31/2022)
- Georgia Lemmons (term ending 12/31/2022)
- Bishop Corletta J. Vaughn (term ending 12/31/2022)

ABOUT THIS HANDBOOK

The DPSCD Employee Handbook applies to all DPSCD employees, unless otherwise noted.

The DPSCD Employee Handbook is designed to provide a brief overview of the most commonly referenced DPSCD policies, administrative regulations, procedures and guidelines. The current version of the Employee Handbook can be found in PDF format on the District website, and can be accessed here: Office of Employee Relations. This Handbook is current as of the effective date at end of this document.

The Employee Handbook does not contain all DPSCD policies, administrative regulations, procedures and/or guidelines that apply to employees. The most up to date version of all policies, administrative regulations, procedures and/or guidelines can be accessed here: Board Docs - Policies.

DPSCD reserves the right to revise, expand, or discontinue the information contained in this Handbook at any time. Only the Superintendent and/or the Detroit Public Schools Community District Board of Education may approve such changes.

The Handbook is not a contract of employment.

The contents in this Handbook do not supersede any contractual obligation on behalf of DPSCD, or applicable State and/or Federal and/or local laws applicable to the District. If there is a conflict between the information in this Handbook and any law, rule, policy, or regulation of the United States, state of Michigan, Michigan Board of Education, Detroit Board of Education or Detroit Public Schools Community District, the law, rule, policy or regulation is the controlling authority.

DPSCD uses several resources to create this handbook. Resources include federal and state laws, Michigan Board of Education rules, Detroit Board of Education policies and the administrative regulations of the DPSCD superintendent.

No handbook can include or anticipate every issue, question, or concern that may arise. Each employee is required to be knowledgeable about the policies and regulations of DPSCD and adhere to them in good-faith. When in doubt, please ask before you make a decision that could violate a law or policy and endanger your employment with the District.

0145 - ANTI-DISCRIMINATION

The Board of Education’s intent is to provide an environment that fosters the respect and dignity of each person. To this end, the Board is committed to maintaining an environment free of discrimination, unlawful harassment and intimidation.

Prohibited conduct includes that which as the purpose or effect of creating an intimidating, hostile, discriminatory, or offensive environment on the basis of race, color, national origin, sex (including sexual orientation or transgender identity), disability, age, or religion, height, weight, marital or family status, military status, ancestry, or genetic information and/or any other legally protect characteristic that is protected by Federal or state civil rights laws. Acts of discrimination and or harassment against a member of the District's community, a student, administrator, professional or support staff member, another Board member, or third party (e.g. visiting speaker, athletic team member, volunteer, parent, etc.) by a member of the Board is strictly forbidden. Any person who is found to have violated this bylaw and applicable District policy will be subject to discipline in accordance with the law.

1422 - NON-DISCRIMINATION AND EQUAL EMPLOYMENT OPPORTUNITY

District Compliance Officer

The Board designates the following individual to serve as the District’s “Compliance Officer” (also known as "Civil Rights Coordinator"):

Kristen Howard
Special Assistant to the Superintendent
Detroit Public Schools Community District
3011 W. Grand Blvd., 14th Floor
Detroit, MI 48202
Email: dpscd.compliance@detroitk12.org

The names, titles, and contact information of this individual will be published annually in the staff handbooks, if any, and on the School District's web site.

The Civil Rights Coordinator is responsible for coordinating the District's efforts to comply with applicable Federal and State laws and regulations, including the District's duty to address in a prompt and equitable manner any inquiries or complaints regarding discrimination/retaliation or denial of equal access. The Civil Rights Coordinator shall also verify that proper notice of nondiscrimination for Title II of the Americans with Disabilities Act (as amended), Title VI and Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendment Act of 1972, Section 504 of the Rehabilitation Act of 1973 (as amended), and the Age Discrimination in Employment Act is provided to staff members and the general public.

3122.02 - NONDISCRIMINATION BASED ON GENETIC INFORMATION OF THE EMPLOYEE

The Board of Education prohibits discrimination on the basis of genetic information in all aspects of employment, including hiring, firing, compensation, job assignments, promotions, layoffs, training, fringe benefits, or any other terms, conditions, or privileges of employment. The Board also does not limit, segregate, or classify employees in any way that would deprive or tend to deprive them of employment opportunities or otherwise adversely affect the status of an
employee as an employee, based on genetic information. Harassment of a person because of his/her genetic information is also prohibited. Likewise, retaliation against an applicant or employee for engaging in protected activity is prohibited.

In accordance with the Genetic Information Nondiscrimination Act (GINA), the Board shall not request, require or purchase genetic information of employees, their family members or applicants for employment. Further, in compliance with this Act, employees are directed not to provide any genetic information, including the individual's family medical history, in response to necessary requests for medical information, with the exception that family medical history may be acquired as part of the certification process for FMLA leave, when an employee is asking for leave to care for an immediate family member with a serious health condition. Applicants for employment are directed not to provide any genetic information, including the individual's family medical history, in response to requests for medical information as part of the District's application process.

"Genetic information," as defined by GINA, means information about: (a) an individual's genetic tests; (b) the genetic tests of that individual’s family members; (c) the manifestation of disease or disorder in family members of the individual (i.e., family medical history); (d) an individual's request for, or receipt of, genetic services, or the participation in clinical research that includes genetic services by the individual or a family member of the individual; or (e) the genetic information of a fetus carried by an individual or a pregnant woman who is a family member of the individual and the genetic information of an embryo legally held by an individual or family member using assistive reproductive technology.

If the District either legally and/or inadvertently receives genetic information about an employee or applicant for employment from the employee, applicant for employment or a medical provider it shall be treated as a confidential medical record in accordance with law. The District is prohibited from directing its employees to search commercially and publicly available documents with the intent of finding or obtaining genetic information, or accessing sources from which they are likely to acquire genetic information.

The Superintendent shall appoint a compliance officer who shall be responsible for overseeing the District’s compliance with Federal regulations and promptly dealing with any inquiries or complaints. S/he shall also verify that proper notice of nondiscrimination for Title II of the Genetic Information Nondiscrimination Act of 2008 is provided to staff members, and that all District requests for health-related information (e.g., to support an employee's request for reasonable accommodation under the ADA or a request for sick leave) is accompanied by a written warning that directs the employee or health care provider not to collect or provide genetic information. The warning shall read as follows:

The Genetic Information Nondiscrimination Act of 2008 (GINA) prohibits employers and other entities covered by GINA Title II, including the Board of Education, from requesting or requiring genetic information of an individual or family member of the individual, except as specifically allowed by law. To comply with this law, do not provide any genetic information when responding to this request for medical information (unless the request pertains to a request for FMLA leave for purposes of caring for an immediate family member with a serious health condition). "Genetic information," as defined by GINA, includes an individual’s family medical history, the results of an individual’s or family member’s genetic test, the fact that an individual or an individual’s family member sought or received genetic services or participated in clinical research that includes genetic services, and genetic information of a fetus carried by an individual or an individual’s family member or an embryo lawfully held by an individual or family member receiving assistive reproductive services.

3123 - SECTION 504/ADA PROHIBITION AGAINST DISABILITY DISCRIMINATION IN EMPLOYMENT

The Board of Education prohibits discrimination against any employee or applicant based upon his/her disability. As such, the District will not engage in employment practices or adopt policies that discriminate on the basis of disability, or otherwise discriminate against qualified individuals with disabilities in regard to job application procedures, the hiring, advancement or discharge of employees, employee compensation, job training, or other terms, conditions and privileges of employment. The District further will not limit, segregate or classify applicants or employees in any way that adversely affects their opportunities or status because of disability. Additionally, the District will not participate in any contractual or other relationships that have the effect of subjecting qualified individuals with disabilities who are applicants or employees to discrimination on the basis of disability.

"An individual with a disability" means a person who has, had a record of, or is regarded as having, a physical or mental impairment that substantially limits one or more major life activities. Major life activities are functions such as caring for
one's self, performing manual tasks, walking, seeing, hearing, eating, sleeping, standing, lifting, bending, speaking, breathing, learning, reading, concentrating, thinking, communicating, sitting, reaching, interacting with others, and working.

Major life activities also include the operation of a major bodily function, including, but not limited to, functions of the immune system, special sense organs and skin, normal cell growth, and digestive, genitourinary, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, hemic, lymphatic, musculoskeletal and reproductive functions. The operation of a major bodily function includes the operation of an individual organ within a body system.

An impairment that is episodic in nature or in remission is considered a disability if it would substantially limit a major life activity when active.

The determination of whether an impairment substantially limits a major life activity must be made without regard to the ameliorative effects of mitigating measures such as medication, medical supplies, equipment or appliances, low-vision devices (defined as devices that magnify, enhance, or otherwise augment a visual image, but not including ordinary eyeglasses or contact lenses), prosthetics (including limbs and devices), hearing aid(s) and cochlear implant(s) or other implantable hearing devices, mobility devices, oxygen therapy equipment or supplies, use of assistive technology, reasonable accommodations or "auxiliary aids or services," learned behavioral or adaptive neurological modifications, psychotherapy, behavioral therapy, or physical therapy.

Section 504 protects persons with a disability who, with reasonable accommodation, can perform the essential functions of the job in question. Title I of the ADA protects individuals who, with or without reasonable accommodation, can perform the essential functions of the employment position that such individual holds or desires.

The Board will provide a reasonable accommodation to the protected persons described above who have an actual disability or who have a record of a disability unless the accommodation would impose an undue hardship on the operation of the District's program and/or activities. A reasonable accommodation is not required for an individual who is merely regarded as having a disability.

The Board designates the following individual to serve as the District's "Compliance Officer" (also known as "Civil Rights Coordinator"):

Kristen Howard
Special Assistant to the Superintendent
Detroit Public Schools Community District
3011 W. Grand Blvd., 14th Floor
Detroit, MI 48202
Email: dpscd.compliance@detroitk12.org

The name, title, and contact information of this individual will also be published annually in staff handbooks, if produced, and on the District's web site.

The Civil Rights Coordinator is responsible for coordinating the District's efforts to comply with and fulfill its responsibilities under Section 504 and Title II of the Americans with Disabilities Act, as amended ("ADA"). A copy of Section 504 and the ADA, including copies of their implementing regulations, may be obtained from the Civil Rights Coordinator. Rights Coordinator will receive all complaints related to civil rights and will disseminate to the applicable department for resolution and/or investigation. Although the Civil Rights Coordinator will disseminate to the applicable department, it will also oversee any investigation of any complaints of discrimination based on disability and will attempt to resolve such complaints.

The Civil Rights Coordinator will oversee the investigation of any complaints of discrimination based on disability, which may be filed pursuant to the District's internal complaint procedure, and will attempt to resolve such complaints. The District will provide for the prompt and equitable resolution of complaints alleging violations of Section 504/ADA.

Training

The Civil Rights Coordinator will also oversee the training of employees in the District so that all employees understand their rights and responsibilities under Section 504 and the ADA, and are informed of the Board's policies, administrative guidelines and practices with respect to fully implementing and complying with the requirements of Section 504/ADA.
The Board will provide in-service training and consultation to staff responsible for the education of persons with disabilities, as necessary and appropriate.

**Facilities**

No qualified person with a disability will, because the District's facilities are inaccessible to or unusable by persons with disabilities, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity to which Section 504/ADA applies.

For facilities constructed or altered after June 3, 1977, the District will comply with applicable accessibility standards. For those existing facilities constructed prior to June 3, 1977, the District is committed to operating its programs and activities so that they are readily accessible to persons with disabilities.

**Notice**

Notice of the Board's policy on nondiscrimination in employment practices and the identity of the Civil Rights Coordinator will be posted throughout the District, and published in the District's recruitment statements or general information publications.

**OCR Complaint**

At any time, if an employee believes that s/he has been subjected to discrimination based upon his/her disability in violation of Section 504 or the ADA, the individual may file a complaint with the U.S. Department of Education's Office for Civil Rights ("OCR"). The OCR can be reached at:

FAX: (216) 522-2573

**Retaliation**

Retaliation against a person who makes a report or files a complaint alleging unlawful discrimination, or participates as a witness in an investigation, is prohibited. Specifically, the Board will not discriminate/retaliate against, coerce, intimidate, threaten or interfere with any individual because the person opposed any act or practice made unlawful by Section 504 or the ADA, or because that individual made a charge, testified, assisted or participated in any manner in an investigation, proceeding, or hearing under those laws, or because that individual exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws.

**ANTI-HARRASSMENT**

**1662 - ANTI-HARASSMENT**

**General Policy Statement**

It is the policy of the Board of Education to maintain an education and work environment that is free from all forms of unlawful harassment, including sexual harassment. This commitment applies to all School District operations, programs, and activities. All students, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging, and reporting any form of unlawful harassment. This policy applies to unlawful conduct occurring on school property, or at another location if such conduct occurs during an activity sponsored by the Board.
The Board will vigorously enforce its prohibition against discriminatory harassment based on race, color, national origin, sex (including sexual orientation and transgender identity), disability, age, religion, height, weight, marital or family status, military status, ancestry, or genetic information (collectively, "Protected Classes") that are protected by Federal civil rights laws (hereinafter referred to as "unlawful harassment"), and encourages those within the School District community as well as third parties, who feel aggrieved to seek assistance to rectify such problems. The Board will investigate all allegations of harassment and in those cases where unlawful harassment is substantiated, the Board will take immediate steps to end the harassment, prevent its reoccurrence, and remedy its effects. Individuals who are found to have engaged in unlawful harassment will be subject to appropriate disciplinary action.

For purposes of this policy, "School District community" means students, administrators, and professional and support staff, as well as Board members, agents, volunteers, contractors, or other persons subject to the control and supervision of the Board.

For purposes of this policy, "third parties" include, but are not limited to, guests and/or visitors on School District property (e.g., visiting speakers, participants on opposing athletic teams, parents), vendors doing business with, or seeking to do business with, the Board, and other individuals who come in contact with members of the School District community at school-related events/activities (whether on or off School District property).

Other Violations of the Anti-Harassment Policy

The Board will also take immediate steps to impose disciplinary action on individuals engaging in any of the following prohibited acts:

A. Retaliating against a person who has made a report or filed a complaint alleging unlawful harassment, or who has participated as a witness in a harassment investigation.

B. Filing a malicious or knowingly false report or complaint of unlawful harassment.

C. Disregarding, failing to investigate adequately, or delaying investigation of allegations of harassment, when responsibility for reporting and/or investigating unlawful harassment charges comprises part of one’s supervisory duties.

D. Sexual conduct/relationships with students by District employees or any other adult member of the School District community is prohibited, and any teacher, administrator, coach, or other school authority who engages in sexual conduct with a student may also be guilty of the criminal charge of "sexual battery". The issue of consent is irrelevant in regard to such criminal charge and/or with respect to the application of this policy to District employees or other adult members of the School District community.

Reports and Complaints of Harassing Conduct

Members of the School District community, which includes all staff, and third parties are encouraged to promptly report incidents of harassing conduct to an administrator, supervisor or other School District official so that the Board may address the conduct before it becomes severe, pervasive, or persistent.

Anti-Harassment Compliance Officers

The Board designates the following individuals to serve as the District’s “Anti-Harassment Compliance Officers" for the District (hereinafter referred to as the “Compliance Officers”).

Executive Director of Compliance
Detroit Public Schools Community District
3011 W. Grand Blvd., 14th Floor
Detroit, MI 48202

Deputy Executive Director of Employee Relations
Detroit Public Schools Community District
3011 W. Grand Blvd., 10th Floor
Detroit, MI 48202

The names, titles, and contact information of these individuals will be published annually in the staff handbooks, if any, and on the School District's web site.
Privacy/Confidentiality

The School District will employ all reasonable efforts to protect the rights of any party involved in a complaint concerning harassment. All records generated under the terms of this policy shall be maintained as confidential to the extent permitted by law. Confidentiality, however, cannot be guaranteed. All public records created as a part of an investigation of a complaint of discrimination/retaliation will be maintained by the Compliance Officers in accordance with the Board's records retention policy and applicable law.

Sanctions and Monitoring

The Board shall vigorously enforce its prohibitions against unlawful harassment by taking appropriate action reasonably calculated to stop the harassment and prevent further such harassment. While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable State and Federal law and the terms of the relevant collective bargaining agreement(s).

Where the Board becomes aware that a prior remedial action has been taken against a member of the School District community, all subsequent sanctions imposed by the Board and/or Superintendent shall be reasonably calculated to end such conduct, prevent its recurrence, and remedy its effects.

Retaliation

Any act of retaliation against a person who has made a report or filed a complaint alleging unlawful harassment, or who has participated as a witness in a harassment investigation is prohibited.

Allegations Constituting Criminal Conduct: Child Abuse/Sexual Misconduct

State law requires any school teacher or school employee who knows or suspects that a child with a disability under the age of twenty-one (21) or that a child under the age of eighteen (18) has suffered or faces a threat of suffering a physical or mental wound, disability or condition of a nature that reasonably indicates abuse or neglect of a child to immediately report that knowledge or suspicion to the county children's services agency. If, during the course of a harassment investigation, the Compliance Officer or a designee has reason to believe or suspect that the alleged conduct reasonably indicates abuse or neglect of the Complainant, a report of such knowledge must be made in accordance with State law and Board Policy.

Education and Training

In support of this Anti-Harassment Policy, the Board promotes preventative educational measures to create greater awareness of unlawful discriminatory practices. The Superintendent or designee shall provide appropriate information to all members of the School District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training, as well as all information provided regarding the Board's policy and harassment in general, will be age and content appropriate.

WHISTLEBLOWER

1411- WHISTLEBLOWER PROTECTION

The Board of Education expects all its employees to be honest and ethical in their conduct, and to comply with applicable State and Federal laws, Board policies, administrative guidelines and procedures. The Board encourages and requires staff to report all potential fraudulent activity. Parents, volunteers, contractors and concerned citizens are encouraged to report all potential fraudulent activity, when done in good faith belief.

Employees are required to call the Fraud Hotline or contact the Office of Inspector General (OIG) directly, when they have credible information regarding potential fraudulent activity. The District shall provide protections to complainants of potential fraudulent activity who, as a result of reporting violations to the OIG may be subject to retaliation by their supervisors.
Any employee making such a report shall be protected from discipline, retaliation, or reprisal for making a Whistleblower report as long as the employee had a good faith belief as to the accuracy of any information reported. Employees are subject to disciplinary action, up to and including termination for knowingly making a false report under this policy. In accordance with this policy, employees may also be subject to disciplinary action, up to and including termination, if they fail to report any potential fraudulent activity and violations of Federal, State, or local laws involving or relating to the business of the District.

**COMPENSATION AND BENEFITS**

**3419.03 - PATIENT PROTECTION AND AFFORDABLE CARE ACT**

The Board of Education acknowledges that the Patient Protection and Affordable Care Act (“ACA”) imposes certain obligations upon the District. Such obligations may include the following:

A. The District shall notify new employees of health insurance options available through the Health Insurance Marketplace within fourteen (14) days of an employee’s employment start date. Sample form notices are available from the U.S. Department of Labor at:

   http://www.dol.gov/ebsa/healthreform/regulations/coverageoptionsnotice.html

B. Employees of the District have the option to enroll in the Health Insurance Marketplace. If a full-time employee (as defined by the ACA) of the District enrolls in the Health Insurance Marketplace and receives a subsidy, then the District may be liable for a penalty.

In event that the District concludes that it is fiscally-wise to incur the potential penalty in lieu of providing affordable, minimum value coverage to all full-time employees, the District shall incur the potential penalty.

**EAP**

**4170.01 - EMPLOYEE ASSISTANCE PROGRAM (EAP)**

The District believes that early recognition and treatment for mental health problems, illegal drug use or controlled substance abuse, emotional problems, and other personal concerns is important for successful rehabilitation, return to productive work, and reduced personal, family, and social disruption.

The District also encourages the earliest possible diagnosis and treatment for illegal drug use, controlled substance abuse, alcohol abuse, gambling and supports sound treatment efforts. Whenever feasible, the District will assist staff members in overcoming either work-related or personal issues. The District’s Employee Assistance Program (EAP) is available to all staff members and it provides professional, confidential, voluntary counseling and other assistance.

EAP provides a short-term intervention strategy and is designed to provide staff the opportunity to promptly address issues of immediate concern to them and their families. The EAP can assist staff members who require longer-term assistance to source an appropriate alternative provider.

The intention of the EAP is early identification and provision of assistance to help resolve either work-related or personal issues. Matters that may be addressed through the EAP include, but are not limited to:

A. dealing with work or life change;

B. issues related to becoming a parent or adjusting parenting skills;

It is the Board of Education's policy to comply with the provisions of the Fair Labor Standards Act (FLSA) and its implementing regulations. The Board will pay at least the minimum wage required by the FLSA to all covered, non-exempt employees. Non-exempt employees are hourly employees, or salaried employees who do not qualify for a professional, administrative, computer or executive exemption under the FLSA. Teachers are generally exempt, even if they are paid on an hourly basis.

Non-exempt employees who work more than forty (40) hours in a given workweek will receive overtime pay in accordance with the FLSA for all hours worked in excess of forty (40).

Non-exempt employees who work overtime without prior approval from the Superintendent or a supervisor may be subject to disciplinary action up to and including termination.

The workweek is established as Monday 12:00AM to Sunday 11:59PM.

To the extent that an employee’s individual contract or collective bargaining agreement provides for greater benefits than mandated by the FLSA, the contractor bargaining agreement will be honored.

Notwithstanding the fact that exempt school employees continue to meet the salary basis requirements and are not disqualified from exemption even if the employee’s pay is reduced or the employee is placed on a leave without pay for
absences for personal reasons or because of illness or injury of less than one (1) work-day because accrued leave is not
used for specific reasons, the Board reserves the right to make deductions from the pay of otherwise exempt employees
under the following circumstances:

A. the employee is absent from work for one (1) or more full days for personal reasons other than sickness or

The Board shall also not be required to pay the full salary in the initial or terminal week of employment, or for weeks in
which an exempt employee takes unpaid leave under the Family & Medical Leave Act.

This policy is intended to comply with and explain the employees’ rights under the Fair Labor Standards Act. To the extent
there is any conflict, or the policy exceeds the statutory requirements, the statute and its implementing regulations prevail.

District employees are required to self-report within forty-eight (48) hours any arrest, arraignment or charge, other than a
minor traffic violation, to their supervisor and the Detroit Public Schools Community District Police Department Criminal
Convictions, Background and Fingerprinting Unit (DPSCD PD CBFU), and if required by law, to the appropriate state

civil or criminal, administrative or judicial, investigatory or adjudicatory.

Self-reporting shall also be required for any conviction, finding of guilt, withholding of adjudication, commitment to a
pretrial diversion program, or entering a plea of guilty or nolo contendere for any criminal offense other than a minor traffic

ATTENDANCE

3129 - EMPLOYEE ATTENDANCE AND PUNCTUALITY

Timely and regular attendance is an expectation of performance for all District employees. To ensure adequate staffing,
positive employee morale, and to meet expected performance standards throughout the District, all District staff shall be
held accountable for adhering to their workplace schedule. Excessive employee absenteeism and tardiness negatively
affects the provisioning of educational services and is therefore unacceptable. Punctual and regular attendance is
therefore an essential responsibility of all District employees.

This policy sets forth the expectations for attendance, communication requirements, and establishes corrective action standards for unacceptable employee attendance.

**Failure to Sign/Clock-in and/or out for Employees**

Employees are expected to follow the established guidelines for recording their actual hours worked. Not to exceed five (5) minutes at the discretion of the work location supervisor of his/her designee. Failure to properly sign/clock-in and/or out shall be counted as an absence until other evidence is provided.

**Misrepresentation of Time Worked/Failure to be at Assigned Work Location**

Misrepresentation of time worked is when an employee may sign/clock-in but does not directly report to his/her assigned work area to begin work or sign/clock-in and leaves the work area. Employee supervisors shall address such misrepresentation of time worked through progressive disciplinary action.

Misrepresentation is also when an employee clocks in/out for another employee. Misrepresentation of work of this nature could be fraudulent and subject to disciplinary action.

**Call-in Guidelines for Employees**

All persons to whom this policy applies who are unable to report to work must notify her or his immediate supervisor at the earliest opportunity, and no later than one hour prior to the scheduled starting time or in accordance with work location procedures, whichever is earlier. All employees to whom this policy applies must advise his/her supervisor of the anticipated date of return.

Should an employee need to be absent or late reporting to work, it is the employee’s responsibility to notify their supervisor in accordance with the supervisor’s/department’s notification process. Employees are required to report on a daily basis when absent (this is not required for employees on an approved Continuous FMLA). Requests in advance are recommended when employees are requesting time off for vacation, personal business and/or planned sick time based on supervisor/department guidelines.

All employees to whom this policy applies on sick leave must be in contact with her or his supervisor on a daily basis during the period of absence. If the expected date of return is not known, the employee shall disclose the date for follow-up treatment. An employee who fails to call-in and report to work as scheduled for more than five (5) consecutively scheduled work days will be classified as having abandoned their position and employment may be subject to termination. The supervisor shall consult the Department of Human Resources and Talent if this situation occurs.

Incidents of not following the departmental notification procedures, including No-Call/No-Show, will be addressed in accordance with the District’s Progressive Discipline policy.

**No Call/No Show and Employee Job Abandonment**

Employees are expected to notify their supervisor in accordance with their work location’s procedures for absences and/or tardies in the event he/she cannot be at work as required. An employee who fails to call or report to work is considered a no call/no show. Any one incident of failure to call/show may result in disciplinary action. Five (5) consecutive missed workdays and failure to notify the employee’s supervisor shall be considered job abandonment and shall subject to disciplinary action.

Incidents of not following the departmental notification procedures, including No-Call/No-Show, will be addressed in accordance with the District’s Progressive Discipline policy.

**Medical Examinations**

An employee not able to return to work following five (5) consecutive days of absence for personal illness may, at the District’s discretion, have a medical examination by the District’s designated physician. The medical examination shall be restricted to the employee’s stated reason(s) for the consecutive absences.
Employees who remain on extended sick leave may be asked to have a medical examination by the District's designated physician during the period they are absent after continued absence beyond two (2) consecutive pay periods. Such examinations are required when sufficient evidence of continued illness is not obtainable by other means.

The Department of Human Resources and Talent shall require a medical examination by the District's designated physician for an employee at any time when the maintenance of minimum health standards in a school or department is in question.

An employee returning from a leave of absence shall, at the District's discretion, have a medical examination by the District's designated physician. A form provided by the District for such purpose, from the employee's personal physician, is required for return from leave of absence for illness. An employee who has been ill with a communicable disease must have a medical examination and release by the District's designated physician.

**Discipline Related to Employee Attendance**

Attendance will be monitored on a regular basis and unsatisfactory attendance will be addressed in a timely and consistent manner. If the employee demonstrates a pattern and practice of absenteeism or tardiness and fails to begin work as scheduled thereby affecting instruction, student care, operational or business functions of the District, disciplinary action shall be warranted. Once an employee reaches the documented verbal warning stage, progressive steps will be issued for attendance occurrences that continue within a rolling 12-month period.

When an employee has been previously counseled under the District’s progressive discipline guidelines, the totality of the circumstances will be assessed when determining further action. For situations involving suspension or termination of employment, the supervisor shall consult with the District’s Office of Employee Relations prior to implementing disciplinary action.

Timely and regular attendance is a performance expectation of all District employees. Consequently, those employees who have exhibited unsatisfactory attendance which resulted in disciplinary action (written or final) during the course of the year shall have the behavior documented in their annual evaluation.

Any disciplinary action taken to address employee attendance as described within this policy shall be consistent and in accordance with applicable negotiated, collectively bargained agreements and State law.

**Time Period for Employee Attendance Management**

A rolling twelve (12) month period will be considered in monitoring employee attendance. Attendance will be monitored with the most recent occurrence and subsequent disciplinary action taken for additional occurrences.

The Superintendent and his/her designee shall develop administrative guidelines to set forth the internal controls necessary to provide for the collection, classification, retention, access, and security of District Data/Information.

Further, the Superintendent is authorized to develop procedures to be implemented in the event of an unauthorized release or breach of data/information. These procedures shall comply with the District’s legal requirements if such a breach of personally-identifiable information occurs.

The Superintendent shall require the participation of staff members in appropriate training related to the internal controls pertaining to the data/information they collect, to which they have access, and for which they would be responsible for the security protocols.

Third-party contractors/vendors who require access to Confidential Data/Information collected and retained by the District will be informed of relevant District policies governing access to and use of Information Resources, including the duty to safeguard the confidentiality of such data/information.

Failure to adhere to this Policy and its related administrative guidelines may put data/information collected and retained by the District at risk. Employees who violate this policy and/or the administrative guidelines promulgated consistent with this policy may have disciplinary consequences imposed, up to and including termination of employment, and/or referral to law enforcement. Students who violate this Policy and/or Administrative Guidelines will be subject to disciplinary action, up to and including expulsion, and/or referral to law enforcement. The Superintendent or his/ her designee shall conduct an annual assessment of risk related to the access to and security of the data/information collected and retained by the District.
8321 - CRIMINAL JUSTICE INFORMATION SECURITY (NON-CRIMINAL JUSTICE AGENCY)

The District is required by State law to have the Michigan State Police (MSP) obtain both a State and a Federal Bureau of Investigation (FBI) criminal history record information (CHRI) background check report for all employees of the District and contractors, vendors and their employees who work on a regular and continuous basis in the District. To assure the security, confidentiality, and integrity of the CHRI background check information received from the MSP/FBI, the following standards are established:

A. Sanctions for Non-Compliance

Employees who fail to comply with this policy and any guidelines issued to implement this policy will be subject to discipline for such violations. Discipline will range from counseling and retraining to discharge, based on the nature and severity of the violation. All violations will be recorded in writing, with the corrective action taken. The Superintendent shall review, approve, sign and date all such corrective actions.

B. Local Agency Security Officer (LASO)

The Director of the Criminal Convictions/Background & Live Scan Unit (CCBLU) shall be designated as the District’s Security Officer (“LASO”) and shall be responsible for overall implementation of this policy and for data and system security. This shall include:

1. Ensuring that personnel security screening procedures are being followed as set forth in this policy;
2. Ensuring that approved and appropriate security measures are in place and working as expected;
3. Supporting policy compliance and instituting the incident response reporting procedures;
4. Ensuring that the Michigan State Police are promptly informed of any security incidents involving the abuse or breach of the system and/or access to criminal justice information;
5. To the extent applicable, identifying and documenting how District equipment is connected to the Michigan State Police system;
6. To the extent applicable, identifying who is using the Michigan State Police approved hardware, software and firmware, and ensuring that no unauthorized individuals have access to these items.

The District’s LASO shall be the point of contact for the Michigan State Police and should be the person most knowledgeable about this policy. The District’s LASO shall be designated on the appropriate form as prescribed and maintained by the Michigan State Police. A new form shall be submitted every time a new LASO is designated.

C. Agency User Agreements

The District shall enter into any required User Agreement for Release of CHRI ("User Agreement"), and future amendments, by the Michigan State Police necessary to access the required CHRI on applicants, volunteers, and all other statutorily required individuals, such as contractors and vendors and their employees assigned to the District. The LASO shall be responsible for the District’s compliance with the terms of any such User Agreement.

D. Personnel Security

All individuals that require access to any criminal justice information shall be subject to the following standards prior to granting of access:

1. Background Checks - A Michigan (or state of residency if other than Michigan) and a national fingerprint-based criminal history record check shall be conducted within thirty (30) days of assignment to a position with direct access to criminal justice information or with direct responsibility to configure and maintain computer systems and networks with direct access to criminal justice information. Background re-checks should be conducted every five (5) years.
a. A felony conviction of any kind will disqualify an individual for access to criminal justice information.

b. If any other results/records are returned, the individual shall not be granted access until the LASO reviews and determines access is appropriate. This includes, but is not limited to, any record which indicates the individual may be a fugitive or shows arrests without convictions. Such approval shall be recorded in writing, signed, dated and maintained with the individual’s file.

c. If support personnel, contractors or custodial workers need to be in an area where CHRI is maintained or processed, they shall be escorted by or under the supervision of authorized personnel at all times while in those area. Information Technology contractors or vendors will be physically or virtually escorted by authorized personnel anytime said individual have access to facilities, areas, rooms, or an agency’s CHRI information system.

2. Subsequent Arrest/Conviction - If an individual granted access to criminal justice information is subsequently arrested and/or convicted, access shall be suspended immediately until the matter is reviewed by the LASO to determine if continued access is appropriate. Such determination shall be recorded in writing, signed, dated and maintained with the individual’s file. In the event that the LASO has the arrest/conviction, the Superintendent (if not the designated LASO) shall make the determination; except that, as noted in D(1)(a), individuals with a felony conviction of any kind will have their access indefinitely suspended.

3. Public Interest Denial - If the LASO determines that access to criminal justice information by any individual would not be in the public interest, access shall be denied whether that person is seeking access or has previously been granted access. Such decision and reasons shall be in writing, signed, dated and maintained in the individual’s file.

4. Approval for Access - All requests for access to criminal justice information shall be as specified and approved by the LASO. Any such designee must be a direct employee of the District. The District must maintain a readily accessible list that includes the names of all LASO approved personnel with access to criminal justice information, as well as the reason for providing each individual access. This list shall be made available to Michigan State Police upon request.

5. Termination of Employment/Access – Within twenty-four (24) hours of the termination of employment, all access to criminal justice information shall be terminated immediately for that individual, such as requiring the individual to return any keys or access cards to buildings, offices, and/or files, or closing the individual's account and/or blocking access to any systems containing such information at the District.

6. Transfer/Re-assignment - When an individual who has been granted access to criminal justice information has been transferred or re-assigned to other duties, the LASO shall determine whether continued access is necessary and appropriate. If not, s/he shall take such steps as necessary to block further access to such information within the twenty-four (24) hour period immediately following the transfer or reassignment.

7. Information Technology Contractors and Vendors – Prior to granting access to criminal justice information to an IT contractor or vendor, identification must be verified via a Michigan (or state of residency if other than Michigan) and national fingerprint-based criminal history record check. A felony conviction of any kind, as well as any outstanding arrest warrant, will disqualify an IT contractor or vendor for access to criminal justice information. A contractor or vendor with a criminal record of any other kind may be granted access if the LASO determines the nature or severity of the misdemeanor offense(s) does not warrant disqualification. If any other results/records are returned, the individual shall not be granted access until the LASO reviews and determines access is appropriate.

E. Media Protection

Access to digital and physical media in all forms, which contains criminal history background information provided by the Michigan State Police through the statutory record check process, is restricted to authorized individuals only. Only individuals involved in the hiring determination of both District employees and volunteers shall be authorized to access digital and physical media containing CHRI.
1. Media Storage and Access – All digital and physical media shall be stored in a physically secure location or controlled area, such as locked office, locked cabinet or other similarly secure area(s) which can only be accessed by authorized individuals. To the extent possible, digital media (e.g., hard drives and removable storage devices such as disks, tapes, flash drives and memory cards) shall be either encrypted and/or be password protected during the transport process. The media shall be directly delivered to the intended person or destination and shall remain in the physical control and custody of the authorized individual at all times during transport. Access shall only be allowed to an authorized individual.

3. Media Disposal/Sanitization – When the CHRI background check is no longer needed, the media upon which it is stored shall either be destroyed or sanitized. The LASO and the Superintendent shall approve in writing the media to be affected. This record shall be maintained by the LASO during the individual’s active employment plus an additional six (6) years.

   a. Digital Media - Sanitization of the media and deletion of the data shall be accomplished by either overwriting at least three (3) times or by degaussing, prior to disposal or reuse of the media. If the media is inoperable or will not be reused, it shall be destroyed by shredding, cutting, or other suitable method to assure that any data will not be retrievable.

   b. Physical Media – Disposal of documents, images or other type of physical record of the criminal history information shall be cross-cut shredded or incinerated. Physical security of the documents and their information shall be maintained during the process by authorized individuals. Documents may not be placed in a waste basket or burn bag for unauthorized individuals to later collect and dispose of.

   All disposal/sanitization shall be either conducted or witnessed by authorized personnel to assure that there is no misappropriation of, or unauthorized access to, the data to be deleted. The most current and unaltered Livescan form (RI-030) will satisfy this requirement and must be retained. Individuals subject to a fingerprint-based CHRI background check shall be provided the opportunity to complete or challenge the accuracy of the individual's criminal history record.

Some type of documentation identifying the position for which a fingerprint-based CHRI background check has been obtained must be retained for every CHRI background check conducted, such as the "Agency User Agreement” (RI-087), an offer letter, employment agreement, new hire checklist, employment contract, volunteer background check form, etc.

The training shall, to the extent possible, be received through a program approved by the Michigan State Police. A template of the training is provided on the Michigan State Police’s website. At a minimum, the training shall comply with the standards established by the U.S. Department of Justice and Federal Bureau of Investigation for Criminal Justice Information Services. DRUGS AND ALCOHOL

3122.01 - DRUG-FREE WORKPLACE

The Board of Education believes that quality education requires a drug-free workplace. It will seek, therefore, to establish and maintain an educational setting which meets the requirements in the Drug-Free Workplace Act and the Drug-Free Schools and Communities Act.

The Board prohibits the manufacture, possession, use, distribution, or dispensing of any controlled substance, including alcohol, by any member of the District’s staff at any time while on District property or while involved in any District-related activity or event. Any staff member who violates this policy shall be subject to disciplinary action in accordance with District guidelines and the terms of any collective bargaining agreements.

To this end, the Board reserves the right to require certain employees to submit to alcohol and controlled substance testing.

The Superintendent shall establish administrative guidelines for the alcohol and controlled substances testing program in accordance with applicable Federal and state laws, District policies and/or terms of currently-valid negotiated, collectively bargaining agreements.
The Superintendent shall establish whatever programs and procedures are necessary to meet the Federal certification requirements, but which also comply or do not interfere with any collective bargaining agreements.

The Board shall not permit the manufacture, possession, use, distribution, or dispensing of any controlled substance, alcohol, and any drug paraphernalia, by any member of the District's staff at any time while on District property or while involved in any District related activity or event. Any staff member who violates this policy shall be subject to disciplinary action in accordance with District guidelines and the terms of collective bargaining agreements.

3170 - SUBSTANCE ABUSE

The Board of Education recognizes alcoholism and substance abuse as treatable illnesses. When such illnesses impair the performance of professional and support staff members, the Board recognizes the responsibility to assist in a manner recommended by appropriate specialists in the treatment of those illnesses.

A professional or support staff member having an illness or other problem relating to the use of alcohol or other substances will receive the same careful consideration and offer of assistance that is presently extended to professional or support staff members having any other illness.

The responsibility to correct unsatisfactory job performance or behavior resulting from a suspected health problem rests with the professional or support staff member. Failure to do so will result in appropriate corrective or disciplinary action as determined by the Board.

No professional or support staff member will have his/her job security or promotion opportunities jeopardized by his/her request for counseling or referral assistance.

Staff members may not avoid consequences of positive drug or alcohol testing after being instructed to submit to a drug or alcohol test.

Professional or support staff members who suspect they may have an alcohol or other drug abuse problem are encouraged to seek counseling and information on a confidential basis by contacting resources available for such service.

4162 - CONTROLLED SUBSTANCE AND ALCOHOL POLICY FOR COMMERCIAL MOTOR VEHICLE (CMV) DRIVERS

Purpose

The District believes that the safety of students while being transported to and from school or school activities is of utmost importance and is the primary responsibility of the driver of the school vehicle. To fulfill such a responsibility, each driver, as well as others who perform safety-sensitive functions with District vehicles, must be mentally and physically alert at all times while on duty.

To that end, the District has established this policy, which includes an alcohol and controlled substances testing program. The Board expects all Drivers to comply with Board Policy 4122.01 on Drug Free Workplace that prohibits the possession, use, sale, or distribution of alcohol and any controlled substance on school property at all times.

Further, the District concurs with the Federal requirement that all Drivers should be free of any influence of alcohol or controlled substance while on duty. Therefore, participation in the alcohol and controlled substances testing program is a condition of employment for all Drivers.

Covered Employees

This policy covers all commercial driver's license (CDL) holders and regular and substitute bus drivers as well as other staff who operate, inspect, service and condition a commercial motor vehicle (CMV) while on duty, regardless of whether they are required to hold a CDL. The term does not include any legally-obtained prescription drug used for its intended purpose in its prescribed quantity unless such use would impair the individual's ability to safely perform safety-sensitive functions. This term includes, but is not limited to, marijuana metabolites, cocaine metabolites, amphetamines, opiate metabolites, phencyclidine (PCP).

C. The term *controlled substance abuse* includes excessive use of alcohol as well as prescribed drugs not being used for prescribed purposes, in a prescribed manner, or in the prescribed quantity.

Dress and Grooming

3216 - STAFF DRESS AND GROOMING

The Board believes that staff members set an example in dress and grooming for students to follow. A staff member who understands this precept and adheres to it enlarges the importance of his/her task to serve as a role model to students, presents an image of dignity, and encourages respect. These factors act in a positive manner toward the maintenance of academic decorum and discipline.

District employees shall generally maintain a neat, well-groomed, and professional appearance that is appropriate for their job functions. Attire should always be appropriate to the work location environment and reflect a professional image to the division, school, or department’s internal and external customers, the public, and stakeholders whom professional and support staff interact.

No dress code policy can cover all contingencies, so employees must exert a certain amount of judgment in their choice of clothing. Notwithstanding, the District retains the authority to specify dress and grooming guidelines for staff that will prevent such matters from having an adverse impact on the educational process. When assigned to District duty, on or off District property, all professional and support staff members shall:
A. remain physically clean, neat, and well groomed;

B. dress in a manner consistent with duties and responsibilities that communicates to students a pride in personal appearance;

C. practice grooming habits in such a way that their hairstyle or dress does not cause a health, safety hazard, and or disrupt work and classroom settings; and

D. dress in a manner that communicates professionalism to students and the community.

Central office based professional and support staff who interact with members of the public, parents, students, employment applicants, vendors, and community/ business leaders shall default to business professional dress with their attire unless the Superintendent and his/her central office designee(s) indicate otherwise. When in doubt, professional staff and support staff employed at the central office shall adhere to a business professional dress code. Men should wear business suits if possible; however, blazers may be worn with dress slacks. Examples of business or professional clothing include jackets and blazers with matching pants, skirt or dresses. Central office staff adhering to the business professional dress code shall wear slacks/pants, shirts/blouses and other formal combinations.

Central office staff shall dress conservatively. Revealing clothing should be avoided. Persons employed in the central office shall wear dress shoes. Head wear is not permitted in a business professional dress code unless it is for religious or cultural significance or for occupational purposes.

Business casual is the minimum level of acceptable casual dress in all other District settings. Employees and contract workers should minimally default to business casual with their attire unless division/department management indicates otherwise. Notwithstanding, business casual is the minimum level of acceptable dress in most District work locations.

All school based professional and support staff shall minimally maintain a "business casual" dress in order to work comfortably, while projecting a professional image for students, parents, and community members. "Business casual" is a generally accepted dress code standard for the school settings. Appropriate “business casual” dress is typically less formal than traditional business clothing but still professional enough to be appropriate for office and school environments.

Examples of "business casual" clothing items includes but is not limited to: (1) khaki styled pants, trousers and business casual slacks at least ankle length, (2) pressed dress shirt or blouse (traditional button-down, collared is often appropriate)—a tie is optional and a blazer can also be appropriate, (3) polishable loafers, oxfords and boots for men, and for women pumps, flats, dress sandals and other types of shoes shall adhere to the “business casual” standard.

Examples of inappropriate “business casual” clothing items include but are not limited to: (1) sweat suits, jogging suits, warm-up suits, wind suits, (2) Yoga pants/exercise leggings, (3) shorts, skirts, and dresses shorter than three inches above the knee (all types)—unless needed to execute assigned duties and responsibilities, (4) casual sandals, “Flip-Flop” thong sandals – plastic, foam, and/or rubber beach type, (5) faded, tattered, frayed, or wrinkled clothing inclusive of denim jeans, (6) casual t-shirts, tube tops, crop tops, off the shoulder tops, spaghetti straps without something over them (7) no midriff, back skin, cleavage or undergarments may show when standing, bending, sitting or stooping, (8) hats or baseball caps, head coverings that do not serve an occupational, cultural or religious purpose or protect from inclement weather and (9) Clothing that is see-through.

Wearing workplace-appropriate denim jeans that are free of holes and tears on special event days or occasionally is appropriate. Collared shirts, polo shirts, sweaters, and turtlenecks are appropriate for men and women. T-shirts with school logos that promote school spirit or a university/college going culture shall be considered appropriate attire for the purpose of this policy.

Clothing for all professional and support staff members shall be non-distracting in length and fit, clean, and properly fitting. The cut of sleeveless garments shall not expose undergarments or be otherwise immodest. Upper garments must adequately cover the waistline and must not expose the midriff while the professional and support staff member is performing school-related activities.

Garments traditionally designed as undergarments, such as boxer shorts, sport bras, sleeveless undershirts or other male/female undergarments shall not be worn as outer garments or intentionally displayed. All footwear must remain secure on feet and not present a safety hazard.
The superintendent and his/her designees may approve variations of this staff dress code policy for special situations such as field days, spirit days, class or team days, work days (when there are no parent conferences or meetings with the public) or for those individuals whose responsibilities may necessitate an alternate form of dress, such as physical education teachers, vocational education instructors, coaches (in season), JROTC and other support personnel, such as food service personnel. Disciplines of particular subject areas may necessitate staff dress and grooming guidelines other than "business casual," in such circumstances the Superintendent and his/her designees shall provide direction.

Professional and support staff are expected to comply with the standards outlined in this policy. Determination of the appropriateness of professional and support staff dress shall remain under the purview and discretion of the Superintendent and his/her designees. He/she shall counsel individual employee(s) regarding suitable, appropriate, acceptable and professional dress, and provide direction as needed. At the worksite level, central office and school-based administrators shall remain responsible for ensuring that employees comply with this policy. Employees who report to work dressed in an unacceptable manner shall be sent home and directed to return to work in proper attire within a reasonable time period. Repeated violations may result in further disciplinary action.

Reasonable accommodations shall be made, by the Superintendent and his/her designees for employees who because of a held religious beliefs, cultural heritage, or medical reasons request a waiver of a particular part of this policy and supporting guidelines for professional and support staff dress and grooming.

   b. the District is granted the privilege of purchasing the materials or products free of any copyright or royalty charges; and

   c. the staff member does not become involved in any way in the selling of the product to the District.
Absent express written agreements which expressly assign copyright ownership, the final decision regarding whether materials were produced independently of any work assignment, and/or without using school equipment, facilities, data, or equipment rests with the Superintendent and his/her designees who shall submit such decisions to the Board.

2. All books, materials, devices, or products which result from the paid work time and/or prescribed duties of professional staff members shall remain the property of the District. The District shall retain all rights and privileges pertaining to the ownership thereof.

In the event that any of these products have commercial possibilities, the Superintendent and his/her designees are authorized to secure copyrights, patents, etc. which will ensure the ownership of the product by the District.

The Superintendent and his/her designees are authorized to negotiate with appropriate agencies for the production and distribution of products with commercial appeal. Such negotiations shall ensure fair and appropriate compensation, including sharing of royalties, for the staff member(s) who developed the products.

Employees shall not be prohibited from holding employment outside the District as long as such employment does not result in a conflict of interest nor interfere with assigned school duties as determined by the District.

The Board expects employees to disclose outside employment. The Board expects employees to devote maximum effort to the position in which employed. An employee will not perform any duties related to an outside job during regular working hours or for professional employees during the additional time that the responsibilities of the District’s position require; nor will an employee use any District facilities, equipment or materials in performing outside work.

It is the policy of the District that students, staff members, and District facilities not be used for advertising or promoting the interests of any non-school agency or organization, public or private, without the approval of the Superintendent or designee; and any such approval, granted for whatever cause or group, shall not be construed as an endorsement of said cause or group by the District or the Board.

Professional staff may, however, utilize political materials or those provided by special interest-groups in adopted courses of study with the approval of the principal.

School facilities or equipment may not be used as a means of producing or disseminating to the community any materials that advertise or promote a political party, political causes, specific religious beliefs or the candidacy of an individual for public office. Students and employees of the Board shall not be used to distribute campaign literature within the schools or on school grounds.

B. Contests/Exhibits

The Board recognizes that contests, exhibits, and the like may benefit individual students or the District as a whole, but participation in such special activities may not:

1. make unreasonable demands upon the time and energies of staff or students or upon the resources of the District;
2. interrupt the regular school program;
3. involve any direct cost to the District (unless the student body as a whole derives benefit from such activities);
4. cause the participants to leave the School District
5. negatively impact the grade of a student who chooses not to participate.

C. Distribution/Posting of Literature

4. flyers and notices from outside non-profit organizations may be made available for students to pick-up at the literature distribution rack/table by the school building's office, under the following circumstances:
   a. the flyer/notice publicizes a specific community activity or event that is age-appropriate for the students that attend the school; and
   b. the organization submits the number of copies of the flyer that it wants placed in the literature distribution rack/table.
No student shall be required to take any of the flyers/notices placed in the literature/distribution rack/table, and the rack/table shall contain a clear notice that the Board does not support or endorse any of the organizations and/or activities/events identified in the flyers/notices.

PERSONAL PROPERTY

3281 - USE OR STORAGE OF PERSONAL PROPERTY

From time-to-time employees may wish to bring personal property to work either for reasons associated with professional or employment responsibilities or for use during off-duty time. This practice is permitted provided it is understood that the District is not responsible or liable for any loss, damage, or misuse of said property.

Except in extraordinary circumstances, the District will provide all employees with the equipment and tools necessary to perform their assigned duties.

The owner of the personal property bears all responsibility and assumes all risk for loss, damage or misuse of personal property while it is on Board property and waives any and all claims for loss or damage against the Board and the District. This provision applies, without limitation, to trespassers, invitees, visitors, and independent contractors.

Under no circumstances shall District employees store, for any period of time, any motor vehicle capable of transporting person(s) or any material(s), floating watercraft or vessels, commercial equipment and heavy machinery on school premises without the express written consent of the Superintendent and his/her designees.

PROCUREMENT AND PURCHASING

6424 - PURCHASING CARDS

The Board of Education recognizes that bank credit cards ("purchasing cards") offer an alternative to existing procurement processes and provide a convenient, efficient method of purchasing goods and services. District employees authorized by the Superintendent may use purchasing cards only for District related purposes in accordance with this policy and handbook related to purchasing cards. Purchasing cards shall not be used to circumvent the general purchasing procedures required by State and Federal law and District policy.

Purchasing cards shall only be used in connection with District-approved or school-related activities and that only those types of expenses that are for the benefit of the District and serve a valid and proper public purpose shall be paid for by purchasing card. However, under no circumstances shall purchasing cards be used for personal purchases or for the purchase of alcoholic beverages, regardless of whether the purchase of such beverages is made in connection with a meal. The personal gain of credit card rewards such as bonus points, frequent flyer miles, or any other affinity program reward by the employee/cardholder are strictly prohibited.

The Superintendent and his/her designee shall develop administrative guidelines that specify those authorized to use purchasing cards, the types of expenses which can be paid by purchasing card, and their proper supervision and use. Inappropriate or illegal use of the purchasing card and/or failure to strictly comply with the limitations and requirements set forth in the administrative guidelines may result in a loss of purchasing card privileges, disciplinary action subject to the Human Resources disciplinary process, personal responsibility for any and all inappropriate charges, including finance charges and interest assessed in connection with the purchase, and/or possible referral to law enforcement authorities for prosecution.

All approved cardholders must abide by purchasing card procedures and regulations set forth in this policy and relevant purchasing card handbook. Misuse of the purchasing card may result in employee disciplinary action subject to the Human Resources disciplinary process. The Department of Finance is responsible with administering, managing and auditing the use of purchasing cards.
All cardholders will receive training prior to receiving purchasing card. Upon completion of training, cardholders will sign out their purchasing card and agree to abide by this policy and the district purchasing card procedures. In addition, cardholders will agree to a payroll deduction if they make an unauthorized purchase in accordance with the above-mentioned items. The Superintendent and his/her designee reserves the right to provide additional training beyond the annual training requirement as needed.

6460 - VENDOR RELATIONS

The District’s purchasing activity is intended solely to serve the operations of the District – and not Board members, employees or their friends or family members. Accordingly, Board members and employees are expected to strictly adhere to the District’s conflict of interest policies as it applies to all dealings with vendors.

STANDARDS OF CONDUCT

The following standards of conduct by Board members and employees are expected and required as it relates to vendors:

A. The functions of pricing and supplier/contractor selections shall be carried out objectively and ethically.

B. Employees who are not authorized to negotiate purchases will not indicate District preference to suppliers/contractors for any product or service to source of supply.

District vendors with a current contract may also serve as sponsors for District functions that serve a large number of employees, students or families.

RELIGION IN THE WORKPLACE

8800 - RELIGIOUS/PATRIOTIC CEREMONIES AND OBSERVANCES

Decisions of the United States Supreme Court have made it clear that it is not the province of a public school to advance or inhibit religious beliefs or practices. Under the First and Fourteenth Amendments to the Constitution, this remains the inviolate province of the individual and the church of his/her choice. The rights of any minority, no matter how small, must be protected. No matter how well intended, either official or unofficial sponsorship of religiously-oriented activities by the school are offensive to some and tend to supplant activities which should be the exclusive province of individual religious groups, churches, private organizations, or the family.

District staff members shall not use prayer, religious readings, or religious symbols as a devotional exercise or in an act of worship or celebration. The District shall not function as a disseminating agent for any person or outside agency for any religious or anti-religious document, book, or article. Distribution of such materials on District property by any party shall be in accordance with District policy.

The Board acknowledges that it is prohibited from adopting any policy or rule respecting or promoting an establishment of religion or prohibiting any person from the free, individual, and voluntary exercise or expression of the individual's/person's religious beliefs. However, such exercise or expression may be limited to lunch periods or other non-instructional time periods when individuals are free to associate.

Observance of religious holidays through devotional exercises or acts of worship is also prohibited. Acknowledgement of, explanation of, and teaching about religious holidays of various religions is encouraged. Celebration activities involving nonreligious decorations and use of secular works are permitted, but it is the responsibility of all faculty members to ensure that such activities are strictly voluntary, do not place an atmosphere of social compulsion or ostracism on groups or individuals, and do not interfere with the regular school program.

The Board shall not conduct or sanction a baccalaureate service in conjunction with graduation ceremonies.

The Board shall not include religious invocations, benedictions, or formal prayer at any school-sponsored event.

The United States Flag and Pledge of Allegiance

The flag of the United States shall be raised above each public school building operated by the District at all times during school hours, weather permitting. This flag shall measure at least 4 feet 2 inches by 8 feet. A United States flag shall also be displayed in every classroom or other instructional site in which students recite the Pledge of Allegiance.

All students in attendance at school will be provided an opportunity to recite the Pledge each day that school is in session. However, no student shall be compelled to recite the Pledge of Allegiance. No student shall be penalized for failure to participate in the Pledge and the professional staff shall protect any such students from bullying as a result of their not participating in the Pledge.

The building principal or administrator shall be responsible for determining the appropriate time and manner for reciting the Pledge, with due regard to the need to protect the rights and the privacy of a nonparticipating student.
SMOKING IN THE WORKPLACE

3215 - USE OF TOBACCO BY PROFESSIONAL STAFF

The Board of Education desires to protect students and employees who choose not to use tobacco from exposure to the use of tobacco products. Pursuant to state law, the Board prohibits the use of tobacco products on District premises, in District vehicles, and in all school buildings owned and/or operated by the District.

For purposes of this policy:

A. "tobacco product" means a preparation of tobacco to be inhaled, chewed, or placed in a person's mouth

   4. the use or smoking of electronic, "vapor," or other substitute forms of cigarettes, clove cigarettes or other lighted smoking devices for burning tobacco or any other substance.

SPEECH

3310 - FREEDOM OF SPEECH IN NONINSTRUCTIONAL SETTINGS

The Board acknowledges the right of professional and support staff members, as citizens in a democratic society, to speak out on issues of public concern.

The following guidelines are adopted by the Board to help clarify and, therefore, avoid situations in which the professional and support staff member's expression could conflict with the District's interests. In such situations, he/she should:

A. state clearly that his/her expression represents personal views and not necessarily those of the School District where appropriate;

B. not make threats, use obscenities or use abusive language towards co-workers, administrators, or officials of the District;

C. refrain from making public expressions which he/she knows to be false or are made without regard for truth or accuracy;

D. not make defamatory comments about co-workers, administrators, or the district as a whole;

E. refrain from making public expressions that incite imminent lawless action; and

F. commit slander or libel against the District or its board members, officers, administrators, employees, agents or contractors.

SOCIAL MEDIA

7544 - USE OF SOCIAL MEDIA

Technology is a powerful tool to enhance education, communication, and learning. The Board of Education authorizes the use of social media to promote community involvement and facilitate effective communication with students, parents/guardians, staff, and the general public.
In designating District-approved social media platforms/sites, the Superintendent or his/her designee shall specify which platforms/sites are appropriate for use at the District-level, the building or department level, for extra-curricular activities, and at the individual level by employees for professional purposes.

It is critical that students be taught how to use social media platforms safely and responsibly. Social media is a powerful and pervasive technology that affords students and employees the opportunity to communicate for school and work purposes, and to collaborate in the delivery of a comprehensive education. Federal law mandates the District provide for the education of students regarding appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms and regarding cyberbullying awareness and response.

The District recognizes that employees may use social media for personal, as well as professional reasons. The District neither encourages nor discourages employees’ use of social media for personal purposes. The District regulates employees’ use of social media for purposes related to their District assignment to the same extent as it regulates any other form of employee communication in that regard.

The District uses approved social media platforms/sites as interactive forms of communication and welcomes public comments. District-approved social media platforms/sites are considered limited public forums. The platforms/sites are forums established by the District, a public body, for comments about the District, its educational activities and its programs. As such, the District will monitor posted comments to verify they are on-topic, consistent with the posted rules for use of the forum, and in compliance with the platform/site’s applicable terms of service. The Board’s review of posted comments will be conducted in a viewpoint neutral manner, and consistent with State and Federal law.

Authorized staff may use District technology resources to access and use social media to increase awareness of District programs and activities, as well as to promote achievements of staff and students, provided the Superintendent approves, in advance, such access and use. Use of social media for business-related purposes is subject to Michigan's public records laws and staff members are responsible for archiving such social media and complying with the District's record retention schedule. Each District-approved social media account/site must contain a statement that specifies its purpose(s) and limits those who access the social media account/site to use of the account/site only for that/those purpose(s), and in accordance with any specified procedures, and applicable terms of service. Users are personally responsible for the content of their posts.

Social Media for Instructional and School-Sponsored Activities

Staff (including District-approved volunteers) may, with prior approval/authorization from the Superintendent or his/her designees use social media platforms/sites for classroom instruction or school-sponsored activities. When a staff member uses a District-approved social media platform/site for an educational purpose, it will be considered an educational activity and will not be considered a limited public forum. Students’ use of District-approved social media platforms/sites must be consistent with the Student Code of Conduct, the instructor's directions/procedures, and the platform/site's applicable terms of service. Students are prohibited from posting or releasing personally identifiable information about students, employees, and volunteers through District-approved social media without appropriate consent.

Staff members (including District-approved volunteers) must provide parents of students involved in a school-sponsored activity the ability to opt-out of having their child use social media platforms/sites for communication purposes associated with that activity, and arrange for an alternative method of communicating with the participating student concerning the school-sponsored activity.

Expected Standards of Conduct on District-Approved Social Media

Employees and District-approved volunteers who access District-approved social media platforms are expected to conduct themselves in a respectful, courteous, and professional manner. Students, parents, and members of the general public who access District-approved social media platforms are similarly expected to conduct themselves in a respectful, courteous, and civil manner.

District-approved social media sites shall not contain content that is obscene; is vulgar and lewd such that it undermines the school's basic educational mission; is libelous or defamatory; constitutes hate speech; promotes illegal drug use; is aimed at inciting an individual to engage in unlawful acts or to cause a substantial disruption or material interference with District operations; or interferes with the rights of others. The District may exercise editorial control over the style and content of student speech on District-approved social media if reasonably related to legitimate pedagogical concerns. Staff or students who post prohibited content shall be subject to appropriate disciplinary action.
The District is committed to protecting the privacy rights of students, parents/guardians, staff, volunteers, Board members, and other individuals on District-approved social media sites. District employees are prohibited from posting or releasing confidential information about students, employees, volunteers, or District operations through social media, without appropriate consent (i.e., express written consent from the parent of a student, the affected employee or volunteer, or the Superintendent concerning District operations).

Retention of Public/Student Records

District communications that occur through the use of District-approved social media platforms/sites – including staff members’ use of social media with school-sponsored activities, and comments, replies, and messages received from the general public – may constitute public records or student records, and all such communications will be maintained (i.e., electronically archived) in accordance with the Board’s adopted record retention schedule and all applicable State statutes. Records that are not part of the performance of an official function do not become public records by mere retention by the District under this policy.

Staff members and District-approved volunteers cannot rely on social networking platforms (e.g., Facebook, Twitter, etc.) to sufficiently fulfill potential records retention requirements because these platforms, in general, do not guarantee retention and are unlikely to assist in the production of third-party comments and communications that have been edited, deleted, or are otherwise no longer available. Consequently, District employees and volunteers who use such social media accounts for professional communications must operate them in accordance with the general archiving practices and technology instituted by the District so records remain within the District’s control and are appropriately retained.

If a staff member uses District-approved social media platforms/sites in the classroom for educational purposes (i.e., classroom instruction), the staff member must consult with the Principal and Information Technology department concerning whether such use may result in the creation of public and/or education records that must be maintained (i.e., electronically archived) for a specific period of time.

Employees' Use of District Technology Resources to Access Social Media for Personal Use

Employees are prohibited from using District technology resources to access social media for personal use during work hours. They are reminded that the District may monitor their use of District technology resource.

Employees' Use of Personal Communication Devices at Work to Access Social Media for Personal Use

Employees are permitted to use personal communication devices not owned by the Board to access social media for personal use during work hours, provided it does not interfere with the employee’s job performance or duties.

Employees are prohibited from posting or engaging in communication that violates State or Federal law, Board policies, or administrative procedures. If an employee/volunteer's communication interferes with his/her ability to effectively perform his/her job or violates State or Federal law, Board policies, or administrative procedures, the District may impose disciplinary action and/or refer the matter to appropriate law enforcement authorities.

This policy and its corresponding administrative procedure will be reviewed and updated on an annual basis.

SOLICITATION, SELLING AND FUNDRAISING

5830 - FUNDRAISING

Fundraising is limited in order to prevent disruption and includes solicitation and collection of money for any purpose including collection of money in exchange for tickets, papers, or any other goods or services. Fundraising in school, on school property, or at any school-sponsored event is permitted only when the profit is to be used for school purposes or for an activity connected with the schools.

School and student fundraising activities serve two (2) general purposes:

A. to promote the education, general welfare, and morale of students; and
B. to finance the legitimate extra-curricular activities of the student body in order to augment, but not conflict with, the educational program provided by the Superintendent and his/her designee(s).

Requests for fundraising activities are initiated at the discretion of the principal and approved by appropriate District staff. It is the responsibility of the principal to follow the District’s internal fund accounting policies and procedures in approving and maintaining adequate controls and accountability over all fundraising activities.

Fundraising activities shall be conducted during non-instructional class time, preferably before and after school or during lunch, so not to interrupt instruction in the core subjects. At the principal’s discretion, the collection of money for pre-paid activities or pre-sale items only may be authorized at a specified time during the school day, as long as this process does not disrupt classroom instruction.

For any fundraisers that involve the sale to students of food items and/or beverages that will be consumed on campus, the food and/or beverages items to be sold shall comply with the current USDA Nutrition Standards in the National School Lunch and School Breakfast Programs, the USDA Smart Snacks in School regulations, and applicable State law. If approved, the fundraisers that involve the sale to students of food items or beverages that will be consumed on campus shall also be consistent with regulations established in Policy 8510, Health and Wellness Policy.

At the culmination of the fundraiser a profit and loss statement shall be submitted to the principal. Community members wishing to engage in fundraising activities at a school shall contact the school’s principal. No community member, student, school organization, or member of the school staff may solicit funds in the name of the school from the public for any purpose without prior approval of the principal and the Superintendent’s designee(s). All approvals shall be in writing and shall be retained at the school for audit purposes.

All applications for approval of fundraising activities shall specify the times and places in which the fundraising activity will be conducted, the specific costs of the fundraising merchandise/activity; and the specific purpose intended for the funds being raised.

Each fundraising activity shall have adequate controls, reliable record-keeping procedures for the safekeeping of cash, and proper pricing. All fundraising activity shall also be conducted in a manner that protects participants. The Superintendent and or his/her designees may develop additional administrative guidelines and procedures for conducting fundraising activities. Fundraising for all student activities shall also be in accordance with other applicable Board policies.

Only district personnel who have received and satisfactorily passed training on handling cash may collect and transact funds in district approved accounts. All funds shall be deposited into district approved accounts. All fundraising activities and collection of funds associated with fund raising activities shall strictly follow district procedures established by the Superintendent or his/her designee.

Allowable Fundraising

The district prohibits fundraising by District staff, students, organizations and or affiliated groups for the acquisition of operational services, operational supplies, consumable paper based products, and other consumable goods that would traditionally be procured by the District, including but not limited to office supplies, toiletries, and traditional physical education equipment. Exceptions to this rule shall be approved by the Superintendent and his/her designee(s).

Student Activity Funds

Student Activity Funds may be established to facilitate fundraising and enable student activities. Each student activity fund covered by this policy shall be approved by the Superintendent or his/her designee before any money can be collected or is disbursed. The Superintendent is directed to obtain annually a list and brief description of all objectives, activities and limitations of each fund prior to the start of the new fiscal year.

The Chief Financial Officer or designee shall be the Treasurer of the student activity funds. He/She may delegate responsibility for the funds to the Principal of the school where fund activities take place.

All funds accumulated in the account of a specific class or student activity will, upon the discontinuance of the activity, be disposed of in accordance with the recommendation approved by the Superintendent or his/her designee.
Crowdfunding

This policy applies to the use of any form of crowdfunding utilizing an online service or website-based platform for the financial benefit or gain of the District – be it a specific classroom, grade level, department, school, or curricular or extracurricular activity. “Crowdfunding” refers to a fundraising campaign to collect typically small amounts of money from a large number of individuals to finance a project or fundraise for a specific cause. Through the use of personal networking, social media platforms, and other Internet based resources, funds are solicited or raised to support a specific campaign or project. Crowdfunding campaigns may be utilized to raise funds for specific class or student activity. Crowdfunding campaigns shall have prior approval and adhere to the fundraising requirements and guidelines/procedures referred to in this policy.

Crowdfunding activities aimed at raising funds for a specific classroom or school activity, including extracurricular activity, or to obtain supplemental resources (e.g., supplies or equipment) that are not required to provide a free appropriate public education to any students in the classroom may be permitted, but only with the specific approval the Deputy Superintendent/Chief of Schools.

All crowdfunding activities are subject to AG 6605.

In the event that a fundraiser, including a crowdfunding fundraiser is conducted without proper approval or in a manner deemed detrimental to the District or its participants, the District may take legal action and/or disciplinary action against the responsible persons.

The District is not legally responsible for fundraising activities conducted at the local school level and/or approved in accordance with this policy.

Fundraising conducted by the PTA/PTO and Other School-Allied Organizations

Fundraising activities organized and conducted by the PTA/PTSA and or any other school-allied organizations are independently operated by those organizations. Nevertheless, such activities shall be submitted to the respective school principal for approval prior to conducting the fundraising activity, with those involving community solicitation also requiring specific approval from the Deputy Superintendent/Chief of Schools. All approvals shall be retained for audit purposes.

Sponsors for Approved School Organizations

School sponsors for approved school organizations shall not accept any form of compensation from vendors that might influence their selection of a vendor that will provide a fundraising activity or a product that will be sold as a fundraiser. Sponsors for approved school organizations shall not accept any compensation from a vendor after a decision has been made regarding a fundraising activity or a product that will be sold as a fundraiser. In addition, sponsors for approved school organizations who make the selection of a vendor that will provide a fundraising activity or a product that will be sold as a fundraiser shall not enter into a contractual arrangement that provides compensation to the sponsor in any form from that vendor.

Additional Student Fundraising Prohibitions and Safeguarding:

The solicitations, collection of funds, and fundraising in private homes, offices or businesses of any kind shall not be permitted. Participants in school approved fundraising activities are strictly prohibited from standing in roadways and/or medians of roadways. Solicitations, collection of funds, and fundraising which presents any danger to students is prohibited. Students engaged in any type of community based fundraising shall be actively supervised and protected by certificated school district personnel. Written authorization from the Deputy Superintendent/Chief of Schools is required for student fundraising activities in the community.

The Superintendent and his/her designee(s) shall distribute this policy and the implementing procedures to all individuals, groups, and organizations granted permission to solicit funds on an annual basis.

STAFF GIFTS

3214 – STAFF GIFTS

To avoid the appearance of impropriety, the Board discourages the exchange of gifts between staff and students.
Based on the foregoing, it is the policy of the Board that:

A. Staff members may accept gifts, from students less than $50. Examples include a mug, piece of fruit or baked item.

B. Staff members shall consult with their building administrator regarding the appropriateness of providing gifts to students. Factors to consider include, but are not limited to 1) student need; 2) cost of gift; 3) nature of gift; and 4) relationship of gift to educational program or District activity. If a staff member wishes to give a gift to a student, s/he may do so as a gift to the classroom. Examples of such class gifts include, but are not limited to, library books or other educational resources for the class.

C. Items may not be cash or cash equivalents.

The Superintendent may approve acts of generosity to individual staff members in unusual situations. The Superintendent shall establish administrative guidelines requiring all staff to disclose gifts valued greater than $50.

Upon the recommendation of the Superintendent, the Board shall consider, as appropriate, the presentation of token gifts to retiring members of the staff who have rendered service for a period of time.

**7440.01 - VIDEO SURVEILLANCE AND ELECTRONIC MONITORING**

In order to protect Board property, promote security and protect the health, welfare and safety of students, staff and visitors, the Board of Education authorizes the use of video surveillance and electronic monitoring equipment on school property, in school buildings, and on school buses. Information obtained through video surveillance/electronic monitoring may be used to identify intruders and persons breaching contracts (including employment agreements), breaking the law, Board policy, or the Student Code of Conduct (i.e., it may be used as evidence in disciplinary actions and criminal proceedings). Ordinarily, video surveillance/electronic monitoring equipment will not be used to make an audio recording of conversation occurring on school grounds or property.

The Board will not use video surveillance/electronic monitoring equipment to obtain information for the purpose of routine staff appraisal/evaluation or monitoring.

Recordings of students will be treated as confidential, to the extent allowed by law. Copies of video recordings containing personally identifiable information about students shall not be released except as required or authorized by law. The due process rights of students will be respected in the event there is a suspicion of inappropriate activities related to breaking the law or violating Board policy. Parents or guardians of minor students and students who are eighteen (18) years of age or older, who are charged with disciplinary violations may view relevant portions of any video recording related to the charge, upon written request to the building principal, provided that viewing the recording does not violate State and/or Federal law (i.e., the privacy rights of any other students whose images appear on the recording without the written release of such party). Likewise, school personnel may view relevant portions of any video relating to any disciplinary charge against them, upon written request to the building principal, provided that viewing the recording does not violate State and/or Federal law (i.e., the privacy rights of any students whose images appear on the recording). Absent a clear legal obligation, confidential recordings will only be released through subpoena or court order.

The Board shall maintain video surveillance/electronic monitoring recordings for a limited period. Any request to view a recording under this policy must be made within thirty (30) days of the event/incident. Unless an investigation is being conducted, recordings shall be destroyed after thirty (30) days. If, however, action is taken by the Board/administration, as a result of a formal complaint or incident, recordings shall be kept for a minimum of one (1) year from the date of the action taken. Recordings may also be kept beyond the normal retention period if they are going to be utilized for training purposes.

This policy does not address or cover instances where school officials record a specific event (e.g., a play, music performance, athletic contest, graduation, or Board meeting) or an isolated instance where a classroom is videotaped for educational or research purposes. Authorized videotaping for educational, instructional and/or research purposes is permitted and is not addressed by this policy.
The Superintendent or his/her designee is directed to develop administrative guidelines to address the use of video surveillance/electronic monitoring equipment in school buildings, school buses and on property owned and/or operated by the Board.

Video surveillance is to be implemented in accordance with this policy and the related guidelines. The Board will not accept or tolerate the improper use of video surveillance/electronic monitoring equipment and will take appropriate action in any cases of wrongful use of this policy.

Annually, the Superintendent or designee shall conduct a review to verify that this policy and its implementing guidelines are being adhered to and report to the Board on the use of video surveillance/electronic monitoring equipment in the District.

7540.01 - TECHNOLOGY PRIVACY

The District recognizes its staff members’ right to privacy in their personal lives. This policy serves to inform staff members of the Board's position with respect to staff-member privacy in the educational and workplace setting and to protect the Board's interests.

All District Technology Resources are the District's property and are intended to be used solely for business purposes. The District retains the right to access and review all Information Resources, including but not limited to electronic and voice mail, computer files, databases, and any other electronic transmissions contained in or used in conjunction with the District's computer system/network, telephone system, electronic mail system, and voice mail system. Staff members shall have no expectation that any personal information/data maintained, stored, or transmitted on or through such systems is confidential or private.

Review of such information may be done by the District with or without the staff member's knowledge. The use of passwords does not guarantee confidentiality, and the District retains the right to access information in spite of a password.

All passwords or security codes must be registered with the District. A staff member's refusal to permit such access to Information Resources may be grounds for discipline up to and including discharge.

District Technology Resources are to be used only for business and educational purposes.

No personal messages should be exchanged via District-owned technology. Because District Technology Resources are to be used solely for business and educational purposes, staff members are prohibited from sending offensive, discriminatory, or harassing computer, electronic, or voice mail messages.

Staff members are encouraged to keep their personal records and personal business at home.

Personal messages via District-owned technology should be limited in accordance with the Superintendent's guidelines. Staff members are encouraged to keep their personal records and personal business at home. Because District Technology Resources are to be used primarily for business and educational purposes, staff members are prohibited from sending offensive, discriminatory, or harassing computer, electronic, or voice mail messages.

District Technology Resources must be used properly. Review of computer files, electronic mail, and voice mail will only be done in the ordinary course of business and will be motivated by a legitimate business reason. If a staff member's personal information is discovered, the contents of such discovery will not be reviewed by the District, except to the extent necessary to determine if the files/email/voice mail constitute a public record or if the District's interests have been compromised. Any information discovered will be limited to those who have a specific need to know that information.

The administrators and supervisory staff members authorized by the Superintendent have the authority to search and access information electronically.

All District Technology Resources and District Information Resources are the property of the District. Staff members shall not copy, delete, or remove any information/data contained on District Technology Resources without the express permission of the Superintendent, or communicate any such information to unauthorized individuals. In addition, staff members may not copy software onto any District Technology Resources and may not bring software from outside sources for use on District Technology Resources or provide unauthorized access to District Technology Resources or
District Information Resources. Prior approval of the Superintendent or his/her designee must be obtained before any outside software, hardware or other technology is used in connection with District Technology Resources or District Information Resources. Such pre-approval shall include a review of any copyright infringements or virus problems associated with such outside software.

7540.02 - WEB CONTENT, SERVICES, AND APPLICATIONS

Creating Web Pages/Sites/Services and Software Applications

The District authorizes staff members and students to create web content, services and software applications (apps) hosted by the District on its servers or District-affiliated servers and published on the Internet related to the District's educational purposes. For purposes of this policy, an app is defined as a self-contained program or piece of software enabling the user to perform a specific task.

The web content, services and apps must comply with State and Federal law (e.g., copyright laws, Children's Internet Protection Act (CIPA), Section 504 of the Rehabilitation Act of 1973 (Section 504), Americans with Disabilities Act (ADA), Student Online Personal Protection Act (SOPPA) and Children's Online Privacy Protection Act (COPPA), and reflect the professional image/brand of the District, its employees, and students. Web content, services and apps must be consistent with the District’s Mission Statement. Staff-created web content, services and apps are subject to prior review and approval of the Superintendent or his/her designee before being published on the Internet and/or utilized with students.

The creation of web content, services and apps by students must be done under the supervision of a professional staff member.

The purpose of web content, services and apps hosted by the District on its servers or District-affiliated servers is to educate, inform, and communicate. The following criteria shall be used to guide the development of such web content, services and apps:

A. Educate

Content should be suitable for and usable by students and teachers to support the curriculum and the District's Objectives as listed in the District's Strategic Plan.

B. Inform

Content may inform the community about the school, teachers, students, or departments, including information about curriculum, events, class projects, student activities, and departmental policies.

C. Communicate

Content may communicate information about the plans, policies and operations of the District to members of the public and other persons who may be affected by District matters.

The information contained on the District's website(s) should reflect and support the District's Mission Statement, educational philosophy, and the school improvement process.

When the content includes a photograph or information relating to a student, the District will abide by the provisions of Policy 8330 - Student Records and applicable Federal and State privacy laws. All links included on the District’s website(s) or web services and apps must also meet the above criteria and comply with State and Federal law (e.g., copyright laws, CIPA, Section 504, ADA, SOPPA and COPPA). Nothing in this paragraph shall prevent the District from linking the Board’s website(s) to 1) recognized news/media outlets (e.g., local newspapers' websites, local television stations' websites) or 2) to websites, services and/or apps developed and hosted by outside commercial vendors pursuant to a contract with the Board.

Under no circumstances are District-created web content, services or apps to be used for commercial purposes, advertising, political lobbying, or to provide financial gains for any individual. Included in this prohibition is the fact no web content contained on the District’s website may: 1) include statements or other items supporting or opposing a candidate for public office, the investigation, prosecution or recall of a public official, or passage of a tax levy or bond issue; 2) link to
a website of another organization if the other website includes such a message; or 3) communicate information supporting or opposing any labor organization or any action by, on behalf of, or against any labor organization.

Under no circumstances are staff member-created web content, services or apps, including personal web pages/sites, to be used to post student progress reports, grades, class assignments, or any other similar class-related material. Employees are required to use the Board-specified website, service or app for the purpose of conveying information to students and/or parents.

Staff members are prohibited from requiring students to go to the staff member's personal web pages/sites (including, but not limited to, their Facebook, Instagram, Pinterest pages) or other sites, other than Board-specified website, service or app to check grades, obtain class assignments and/or class-related materials, and/or to turn in assignments. If a staff member creates web content, services or apps related to his/her class, it must be hosted on the Board-owned or a District-affiliated server. Unless the web content, service or app contains student personally identifiable information, Board websites, services and apps created by students and/or staff members posted on the Internet should not be password protected or otherwise contain restricted access features, whereby only employees, student(s), or other limited groups of people can access the site. Community members, parents, employees, staff, students, and other website users will generally be given full access to the Board’s website(s), services and apps.

Web content, services and apps should reflect an understanding both internal and external audiences will be viewing the information.

School website(s), services and apps must be located on Board-owned or District-affiliated servers.

The Superintendent or his/ her designee shall prepare administrative guidelines defining the rules and standards applicable to the use of the Board’s website and the creation of web content, services and apps by staff and students.

The Board retains all proprietary rights related to the design of web content, services and apps hosted on Board-owned or District-affiliated servers, absent written agreement to the contrary.

Students who want their class work to be displayed on the Board's website must have written parent permission and expressly license its display without cost to the Board.

Prior written parental permission is necessary for a student to be identified by name on the Board's website.

**Instructional Use of Web Services and Apps**

The Board authorizes the use of web services and/or apps to supplement and enhance learning opportunities for students either in the classroom or for extended learning outside the classroom.

The Board requires the Superintendent or his/ her designee pre-approve each web service and/or app a teacher intends to use to supplement and enhance student learning. To be approved, the web service or app must have a FERPA-compliant privacy policy, as well as comply with all requirements of the Children's Online Privacy Protection Act (COPPA), the Student Online Personal Protection Act (SOPPA), the Children's Internet Protection Act (CIPA), Section 504, Americans with Disabilities Act (ADA) and the Health Insurance Portability and Accountability Act of 1996 (HIPAA) related to PCI.

The District further requires the use of a District-issued email address in the login process, prior written parental permission to use a student’s District issued email address in the login process.

**7540.04 - STAFF TECHNOLOGY ACCEPTABLE USE AND SAFETY**

Technology has fundamentally altered the ways in which information is accessed, communicated and transferred in society. As a result, educators are continually adapting their means and methods of instruction and the way they approach student learning, to incorporate the vast, diverse, and unique resources available through the Internet. The District provides Technology and Information Resources to support the educational and professional needs of its staff and students. The District provides staff with access to the Internet for limited educational purposes only and utilizes online educational services/applications to enhance the instruction delivered to its students and to facilitate the staff’s work. The District’s computer network and internet system does not serve as a public access service or a public forum, and the District imposes reasonable restrictions on its use consistent with its limited educational purpose.
The District regulates the use of District Technology and Information Resources by principles consistent with applicable local, State, and Federal laws, the District’s educational mission and articulated expectations of employee conduct as delineated in Employee Work Rules. The District’s technology policy series and its related administrative guidelines and any applicable employment contracts and collective bargaining agreements govern the staffs’ use of the District’s Technology and Information Resources and staff’s personal communication devices when they are connected to the District’s computer network, internet connection and/or online educational services/applications, or when used while the staff member is on District property or at a District-sponsored activity.

Users are required to refrain from actions that are illegal (such as libel, slander, vandalism, harassment, theft, bullying, plagiarism, inappropriate access, and the like) or unkind (such as personal attacks, invasion of privacy, injurious comment, and the like). Because its technology resources are not unlimited, the District has also instituted restrictions aimed at preserving these resources, such as placing limits on use of bandwidth, storage space, and printers.

Users have no right or expectation to privacy when using District Technology and information resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the District’s computer network and/or Internet connection).

Staff are expected to utilize District Technology and Information Resources to promote educational excellence in our schools by providing students with the opportunity to develop the resource sharing, innovation, and communication skills and tools essential to both life and work. The District encourages staff to develop the appropriate skills necessary to effectively access, analyze, evaluate, and utilize these resources in enriching educational activities. The instructional use of the Internet and online educational services will be guided by Policy 2521 Selection of Instructional Materials and Equipment.

The internet is a global information and communication network that brings incredible education and information resources to students. The internet connects computers and users in the District with computers and users worldwide. Through the internet, students and staff can access relevant information to enhance their learning and the education process. Further, District technology resources provide students and staff with the opportunity to communicate with other people from around the world. However, access to such an incredible quantity of information and resources brings with it certain unique challenges and responsibilities.

The District may not be able to technologically limit access, through its technology Resources, to only those services and resources that have been authorized for the purpose of instruction, study, and research related to the curriculum. Unlike in the past when educators and community members had the opportunity to review and screen materials to assess their appropriateness for supporting and enriching the curriculum according to adopted guidelines and reasonable selection criteria (taking into account the varied instructional needs, learning styles, abilities, and developmental levels of the students who would be exposed to them), access to the internet, because it serves as a gateway to any publicly available file server in the world, opens classrooms and students to electronic information resources that may not have been screened by educators for use by students of various ages.

Pursuant to Federal law, the District has implemented technology protection measures to protect against (e.g., filter or block) access to visual displays/depictions/materials that are obscene, constitute child pornography, and/or are harmful to minors, as defined by the Children’s Internet Protection Act. At the discretion of the Superintendent, the technology protection measures may also be configured to protect against access to other material considered inappropriate for students to access. The District also utilizes software and/or hardware to monitor online activity of staff members to restrict access to child pornography and other material deemed as obscene, objectionable, inappropriate and/or harmful to minors. The technology protection measures may not be disabled at any time that students may be using the District Technology Resources if such disabling will cease to protect against access to materials prohibited under the Children’s Internet Protection Act. Any staff member who attempts to disable the technology protection measures without express written consent of an appropriate administrator will be subject to disciplinary action, up to and including termination.

The Superintendent or his/her designees may temporarily or permanently unblock access to websites or online educational services/apps containing appropriate material if access to such sites has been inappropriately blocked by the technology protection measures. The determination of whether material is appropriate or inappropriate shall be based on the content of the material and the intended use of the material, not on the protection actions of the technology protection measures. The Superintendent or his/her designees may also disable the technology protection measures to enable access for bona fide research or other lawful purposes.
Staff members will have access to professional development programs in accordance with the provisions of law and this policy. Training shall include:

A. the safety and security of staff and students while using e-mail, chat rooms, social media and other forms of direct electronic communications;

B. the inherent danger of students disclosing personally identifiable information online;

C. the consequences of unauthorized access (e.g., "hacking", "harvesting", "digital piracy", "data mining", etc.), cyberbullying and other unlawful or inappropriate activities by students or staff online; and

D. unauthorized disclosure, use, and dissemination of personally identifiable information regarding minors or any other individual.

Furthermore, staff members shall provide instruction for their students regarding the appropriate use of technology and online safety and security as specified above, and staff members will monitor students' online activities while at school.

Monitoring may include, but is not necessarily limited to, visual observations of online activities during class sessions; or use of specific monitoring tools to review browser history and network, server, and computer logs.

The unauthorized disclosure of personally identifiable information about students online is prohibited.

The Department of Information Technology will provide staff and building leaders with appropriate guidance and training materials in order to ensure staff are knowledgeable about this policy and any accompanying guidelines. The District expects staff members will provide guidance and instruction to students in the appropriate use of the District technology resources. Such training shall include, but not be limited to, education concerning appropriate online behavior, including interacting with other individuals on social media including in chat rooms and cyberbullying awareness and response. All users of District Technology Resources are required to sign a written agreement to abide by the terms and conditions of this policy and its accompanying guidelines.

Staff will be assigned a District e-mail address they are required to use for all school-related electronic communications, including those to students, parents and other staff members in accordance with Policy 7540.05.

With prior approval from the Superintendent or his/her designee, staff may direct students who have been issued District assigned e-mail accounts to use those accounts when signing-up/registering for access to various online educational services, including mobile applications to be used by the students for educational purposes under teacher supervision.

Staff members are responsible for good behavior when using District technology and information resources - i.e., behavior comparable to that expected when they are in classrooms, school hallways, and other school premises and school-sponsored events. Communications on the Internet are often public in nature. The District does not approve any use of its technology and information resources that is not authorized by or conducted strictly in compliance with this policy and its accompanying guidelines.

Staff may only use District technology resources to access or use social media in accordance with the District’s social media policy, Policy 7544.

Users who disregard these policies and the accompanying guidelines may have their user privileges suspended or revoked, and disciplinary action taken against them. Users are personally responsible and liable, both civilly and criminally, for uses of District technology and information resources that are not authorized by this policy and its accompanying guidelines.

The Board designates the Superintendent and his/her designee as the administrators responsible for initiating, implementing, and enforcing this policy and its accompanying guidelines as they apply to staff members’ use of District Technology and Information Resources.

7540.05 - DISTRICT-ISSUED STAFF E-MAIL ACCOUNT

The District provides and authorizes staff members and Board members to use electronic mail ("e-mail") hosted by the District on its servers for its educational purposes. The District is committed to the effective use of e-mail by all District
staff and Board members in the conduct of their official duties. This policy and corresponding administrative guidelines are intended to establish a framework for the proper use of e-mail for conducting official business and communicating with colleagues, students, parents and community members.

When available, the District's e-mail system must be used by employees for any official District e-mail communications. Personal e-mail accounts on providers other than the District's e-mail system may be blocked at any time if concerns for network security, SPAM (e.g. unsolicited, undesirable or illegal messages), or virus/spyware/malware protection arise. Furthermore, District staff are expected to exercise reasonable judgment and prudence and take appropriate precautions to prevent viruses from entering the District's network when opening or forwarding any e-mails or attachments to e-mails originating from unknown sources.

District staff shall not send or forward mass e-mails, even if the e-mails concern District business.

District staff may join listservs or other e-mail services (e.g. RSS feeds) pertaining to their responsibilities in the District. If a staff member is unsure whether s/he has adequate storage or should subscribe to a listserv or RSS feed, s/he should discuss the issue with his/her building principal or supervisor and consult with the District's Technology Department staff. The Superintendent or his/her designee is authorized to block e-mail from listservs or e-mail services if the e-mails received by the staff member(s) become excessive.

Staff members are encouraged to keep their inbox and folders organized by regularly reviewing e-mail messages, appropriately saving e-mails constitute a public record or student record and e-mails are subject to a litigation hold and purging all other e-mails that have been read. If the staff member is concerned his/her e-mail storage allotment is not sufficient, s/he should contact his/her building principal or supervisor and consult with the District's Technology Department staff.

Public Records

The District complies with all Federal and State laws pertaining to public records and e-mails. A public record is a writing prepared, owned, used, in the possession of, or retained by the District, its Board, officers, or employees in the performance of an official function, from the time it is created, subject to certain exemptions. Accordingly, e-mails written by or sent to District staff and Board members may be public records if their content concerns District business, or education records if their content includes personally identifiable information about a staff member and/or a student. E-mails are public records and are subject to retention and disclosure, upon request, in accordance with Policy 8310 – Public Records.

State and Federal law exempt certain documents and information within documents from disclosure, no matter what their form. Therefore, certain e-mails may be exempt from disclosure or it may be necessary to redact certain content in the e-mails before the e-mails are released pursuant to a public records request, the request of a parent or eligible student to review education records, or a duly served discovery request involving ESI (electronically stored information).

E-mails written by or sent to District staff and Board members by means of their private e-mail account may be public records if the content of the e-mails concerns District business, or education records if their content includes personally-identifiable information about a student. Consequently, staff shall comply with a District request to produce copies of e-mail in their possession that are either public records or education records, or constitute ESI subject to a litigation hold, even if such records reside on a computer or personal communication device owned by an individual staff member, or are accessed through an e-mail account not controlled by the District.

Retention

Pursuant to State and Federal law, e-mails are public records or education records, and e-mails are subject to a litigation hold shall be retained.

The District maintains archives of all e-mails sent and/or received by users of the District's e-mail service. Staff members are required to forward copies of any e-mails received in their personal e-mail account(s) not affiliated with the District server to their District e-mail account so these records are also archived for future retrieval, if necessary.

Unauthorized E-mail

The Board does not authorize the use of District Technology Resources, including its computer network ("network"), to accept, transmit, or distribute unsolicited bulk e-mail sent through the Internet to network e-mail accounts. In addition,
Internet e-mail sent, or caused to be sent, to or through the network makes use of or contains invalid or forged headers, invalid or non-existent domain names, or other means of deceptive addressing will be deemed to be counterfeit. Any attempt to send or cause such counterfeit e-mail to be sent to or through the network is unauthorized. Similarly, e-mail relayed from any third party's e-mail servers without the permission of the third party, or which employs similar techniques to hide or obscure the source of the e-mail, is also an unauthorized use of the network. The District does not authorize the harvesting or collection of network e-mail addresses for the purposes of sending unsolicited e-mail. The District reserves the right to take all legal and technical steps available to prevent unsolicited bulk e-mail or other unauthorized e-mail from entering, utilizing, or remaining within the network. Nothing in this policy is intended to grant any right to transmit or send e-mail to, or through, the network. The District's failure to enforce this policy in every instance in which it might have application does not amount to a waiver of its rights.

Unauthorized use of the network in connection with the transmission of unsolicited bulk e-mail, including the transmission of counterfeit e-mail, may result in civil and criminal penalties against the sender and/or possible disciplinary action.

**Authorized Use and Training**

Pursuant to Policy 7540.04, staff and Board members using the District's e-mail system shall acknowledge their review of, and agreement to comply with, the District's policy on Acceptable Use and Safety.

Furthermore, staff and Board members using the District's e-mail system shall satisfactorily complete training regarding the proper use and retention of e-mail annually.

**7530.01 - DISTRICT-OWNED PERSONAL COMMUNICATION DEVICES**

The District will provide personal communication devices ("PCDs") to employees who by the nature of their job have a routine and continuing business need for the use of such devices for official District business. For purpose of this policy, "personal communication device" includes computers, laptops, tablets (e.g., iPads and similar devices), electronic readers ("e-readers"; e.g. Kindles and similar devices), cell phones (e.g., mobile/cell phones/wireless, smartphones [e.g., BlackBerry, iPhone, Android devices, Windows Mobile devices, etc.], personal digital assistants ("PDAs"), Wi-Fi enabled or broadband access devices, two-way radios or video broadcasting devices, or other web-enabled devices of any type, or other devices that allow a person to record and/or transmit, on either real or delayed time basis, sound, video, still images, text, or other information. PCDs are provided as tools to conduct District business and to enhance business efficiencies. District-owned cell phones are not a personal benefit and shall not be a primary mode of communication, unless they are the most cost-effective means to conduct District business (i.e., because some cell phone services plans are billed on a time-used basis, District-owned cell phones should not be used if a less costly alternative method of communication is safe, convenient and readily available).

The Superintendent or his/her designee shall designate those staff members who will be issued a District-owned cell phone and provided with a cell phone and/or wireless Internet/data service plan.

In deciding which staff members should receive a District-owned cell phone, the Superintendent will consider whether their jobs:

A. require them to spend a considerable amount of time outside of their assigned office or work area during regular work hours and have regular access to telephone and/or Internet/data connections while outside their office or assigned work area;

B. require them to be accessible outside of scheduled or regular work hours or to be contacted and respond in the event of an emergency; or

C. consistently require timely and business critical two (2) way communication for which there is no reasonable alternative technology.

The Superintendent or his/her designee is responsible for verifying:

A. the need for each District-owned cell phone and related service plan is clearly justified for District business purposes;

B. alternative solutions for work production and communication are considered;
C. employees provided with cellular and/or wireless Internet/data service plans are notified of the purpose and limitations of usage;

D. cell phone and wireless Internet/data service plan invoices outlining the details of usage are received and reviewed for conformance with this policy;

E. a District-owned cell phone is returned and the corresponding cell phone and/or wireless Internet/data service plan is terminated when it is no longer justified by the established business requirements, the employee leaves District's employment, and/or when the employee has demonstrated a disregard for the limitation of this policy.

District-owned cell phones and/or their related service plans are to be used only to place calls, access the Internet, or receive/send e-mails, instant messages or text messages for District business purposes.

Furthermore, District-owned cell phones are not to be used to place calls or send/receive e-mails, instant messages or text messages of a personal nature, or access the Internet for personal business.

Cellular and wireless Internet/data service plans are expected to be set at the minimum level fulfilling the business need for the position in question. The service plan selected for an employee should provide a combination of services including ample minutes and coverage most nearly matching the employee's recurring business needs as well as text and/or instant messaging, e-mail capability, and ability to access the Internet. The Superintendent or his/her designee will determine the type and level of cell phone and wireless Internet/data service appropriate for the District. In all cases, the Superintendent or his/her designee shall take the steps necessary to secure the most economical and responsible service available.

The District's Information Technology (IT) department will conduct an annual review of the service plans available to determine if the District's plans are the most economical and responsible available. Any change in provider and/or necessary adjustments to individual staff member's device and/or service plan shall be approved by the Superintendent or his/her designee.

Possessing a district-owned cell phone and/or other PCD is a privilege and all employees are expected to use them appropriately and responsibly. Employees are responsible for managing the cost-effectiveness of their cell phone and/or PCD use by utilizing assigned landline and/or designated computers as available and appropriate. Employees should know using a cell phone to place calls outside the immediate area might result in roaming charges, in addition to long distance and regular charges, in which District is charged for both outgoing and incoming calls.

In order to continue to be eligible to receive a District-owned cell phone, staff members are required to answer all calls on his/her District-owned cell phone and promptly respond to any messages.

**Safe and Appropriate Use of District-Owned PCDs, Including Cell Phones**

Employee safety is a priority of District, and responsible use of District-owned PCDs, including devices such as cell phones, computers, laptops, tablets and other PCDs, requires safe use. Employees may not use a PCD in a way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed, bullied or intimidated.

**Duty to Maintain Confidentiality of Student Personally Identifiable Information; Public and Student Record Requirements**

Employees are subject to all applicable laws, policies and guidelines pertaining to the protection of the security, confidentiality (if applicable), integrity, and availability of the data stored on their District-owned PCDs. See Policy 7530.02 - Staff Use of Personal Communication Devices.

When District intends to dispose of, or otherwise stop using, a District-owned PCD on which an employee has maintained public records, student records and/or Electronically Stored Information (ESI) that is subject to a Litigation Hold, the District's IT department/staff shall verify such records are properly transferred to an alternative storage device, before disposing of, or otherwise ceasing to use, the PCD. The IT department/staff is responsible for securely deleting such records/ESI before disposing of, or ceasing to use, the District-owned PCD. The IT department/staff is responsible for maintaining documentation concerning the actions it takes to comply with this requirement.
Employee’s Responsibilities

Employees are responsible for the safekeeping, care, and custody of District-owned PCDs assigned to them. Further, employees are responsible for the cost of misuse, intentional damage or reckless loss of the District-owned PCDs provided to them. District does not provide or purchase insurance to cover loss or damage to its PCDs. Reasonable precautions should be taken to prevent theft, loss or damage to, or misuse or unauthorized use/access to, District-owned PCDs. Upon resignation or termination of employment, or at any time upon request, an employee may be asked to produce the District-owned PCD issued to him/her for return or inspection. Employees unable to present the device in good working condition within the time period requested (e.g., 24 hours) may be expected to bear the cost of a replacement. Employees who separate from employment with outstanding debts for equipment loss or unauthorized charges will be considered to have left employment on unsatisfactory terms and may be subject to legal action for recovery of the loss.

Any employee who regularly places or receives personal calls, or uses his/her District-owned cell phone to send/receive personal e-mails, text messages, or instant messages, shall be subject to disciplinary action.

PCDs may not be transferred to any other employee without prior notification and approval of the Superintendent or his/her designee. Employees provided with a PCD understand the PCD is owned by the District. Any alteration or switching of PCDs must be approved in advance by the Superintendent or his/her designee.

Cell phone numbers provided by the District, via contract with a cell phone service provider/vendor, are considered business numbers of the District which shall remain and belong to the District for its use unless otherwise changed by the service provider/vendor or as mandated by the Federal Communications Commission. Employees are not allowed to transfer/port a previous personal cell phone number to a District-owned cell phone.

District IT Department and/or the Inspector General reserves the right to audit all District-owned cell phones, which will include, but not be limited to, a review of the detailed monthly statement upon submission after the requisite review by the employee. The detailed monthly service statements for all District-owned cell phones, as well as invoices and payment documents related to these accounts, are public records and, as such, may be subject to disclosure and review.

Use of District-owned Cell Phones for Personal Calls

District-owned cell phones are a public resource and may be used for District business only. Employees are advised to obtain and carry a personally-owned cell phone for personal use at their own expense. District-owned cell phones may not be used for personal uses, except in clearly urgent situations, when no other telephone is readily available, and the call is related to the conduct of official business. Thus, calls, e-mails, text messages, or instant messages home notifying the family of the employee's whereabouts, etc. when required to work extended hours shall be considered business-related. Such communications should be kept brief and to the point. Phones should not be misused for personal business.

Potential Disciplinary Action/Cancellation of District-Owned PCD

Violation of this policy may constitute just cause for disciplinary action up to and including termination. Use of the District-owned PCD in any manner contrary to local, State or Federal laws will constitute misuse and will result in the District canceling the employee's privilege to use the PCD and requiring the employee to immediately return the device.

7530.02 - STAFF USE OF PERSONAL COMMUNICATION DEVICES

Use of personal communication devices (“PCDs”) has become pervasive in the workplace.

For purposes of this policy, “personal communication device” includes computers, laptops, tablets (e.g., iPads and similar devices), electronic readers (“e-readers”; e.g., Kindles and similar devices), cell phones (e.g., mobile/cellular/wireless telephones, smartphones [e.g., BlackBerry, iPhone, Android devices, Windows Mobile devices, etc.], personal digital devices (“PDAs”), Wi-Fi enabled or broadband access devices, two-way radios or video broadcasting devices, or other web-enabled devices of any type, or other devices that allow a person to record and/or transmit, on either real or delayed time basis, sound, video, still image, text or other information. Whether the PCD is DPSCD-owned and assigned to a specific employee, or personally-owned by the employee, the employee is responsible for using the device in a safe and appropriate manner.
Safe and Appropriate Use of Personal Communication Devices, Including Cell Phones

Employees whose job responsibilities include regular or occasional driving and who use a PCD for business use are expected to refrain from using their device while driving.

Safety must come before all other concerns. Regardless of the circumstances, including slow or stopped traffic, employees are strongly encouraged to pull off to the side of the road and safely stop the vehicle before placing or accepting a call. Reading or sending a text message, instant message or e-mail, or browsing the Internet using a PCD while driving is strictly prohibited. If acceptance of a call is unavoidable and pulling over is not an option, employees are expected to use hands-free options (e.g., headsets or voice activation) if available, refrain from the discussion of complicated or emotional topics, and keep their eyes on the road. Special care should be taken in situations where there is traffic, inclement weather, or the employee is driving in an unfamiliar area. In the interest of safety for both Board employees and other drivers, employees are required to comply with all applicable laws while driving (including any laws prohibit texting or using a cell phone or other PCD while driving).

Employees may not use a PCD in a way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, bullied, embarrassed or intimidated.

Duty to Maintain Confidentiality of Student Personally Identifiable Information - Public and Student Record Requirements

Employees are subject to all applicable laws, policies and guidelines pertaining to the protection of the security, confidentiality (if applicable), integrity, and availability of the data stored on their PCDs.

Cellular and wireless communications, including calls, text messages, instant messages, and emails sent from PCDs, may not be secure. Therefore, employees should use discretion in relaying confidential information, particularly as it relates to students on PCDs.

Additionally, cellular/wireless communications, including text messages, instant messages and e-mails sent and/or received by a public employee or school official using his/her PCD may constitute public records if the content of the message concerns District business, or an education record if the content includes personally identifiable information about a staff and/or student. Cellular/wireless communications are public records subject to retention and disclosure, upon request, in accordance with Policy 8310 – Public Records. Cellular/wireless communications that are student records should be maintained pursuant to Policy 8330 – Students Records. Finally, cellular/wireless communications and other electronically stored information (ESI) stored on the staff member’s PCD may be subject to a litigation hold. Staff is required to comply with District requests to produce copies of cellular/wireless communications in their possession that are either public records or education records, or constitute ESI is subject to a litigation hold.

At the conclusion of an individual’s employment (whether through resignation, non-renewal, or termination), the employee is responsible for informing the Superintendent or his/her designee of all public records, staff and/or student records, and ESI subject to a litigation hold maintained on the employee’s Board-owned PCD. The District’s IT department/staff will then transfer the records/ESI to an alternative storage device.

If the employee also uses a personally-owned PCD for work-related communications, and the device contains public records, staff and/or students records, and/or ESI subject to a litigation hold, the employee must transfer the records/ESI to the District’s custody (e.g., server, alternative storage device) prior to the conclusion of employment, with the assistance of the District’s technology staff, as needed. Once all public records, student records and ESI subject to a litigation hold are transferred to the District’s custody, the employee is required to delete the records/ESI from his/her personally-owned PCD. The employee will be required to sign a document confirming all such records/information has been transferred to the District’s custody and deleted from his/her personally-owned PCD.

If a PCD is lost, stolen, hacked or otherwise subjected to unauthorized access, the employee must immediately notify the Superintendent or his/her designee so a determination can be made as to whether any public records, staff and/or students records, and/or ESI subject to a Litigation Hold has been compromised and/or lost. The Superintendent or his/her designee shall determine whether any security breach notification laws may have application to the situation. Appropriate notifications will be sent unless the records/information stored on the PCD was encrypted.

The District prohibits employees from maintaining the following types of student or parent records and/or information on their PCDs:
A. social security numbers
B. driver’s license numbers
C. credit and debit card information
D. financial account numbers
E. student personally identifiable information
F. information required to be kept confidential pursuant to the Americans with Disabilities Act (ADA)
G. personal health information as defined by the Health Insurance Portability and Accountability Act (HIPAA)

If an employee maintains records and/or information on a PCD that is confidential, privileged or otherwise protected by State and/or Federal law, the employee is required to encrypt the records and/or information.

It is required that employees lock and password protect their PCDs when not in use. Employees are responsible for making sure no third parties (including family members) have access to records and/or information, which is maintained on a PCD in their possession, that is confidential, privileged or otherwise protected by State and/or Federal law.

Privacy Issues

Except in emergency situations or as otherwise authorized by the Superintendent or as necessary to fulfill their job responsibilities, or as otherwise permitted under the Family Education Rights and Privacy Act (FERPA), employees are prohibited from using PCDs to capture, record and/or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member, or other person in the school or while attending a school-related activity. Using a PCD to capture, record and/or transmit audio and/or pictures/video of an individual without proper consent is considered an invasion of privacy and is not permitted.

PCDs, including but not limited to those with cameras, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to classrooms in which parents or guardians have not provided appropriate media releases, gymnasiums, locker rooms, shower facilities, rest/bathrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The Superintendent or his/her designee and building principals are authorized to determine other specific locations and situations where the use of a PCD is absolutely prohibited. Use of PCDs to record or film a school activity which is not a public event shall obtain prior permission from the Superintendent or his/her designee.

Personal Use of PCDs While at Work

Employees may carry PCDs with them while at work including while operating Board equipment, but are subject to the following restrictions:

A. Excessive use of a PCD for personal business during work hours is considered outside the employee’s scope of employment and may result in disciplinary action.
B. Employees are personally and solely responsible for the care and security of their personally-owned PCDs. DPSCD assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, personally-owned PCDs brought onto its property, or the unauthorized use of such devices.

Potential Disciplinary Action

Violation of this policy may constitute just cause for disciplinary action up to and including termination. Use of a PCD in any manner contrary to local, State or Federal laws may also result in disciplinary action up to and including termination.
ACCESS TO DISTRICT TECHNOLOGY RESOURCES FROM PERSONAL COMMUNICATION DEVICES

The District permits employees, students, Board members, guests, parents and guardians, contractors, vendors and agents to use their personal communication devices (“PCDs”) to wirelessly access the District’s technology resources (guest or business networks, servers, projectors, printers, etc.) while they are on-site at any District facility, as set forth in administrative guidelines. Access to the business/guest network shall require authentication.

For purposes of this policy, “personal communication device” (PCDs) includes computers, tablets (e.g., iPads and similar devices), electronic readers (“e-readers”; e.g., Kindles and similar devices), cell phone (e.g., mobile/cellular telephones, smartphones (e.g., BlackBerry, iPhone, etc.), and/or other web-enabled devices of any type.

The District’s Technology Department is charged with developing (or, is directed to develop) the necessary standards for connecting PCDs to the District’s technology resources. The standards shall be available upon request.

The standards shall be designed and enforced to minimize the District's exposure to damages, including, but not limited to, the loss of sensitive District data, illegal access to confidential data, damage to the District’s intellectual property, damage to the District’s public image, damage to the District’s critical internal systems, including its technology resources and information systems from unauthorized use.

In order to comply with the Children’s Internet Protection Act (“CIPA”), the District has implemented technology protection measures protecting against (e.g., filter or block”) access to visual displays/depictions/materials deemed as obscene, constitute child pornography, and/or are harmful to minors. The District’s Technology Department uses software and/or hardware to monitor online activity to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors.

Any user who violates the established standards and/or the District’s Acceptable Use policies, or who accesses the District’s technology resources or information systems without authorization may be prospectively denied access to the District’s technology resources. If the violation is committed by a contractor, vendor or agent of the District, the contract may be subject to cancellation. Further disciplinary action may be taken if the violation is committed by a student or employee.

The owner of a PCD bears all responsibility and assumes all risk of theft, loss, or damage to, or misuse or unauthorized use of the device while it is on District property. This provision applies to everyone, regardless of their affiliation or connection to the District.

UTILIZATION OF THE DISTRICT’S WEBSITE AND REMOTE ACCESS TO THE DISTRICT’S NETWORK

Access to the District’s website www.detroitk12.org is encouraged.

The District’s website will include relevant information to internal and external stakeholders, including, but not limited to:

A. the District’s calendar of public events
B. the link to the District’s student information system
C. State-mandated compliance and education reports
D. the link to Board agendas and minutes
E. contact information for schools and departments

The District encourages employees, parents, students, and community members to check the District's website regularly for changes to these resources and for the addition of other resources. Some resources may require a user name and password, or a login procedure due to the personally identifiable nature of the information provided through the aforementioned resource (e.g., the student information system and e-mail system). If a user name and password, or login procedure, is necessary to access a resource, information shall be provided on the website explaining who is eligible for a user name and password, how to obtain a user name and password, and detailed instructions concerning the login process.
Access to the District Network through Server

Board members, District employees, and students, as well as contractors, vendors, and authorized agents of the District are permitted to use their personally-owned or District-owned computer or workstation and/or web-enabled devices of any type to remotely (i.e. away from District property and facilities) access the District's server and thereby connect to the District's Network. The District's Network is a part of its Technology Resources. This policy is limited to remote access connections used to do work on behalf of or for the benefit of the District, including, but not limited to, reading or sending e-mail, reviewing or using District-provided intranet web resources, and completing assigned coursework.

Each individual granted remote access privileges pursuant to this policy must adhere to the following standards and regulations:

A. his/her device computer/device must have, at the minimum, the anti-virus software specified in the District's standards for remote access and connection

B. the individual may only access the network using his/her assigned user name and password

C. the individual must not allow other persons, including family members, to use his/her user name and password to login into the Network. The user may not go beyond his/her authorized access.

D. his/her device may not be connected to any other network at the same time s/he is connected to the Network, with the exception of personal networks under the complete control of the user

E. his/her device may not, at any time while the individual is using remote access to connect to the Network, be reconfigured for the purpose of split tunneling or dual homing

F. use of the Network is contingent upon the individual abiding by the terms and conditions of the District's Acceptable Use and Safety policies and guidelines

Users may be required to sign the applicable agreement form prior to being permitted to use remote access.

Additional standards and regulations for remotely accessing and connecting to the District network shall be developed and published in administrative guidelines.

Any user who violates this policy may be denied remote access and connection privileges.

Any employee who violates this policy may be disciplined, up to and including termination; any contractor, vendor, or agent who violates this policy may have his/her contract with the District terminated; and any student who violates this policy may be disciplined up to and including suspension or expulsion.

7545 - ELECTRONIC COMMUNICATIONS

The advancement of technology has provided many new ways for individuals to communicate with one another. These electronic communications include social networking sites, instant/direct messaging, text messaging, e-mailing and photo-sharing, among others. Additional methods of electronic communication can be anticipated as the technology continues to evolve.

However, use of such technology must be approached with caution by District employees. Given the nature of the communications, there is a significant potential both for inappropriate use and for alleged inappropriate use. Employees must adhere to applicable District policies and administrative guidelines related to electronic communications. To protect staff and students, the following restrictions are also established:

A. Electronic communications with students shall be appropriate in tone, content, and quantity. Stalking, harassment, or other unwelcome behaviors are prohibited, including any type of sexually suggestive comments, photos, or graphics.
B. Electronic communications with other employees shall be appropriate in tone, content, and quantity. Stalking, harassment, or other unwelcome behaviors are prohibited.

C. Electronic communications during work time shall only be allowed for work-related matters or personal emergencies. Work time is defined as all paid work time is not a designated break or meal period.

D. Personal communications with students are not to occur through electronic methods. This does not apply to students to whom you are related or over whom you have guardianship.

E. Electronic communications with students are only to occur through District-specified and maintained e-mail accounts or websites.

F. The District may require the employee to produce records for review when there is reason to believe this policy has been violated. Records within the District's control may be reviewed periodically to assure this policy is being complied with. These may include Internet logs, cell phone records, e-mail, websites, apps, Internet content or other similar documentation.

Questions regarding acceptable electronic communications or unwelcomed electronic communications from someone associated with the District should be submitted to the Technology Department.

6107 - AUTHORIZATION TO ACCEPT AND DISTRIBUTE ELECTRONIC RECORDS AND TO USE ELECTRONIC SIGNATURES

Unless a provision of law specifically prohibits the use of an electronic record for the specified purpose, the Board of Education authorizes the acceptance and distribution/transmission of electronic records and electronic signatures to and from District staff and other persons, as well as between District staff members. The Board further authorizes District staff to create, generate, send, communicate, receive, store, process, use, and rely upon electronic records and electronic signatures.

The Superintendent is authorized to develop administrative guidelines and procedures concerning the acceptance and distribution/transmission of electronic records and electronic signatures. After giving due consideration to security, risk, and opportunity for fraud, the Superintendent may specify the following:

A. The manner and format in which the electronic records must be created, generated, sent, communicated, received, and stored, and the systems established for those purposes.

B. If electronic records must be signed by electronic means, the type of electronic signature that is required, the manner and format in which the electronic signature must be affixed to the electronic record, and the identity of, or criteria that must be met by any third party used by a person filing a document to facilitate the process.

Such recordings can be made by parents or other members of the public without restriction if the performance is not of copyrighted material. However, if the performance is of copyrighted material, recording can be made if the appropriate license authorizing such recordings has been secured in advance by the District. B. no interviews are conducted in the meeting room while the meeting is in session.
C. no commentary, adjustment of equipment, or positioning of operators is made that would distract either the Board, District staff, members of the audience while the meeting/session is taking place.

Such rules are to be distributed in such a manner that members of the audience who wish to record the event are aware of the rules early enough to make proper arrangements to obtain their recordings without causing delay or disruption to an activity.

Any person or organization seeking to film students or record a school activity which is not a public event shall obtain prior permission from the Superintendent or his/her designee.

The use of comp time must not unduly disrupt the operations of the District. Comp time does not carry over from one fiscal year to the next.

**Flexible Time**

A flexible work schedule ("flex time") is an alternative to the District's traditional work schedule and work hours for a position. The District may change an employee’s work schedule without giving prior notice or obtaining the employee’s consent unless otherwise subject to provisions of a Collective Bargaining Agreement or prior agreement with the employee. A work schedule may be changed to flex-time based on District priorities, department need or responsibilities. A request for flex time may be granted provided the schedule change does not unduly disrupt the operations of the District.

Flex time is within the discretion of the District and must be approved by the Superintendent or his/her designee. A change in an employee’s work schedule must be communicated in writing to the employee, HR, and Payroll prior to the implementation of the new work schedule.

The Superintendent and his/her designee shall establish administrative guidelines to instruct employees on applicable procedures for working overtime and receiving overtime pay, requesting and using comp time, as well as, flex time.
LEAVES AND ABSENCES

FMLA AND OTHER LEAVES

3430.01 - FAMILY & MEDICAL LEAVE OF ABSENCE ("FMLA")

In accordance with Federal law, the District shall provide up to twelve (12) weeks of unpaid FMLA leave in any twelve (12) month period to eligible administrators for the following reasons:

A-1: the birth of a child and/or the care of a newborn child within one (1) year of the child's birth;

B-1: the placement of a child with the staff member by way of adoption or foster care and/or to care for the child within one (1) year of the child's arrival;

C-1: the staff member is needed to care for a spouse, parent or dependent child if such individual has a serious health condition, or

D-1: the staff member's own serious health condition prevents him/her from performing the functions of his/her position.

Employee Entitlement to Service Member FMLA

Leave Entitlement

Service member FMLA provides eligible employees unpaid leave for one, or for a combination, of the following reasons:

A-2: A "qualifying exigency" arising out of a covered family member's (spouse, son, daughter, or parent) covered active duty or call to covered active duty in the United States Armed Forces including the National Guard and Reserves.

Qualifying exigencies, as defined by Federal regulations, include: 1) short-notice deployment; 2) military events and related activities; 3) childcare and school activities; 4) financial and legal arrangements; 5) counseling; 6) rest and recuperation (maximum fifteen (15) calendar days); 7) post-deployment activities; 8) caring for a military member's parent who is incapable of self-care when the care is necessitated by the member's covered active duty; and 9) additional activities not encompassed in the other categories, but agreed to by the employer and employee. Covered active duty means deployment with the Armed Forces to a foreign country.

B-2: To care for a covered family member, including next of kin as provided in the statute, who has incurred an injury or illness or aggravation of a pre-existing illness or injury while in the line of duty while on covered active duty in the United States Armed Forces, including the National Guard and Reserves, provided that such injury or illness may render the family member medically unfit to perform duties of the member's office, grade, rank, or rating. Covered active duty means deployment with the Armed Forces to a foreign country. This leave is also available to care for veterans of the United States Armed Forces, including the National Guard and Reserves, provided the veteran was a service member at any time within the five (5) years prior to the start of the treatment, recuperation or therapy. In accordance with applicable regulations, a veteran's serious injury or illness incurred or aggravated in the line of active duty can also be manifested by: 1) a physical or mental condition with a VA Service Disability Rating of 50% or greater and is the condition precipitating the need for leave; or 2) a physical or mental condition that substantially impairs the ability to secure or substantially follow a gainful occupation, or would do so absent treatment; or 3) an injury, including psychological, for which the veteran has been enrolled in the Dept. of V.A. Program of Comprehensive Assistance for Family Care Givers.

Duration of Service Member FMLA

A. When leave is due to a "Qualifying Exigency": An eligible employee may take up to twelve (12) work weeks of leave during any twelve (12) month period. Such leave shall be counted with regular FMLA leave time in calculating the twelve (12) weeks of allowable leave.

B. When leave is to care for an injured or ill service member: An eligible employee may take up to twenty-six (26) work weeks of leave during a single twelve (12) month period to care for the service member who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness. This is a one time benefit per service member. Leave to care for
an injured or ill service member, when combined with other FMLA-qualifying leave, may not exceed twenty-six (26) weeks in a single twelve (12) month period.

C. Service Member FMLA runs concurrent with other leave entitlements provided under Federal, State, and local law.

General FMLA Provisions

Administrators are “eligible” if they have worked for the District for at least twelve (12) months, and for at least 1,250 hours over the twelve (12) months prior to the leave request. Service time may be aggregated when the break in service is less than seven (7) years for military obligation or subject to recall under a collective bargaining agreement. All full-time administrators are deemed to meet the 1,250 hour requirement. All periods of absence from work due to or necessitated by USERRA-covered service is counted in determining an employee’s eligibility for FMLA leave.

Twelve (12) month period for determining hours worked and use of leave is defined as a rolling twelve (12) month period measured backward from the date the staff member uses FMLA leave (i.e. the "leave year" is specific to each individual staff member).

For Service Member FMLA leave, the use of the twenty-six (26) weeks of leave will be measured forward from the first date on which the employee takes leave.

Serious health condition is defined as an illness, injury, impairment, or physical or mental condition that involves:

A. inpatient care, including any period of incapacity or any subsequent treatment in connection with such inpatient care; or

B. continuing treatment by a healthcare provider, including:

1. a period of incapacity of more than three (3) consecutive full calendar days and any subsequent treatment or period of incapacity relating to the same condition, that also involves either in person treatment two (2) or more times by a healthcare provider within thirty (30) days of the first date of incapacity absent extenuating circumstances beyond the employee’s control, or in person treatment by a healthcare provider on at least one (1) occasion which results in a regimen of continuing treatment under the supervision of a healthcare provider;

   The first visit to the healthcare provider must occur within seven (7) days of the first date of incapacity.

2. any incapacity due to pregnancy or for prenatal care;

   An expectant mother is entitled to FMLA leave for incapacity due to pregnancy even if she does not receive treatment from a healthcare provider during the absence, and even if the absence does not last for more than three (3) consecutive, full calendar days.

3. any period of incapacity or treatment for such incapacity due to a chronic serious health condition;

4. a period of incapacity which is permanent or long-term due to a condition for which treatment may not be effective;

5. any period of absence to receive multiple treatments by a healthcare provider either for restorative surgery after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than three (3) consecutive days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis);

C. conditions for which cosmetic treatment are administered are not "serious health conditions" unless inpatient hospital care is required or complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomachs, minor ulcers, headaches other than migraines, routine dental or orthodontia problems, periodontal disease, etc., are conditions that do not meet this definition and do not qualify for FMLA leave.
Whenever the leave is foreseeable, the staff member shall provide the District with thirty (30) days notice. If there is insufficient time to provide such notice because of unforeseeable events, the staff member shall provide such notice as soon as possible and practical, generally not later than the next business day after the employee realizes the need for leave. Failure to follow the leave notice requirements may result in delay of obtaining the leave. Employees will still be required to comply with the absence reporting procedures at their buildings.

When planning medical treatment, the staff member must consult with the District and make a reasonable effort to schedule the leave so as not to unduly disrupt the regular operation of the District, subject to the approval of the healthcare provider.

The staff member may request to substitute any of his/her earned or accrued paid vacation leave, personal leave or family leave (per the applicable collective bargaining agreement) for unpaid FMLA leave provided for the birth, adoption or foster care placement of a child, or qualifying exigency for a Service Member Family Leave (see A-1, B-1, and A-2 on page one).

The staff member may request to substitute any of his/her earned or accrued paid vacation, personal leave or sick leave (per the applicable collective bargaining agreement) for unpaid FMLA leave provided for the staff member’s own serious health condition or to care for a spouse, parent or dependent child with a serious health condition (see C-1 and D-1 on page one and B-2 on page two).

If the staff member has not earned or accrued adequate paid leave to encompass the entire twelve (12) or twenty-six (26) week period of FMLA leave, any additional weeks of leave to which the staff member is entitled to shall be unpaid. Whenever a staff member uses paid leave for a qualifying leave under this policy, such leave will count towards the maximum allowable leave, the paid leave, and FMLA/Service Member Family leave to which the staff member is entitled will run concurrently.

The District may allow a staff member to take FMLA leave intermittently or on a reduced-leave schedule for the birth, adoption or foster care placement of a child (see A-1 and B-1 on page one). A staff member may take FMLA leave on an intermittent or reduced-leave schedule when medically necessary for his/her own serious health condition or to care for a spouse, parent or dependent child with a serious health condition (see C-1 and D-1 on page one). The taking of such leave results in the total reduction of the twelve (12) weeks only by the amount of leave actually taken. Leave will be accounted for in increments no greater than the smallest increment used for other similar leaves, but in no event greater than one (1) hour increments. Leave entitlement will not be reduced by more than the amount of leave actually taken.

If the intermittent or reduced-leave schedule is foreseeable based on planned medical treatment, the District may require the staff member to transfer temporarily to an available alternative position which better accommodates recurring periods of leave. The alternative position shall have equivalent pay and benefits but not necessarily equivalent duties. Instructional staff members (i.e. individuals whose principal function is to teach and instruct students in a class, a small group, or an individual setting) who request intermittent leave or a reduced-leave schedule which would exceed twenty percent (20%) of the total number of working days over the period of anticipated leave must elect either:

A. take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment; or

B. transfer temporarily to an available alternative position offered by the District for which the instructional staff member is qualified, and that has equivalent pay and benefits and that better accommodates the recurring periods of leave than the staff member’s regular position.

The District will notify the staff member when the District intends to designate leave as FMLA-qualifying. Such notice may be given orally or in writing. When verbal notice is given, it will be followed by written notice within ten (10) business days. In the case of intermittent or reduced-leave schedule leave, only one (1) such notice is required unless the circumstances regarding the leave have changed. If the District does not have sufficient information about the reason for an employee’s use of paid leave, the District may inquire further to ascertain whether the paid leave is FMLA-qualifying. Once the District learns that a paid leave is for an FMLA leave-qualifying reason, the District will promptly notify the staff member that the paid leave will count toward the staff member's twelve (12) week FMLA-leave entitlement.

In cases in which the District employs both spouses, the total amount of FMLA leave is twelve (12) weeks for the couple, except when the leave is due to the serious health condition of either spouse or a child, or twenty-six (26) weeks of FMLA leave for Service Member Leave.
When FMLA leave is taken for the staff member’s own serious health condition or to care for a spouse, parent or dependent child with a serious health condition (see C-1 and D-1 on page one), the staff member must provide medical certification from the healthcare provider of the eligible staff member or his/her immediate family member. When the staff member requests qualifying Service Member Leave, he/she must provide certification of a qualifying exigency or of the service member's serious illness. For service member leave, any certification permitted under 29 C.F.R. 825.310 shall be allowed.

The staff member may either:

A. submit the completed medical certification to the District; or

B. direct the healthcare provider to transfer the completed medical certification directly to the District, which will generally require the staff member to furnish the healthcare provider with a HIPAA-compliant authorization.

In the event the staff member fails to provide medical certification, any leave taken by the employee will not qualify for FMLA Leave/Service Member Family Leave.

When the need for FMLA leave is foreseeable and at least thirty (30) days notice has been provided, the staff member must provide the medical certification before the leave begins. When this is not possible, the employee must provide the requested certification to the Superintendent within fifteen (15) calendar days after the staff member requests FMLA leave unless it is not practicable under the circumstances to do so despite the staff member’s diligent and good faith efforts.

Any dispute over eligibility for FMLA leave shall be discussed between the employee and District. The District shall be responsible for maintaining a record of those communications.

The District reserves the right to obtain, at its expense, the opinion of a second healthcare provider and, in the event of conflict, the opinion of a third healthcare provider whose decision shall be binding and final. The staff member may either:

A. submit the opinion of the second healthcare provider, and the opinion of the third healthcare provider if applicable, to the District; or

B. direct the second or third healthcare provider to transfer his/her opinion directly to the Superintendent, which will generally require the staff member to furnish the healthcare provider with a HIPAA-compliant authorization.

In the event the staff member fails to provide the medical opinion of the second or third healthcare provider, if applicable, any leave taken by the employee will not qualify for FMLA leave.

A staff member who takes leave for his/her own serious health condition prior to returning to work, must provide the District with a statement from his/her healthcare provider that he/she is able to resume work.

Upon return from any FMLA leave, the District will restore the staff member to his/her former position or to a position with equivalent employment benefits, pay and conditions of employment. During FMLA leave, the District shall maintain the staff member’s current coverage under the District’s group health insurance program on the same conditions as coverage would have been provided if the staff member had been continuously working during the leave period. If the staff member was paying all or part of the premium payments prior to going on FMLA leave, the staff member must continue to pay his/her share during the leave.

Any leave or return from leave during the last five (5) weeks of an academic term shall be reviewed individually by the District to minimize disruption to the students' program. Special rules under the FMLA may apply for instructional staff.

The staff member shall not accrue any sick leave, vacation, or other benefits during a period of unpaid FMLA leave.

The use of FMLA leave will not result in the loss of any employment benefit that accrued prior to the start of the staff member's leave.

If the staff member fails to return to work at the end of the leave for reasons other than the continuation, recurrence, or onset of a serious health condition of the staff member or of the staff member's immediate family member, or for circumstances beyond the control of the staff member, the staff member shall reimburse the District for the health insurance premiums paid by the District during the unpaid FMLA leave period.
Communication Requirements

When the need for FMLA leave is not foreseeable, an employee on FMLA shall comply with the employer’s usual and customary notice and procedural requirements for requesting leave. Employees on FMLA shall also follow District call-in guidelines like any other employee. Under FMLA regulations, an employee must comply with the District’s call-in procedures unless unusual circumstances prevent them from doing so. In such cases, the employee shall provide notice to his/her supervisor as soon as practicably possible. Failure to provide timely absence or tardy notice to the employee’s immediate supervisor shall lead to FMLA leave approval delays or denials, and are subject to progressive employee discipline where good cause is not shown. Failure to adhere to daily call-in requirements may also result in delays to processing intermittent and reduced schedule FMLA leave requests and associated compensation requests.

Work Beyond District Employment While on FMLA Leave

District Policy 3430.02 titled Outside Employment prohibits outside supplemental employment for all District employees while on any type of leave. An employee approved for FMLA leave shall therefore not work in any capacity that impedes the employee’s recovery from, or treatment for reported health condition(s). As such, employees found to be engaging in outside employment while on FMLA leave that potentially impedes the employee’s recovery efforts shall be subject to investigation, potential disciplinary action and dismissal.

FMLA fraud occurs when employees take FMLA leave for purposes other than those permitted under FMLA. For example:

- Working for another employer, performing same or similar duties that the employee’s FMLA medical certification form says he or she is not able to perform; or
- Engaging in off-duty activity, while on FMLA leave for one’s own serious health condition, that is inconsistent with the limitations the serious health condition imposes.

Travel While on FMLA Qualifying Leave

Whether District employees engage in personal travel while on FMLA leave and retain the law’s protections will depend on the nature of their activities while engaging in personal travel, and whether those activities stand in contrast to the reason FMLA qualifying leave was taken. This policy requires employees on medical leave to stay close to home and allows travel for purpose of obtaining treatment for themselves or to care for an immediate family member (spouse, child, or parent) with a serious health condition. Long distance travel requires written permission from the District.

Recertification

To the extent permitted by applicable law, if the District has reason to doubt the validity of a medical certification, the District shall exercise its right to obtain a second or third medical opinion at the District’s expense. If the District determines that the certification is incomplete, it shall provide a written notice indicating what additional information is required.

During an FMLA leave, employees shall be required to provide the District periodic status updates regarding expected date of return and/or intent to return to work.

Recertification shall be required no more often than every thirty (30) days in connection with an absence by the staff member unless the condition will last for more than thirty (30) days. For conditions that are certified as having a minimum duration of more than thirty (30) days, the District will not request recertification until the specified period has passed, except that in all cases the staff member must submit recertification every six (6) months in connection with an absence by the employee. Additionally, the District may require a staff member to provide recertification in less than thirty (30) days if the staff member requests an extension of leave, the circumstances described in the previous certification have changed significantly, or if the District receives information that casts doubt upon the staff member’s stated reason for the absence or the continuing validity of the certification. Finally, staff members must provide a new medical certification each leave year for medical conditions that last longer than one (1) year. If an employee fails to provide a recertification within a reasonable time under the particular facts and circumstances, then the employer may deny continuation of the FMLA leave protections.

A staff member who takes leave for their own serious health condition that makes him/her unable to perform the functions of his/her position; prior to returning to work, must provide the District and his/her designees with a fitness-for-duty certification that specifically addresses the staff member’s ability to perform the essential functions of his/her job. The
fitness-for-duty certification shall only apply to the particular health condition that caused the staff member’s need for FMLA leave. If reasonable safety concerns exist, the District shall under certain circumstances, require a staff member to submit a fitness-for-duty certification before he/she returns to work from FMLA leave. The cost of the certification shall be borne by the staff member.

**Dishonesty, Fraud, and Misuse of FMLA**

All credible reports of suspected FMLA abuse shall be investigated and documented. FMLA dishonesty, fraud, and abuse refers to employees' legitimate use of FMLA qualifying leaves in a fraudulent manner, or in cases where FMLA was fraudulently obtained by the employee. All findings of FMLA malfeasance and or abuse shall be subject to disciplinary action and dismissal. Under all circumstances where an employee has committed fraud in obtaining FMLA leave, the District is exempted from all obligations to the employee under FMLA rules. A staff member who fraudulently obtains and uses FMLA leave is not protected by this policy's job restoration or maintenance of health benefits provisions.

**Compliance**

Absent extenuating circumstances, if an employee fails to follow this policy, the District shall exercise its right to delay or deny the FMLA request. The District shall prepare administrative guidelines that are appropriate for this policy and shall ensure that the policy and associated administrative guidelines are posted and properly adhered to.

In any areas where discretion is allowed in the implementation of this policy or its guidelines for implementation, such discretion shall be exercised in a non-discriminatory manner. Similarly situated persons shall be treated similarly.

The District shall provide a copy of this policy to all staff members on any form of FMLA. A notice of Rights and Obligations shall also be provided each time an employee requests FMLA leave or the District has sufficient information to believe that the employee may qualify for FMLA leave.

The approval, denial and administration of leave under this policy will be governed by the Family Medical Leave Act of 1993, as amended, and its published regulations, as applied and interpreted by the Superintendent and his/her designees.

The District will not interfere with, restrain, or deny the exercise or attempted exercise of a right established under this FMLA policy. Further, the District will not discharge, fine, suspend, expel, discipline, or discriminate against a staff member with respect to any term or condition of employment because of the staff member's actual or potential exercise, or support for another employee's exercise, of any right established under this FMLA policy. Nothing herein shall prevent the District from taking an employment action that is independent of the exercise of a right under this FMLA policy. Finally, the District will not deprive an employee who takes FMLA pursuant to this policy of any benefit that accrued before the date that leave commences.

Each case shall be considered on its own merits.

3120.01 - NEW EMPLOYEE ONBOARDING

The Board is committed to supporting new employees in their successful transition to the District, as well as supporting the District’s need to enable new employees to achieve high levels of performance. A new hire’s successful transition requires an onboarding experience that engages each new employee beginning with the acceptance of a District employment offer, and continuing through the first year of employment.

The Department of Human Resources and Talent shall guide and support District onboarding efforts. This policy and associated training are intended to provide new employees with a comprehensive onboarding experience that reinforces their choice to work for the District and support employees in performing their duties and responsibilities. This policy calls for departments to support an onboarding program that meets the needs of each type of employee.

The ongoing collection and analysis of feedback from new employees about their onboarding experience shall inform and encourage program enhancements and additional training and support resources.

Onboarding Program Development and Training Requirements

The Department of Human Resources and Talent shall develop, implement, monitor and maintain a documented onboarding program for all new employees. Departments shall be provided the flexibility to develop customized onboarding programs to best meet the individual needs of each employee provided the departments’ onboarding programs comply with the onboarding process/programs of the Department of Human Resources and Talent. Each work location shall be required to have all new hires complete the onboarding program. The goal for program completion is thirty (30) days.

Onboarding Program Requirements

At a minimum, each program shall:

A. Reflect a time period that begins with the accepted job offer and spans the first thirty (30) days of employment.

B. Describe each onboarding activity, which type(s) of employees each activity applies to, when the activity should occur, and who is responsible for each activity.

C. Designate an onboarding coordinator from among staff at the program location who shall possess accountability for initiating onboarding activities for each new hire at each work location. Onboarding Program Feedback

To ensure onboarding programs remain up-to-date, active, and effective, the Department of Talent and Human Resources shall collect onboarding feedback. All new employees shall be provided the opportunity to provide feedback about their onboarding experience. The Department shall collect feedback on a regular basis from new employees about each component of their onboarding experience.
3120.08 - EMPLOYMENT OF PERSONNEL FOR CO-CURRICULAR/EXTRA-CURRICULAR ACTIVITIES

The District may find it necessary to employ, on a part-time basis, coaches or activity sponsors. Such part-time employees may be members of the District's support staff or individuals from the community who are able to sustain positive and consistent relationships with students beyond athletics and activities.

The Board authorizes the Superintendent or his/her designee to act for the Board in employing such part-time staff.

The Superintendent shall establish administrative guidelines to ensure that each person employed as a coach or activity sponsor has the appropriate qualifications, has been properly interviewed, and signs an employment contract that includes the conditions of employment, compensation arrangements, and contract termination procedures. Expectations of coaches and activity sponsors, full or part-time, are the same for those hired outside of the District as those internally.

Appropriate qualifications shall, at a minimum, include any requirements established by the State, and may also include any program specific training or certification as determined by the Superintendent or his/her designee, such as cardio pulmonary resuscitation and/or first aid.

3121 - CRIMINAL HISTORY RECORD CHECK

Before the District hires any employee (full or part-time) or allows any individual under contract to continuously and regularly work in the schools, a criminal history records check shall be conducted in accordance with State law.

"Under contract" shall apply to all individuals, as well as owners and employees of entities, who contract directly with the District or with a third party vendor, management company, or similar contracting entity.

Prior to allowing an individual, who is subject to the criminal history record check requirement, to work in the District, the District shall submit a fingerprint-based check on the individual, using Michigan State Police (MSP) Form RI-030 (7/2012), regardless of whether the individual will work directly for the District or be contracted through a third-party vendor, management company or similar contracting entity ("Private Contractors"). Except as provided below, the report from the MSP must be received, reviewed and approved by the District prior to the individual commencing work.

Private Contractors cannot receive or retain criminal history record information ("CHRI"). Information Technology contractors and vendors may be granted access to CHRI subject to successful completion of fingerprint-based records criminal history records check. In cases where the District contracts with a Private Contractor for the services of an individual, the District will notify the Private Contractor(s), after review of the MSP report, whether the individual has been approved to work within the District. The District may not give any details, including the fact that a criminal history check was run. Notice for approval to work in the District should use the Affidavit of Assignment or similar "red light/green light" procedure.

Should it be necessary to employ a person or contract for a person to maintain continuity of the program prior to receipt of the criminal history report, the Superintendent may contract on a provisional basis until the report is received. Any such provisional hire requires that:

A. the record check has been requested;

B. the applicant has signed a disclosure of all convictions and acknowledges that employment may be terminated if there are discrepancies; and

C. the hiring occurs during the school year or not more than thirty (30) days before the beginning of the school year.

For substitute teachers or substitute bus drivers, or for an individual who regularly and continuously is currently working or under contract in another district, public school academy or non-public school in the State, the Superintendent may use a report received from the State Police by such school to confirm the individual has no criminal history. Absent such confirmation, a criminal history record check shall be performed.

Individuals working in multiple districts may authorize the release of a prior criminal history records check with another district in lieu of an additional check for either direct employment or working regularly and consistently under contract in the schools.
Individuals who previously received a statutorily required criminal background check and who have been continuously employed by a school district, intermediate school district, public school academy or non-public school within the State, with no separation, may have their previous record check sent to the District in lieu of submitting to a new criminal background check. If this method is used, the Superintendent must confirm that the record belongs to that individual and whether there have been any additional convictions by processing the individual's name, sex and date of birth through the Internet Criminal History Access Tool (ICHAT).

"No separation," for purposes of the preceding paragraph, means a lay off or leave of absence of less than twelve (12) months with the same employer; or the employee transfers without a break in service to another school district, intermediate school district, public school academy or non-public school within the State.

The District shall implement administrative guidelines for the review of criminal history reports, including the results of fingerprint-based checks and physical records, from all external entities.

All criminal history record check reports received from the State Police or produced by the State Police and received by the District from another proper source, will be maintained in the individual's confidential file.

When the District receives a report that shows an individual has been convicted of a listed offense under State statutes or any felony, the Superintendent and his/her designee shall take steps to verify that information using public records, in accordance with the procedures provided by the State Department of Education.

Verified convictions may result in termination of employment or rejection of an application. The District will not hire or continue to employ any individual, either directly or as a contracted employee to work regularly and continuously in the schools, who has been convicted of a "listed" offense as defined in M.C.L. 28.722. The District will not hire or continue to employ any individual, either directly or as a contracted employee to work regularly and continuously in the schools, who has been convicted of any non-listed felony or misdemeanors, related to child abuse or controlled substances unless both the Superintendent and the Board provide written approval.

The District must report as directed by and to the State Department of Education the verified information regarding conviction for any listed offense or conviction for any felony and the action taken by the District with regard to such conviction. Such report shall be filed within sixty (60) days of receipt of the original report of the conviction.

The Superintendent shall establish the necessary procedures for obtaining from the Criminal Records Division of the State Police any criminal history on the applicant maintained by the State Police. In addition, the Superintendent shall request the State Police to obtain a criminal history records check from the Federal Bureau of Investigation.

An applicant must submit, at no expense to the District, a set of fingerprints, prepared by an entity approved by the Michigan State Police, as part of his/her employment application or as required by State law for continued employment.

All information and records obtained from such criminal background inquiries and disclosures are to be considered confidential and shall not be released or disseminated to those who have not been given access to CHRI by the Superintendent. Violation of confidentiality is considered a misdemeanor punishable by a fine up to $10,000.

Criminal history reports may be released with the written authorization of the individual. Records may also be released, in accordance with statute, upon the request of a school district, intermediate school district, public school academy or non-public school when the individual is an applicant for employment at such school and there has been no separation from service, as defined in this policy and by statute.

3121.01 - CRIMINAL CONVICTION REVIEW

In an effort to maintain a safe environment for students, staff and visitors, the District performs a criminal background check of those individuals who apply for employment with the District, work for the District, or are contracted to work on a regular and continuous basis at the District. Employees and individuals who have applied or are applying for a position have a continuing duty to disclose any pending criminal charges or convictions.

Individuals convicted of crimes listed in Section 2 of the Sex Offender Registry Act, M.C.L. 28.722, cannot be employed by the District.

In making the determination regarding whether to hire an applicant or allow an individual to continue working with pending felony charges or after a conviction, the Superintendent and the Board will consider the following factors:

A. the nature of the offense does, is it related to children, deviant behavior, drugs, violence or involve a matter of national security, etc.;

Neither the Board nor the Superintendent shall consider criminal charges that did not result in conviction, or pending misdemeanor charges in determining whether to hire or continue the employment of any individual.

Criminal Background Check Appeals Process

The Board authorizes the Superintendent to establish a criminal background check appeals workgroup to review and make a determination for applicants who have been nominated for employment and for whom a background check identifies a potential issues and concerns. The criminal background check appeals workgroup shall obtain criminal background information for applicants through requests to the Michigan Department of Education (MDE) and the Federal Bureau of Investigation (FBI).

The criminal background check appeals workgroup will be comprised of five members, two senior employees from Human Resources, one from School Operations, Legal Services, and the Police Department.

When the fingerprint or background check reports reflect a criminal history, the criminal background appeals workgroup shall review both the application and the report(s) concerning the individual. The criminal background check appeals workgroup shall also request and compare information provided by the new employee with the information received from MDE and/or the FBI.

The criminal background check appeals workgroup does not have the authority to clear candidates with felony convictions fewer than five (5) years or misdemeanor convictions fewer than three (3) years.

Upon the receipt of a formal appeal by the applicant, the criminal background check appeals workgroup may consider specific mitigating circumstances for felony offenses committed within the past five (5) years and not otherwise enumerated in state and Federal laws and, if the criminal background check appeals workgroup concurs, recommend a waiver to the Superintendent. The Superintendent may recommend background clearance for consideration by the Board.
Upon the receipt of a formal appeal by the applicant, the Board authorizes the Superintendent to consider background clearance when specific mitigating circumstances have been identified by the applicant for offenses committed within the past three (3) years.

In situations where an applicant has been convicted of the offenses listed below or found to have committed an act in an administrative proceeding or a civil action, consideration of certain mitigating circumstances may be applied by the criminal background check appeals workgroup that allow for consideration of an applicant without a request for a waiver from the Board. In these situations where an applicant is nominated for employment due to mitigation, the Superintendent will personally approve the recommendation of the committee and so notify the Board:

A. Possession or use of controlled substances;
B. Driving under the influence of alcohol or unsafe driving record;
C. Bad checks, misappropriation of funds or theft of personal property;
D. Committing or conviction of a misdemeanor;
E. The circumstances for each situation identified above will be individually considered as well as the position to which the applicant is applying. Aggravating and mitigating factors or circumstances to be considered by the criminal background check appeals workgroup include:

A. The severity of the offense;
B. The age of the victim or student/child involvement;
C. The danger posed to the public including the degree of physical and mental harm to a student, other employees or members of the public;
D. The actual damage, physical or otherwise, caused by the misconduct;
E. Any repetition of the offense(s) and length of time between offenses;
F. Attempts by the applicant to correct or stop the misconduct or mitigate its effect;
G. Actual negligence of the applicant pertaining to any misconduct;
H. Pecuniary benefit or self-gain to the applicant realized by the misconduct;
I. The deterrent effect of the punishment or discipline imposed;
J. Related misconduct by the applicant in other employment including findings of guilt or innocence, discipline imposed and/or discipline served;
K. Any effort of rehabilitation by the applicant;
L. If previously employed by the District, the number of times the applicant has been previously disciplined by the District as well as the type of discipline;
M. The length of time since the misconduct, with a minimum of three (3) years. (In circumstances where there is one offence which is not violent or child related, applicants may be considered within the three (3) year period);
N. Any other relevant mitigating or aggravating factors under the circumstances.
Reconsideration and Appeal

Applicants who have been denied employment because of their criminal record shall receive written notice and may request reconsideration by the criminal background check appeals workgroup only if they present new information not previously available to the committee. Under this policy, candidates denied employment are entitled to disclosure of the information contained in their background check report(s) within thirty (30) calendar days of receipt of results. Affected candidates have the right to report any mitigating factors or circumstances to be considered by the criminal background check appeals workgroup.

Applicants who have been denied consideration by the criminal background check appeals workgroup may appeal to the Superintendent for a reconsideration of their case. Their appeal must be in writing and may not include any documents or material that has not been previously considered by the criminal background check appeals workgroup.

Approval of a waiver by the Superintendent shall be communicated to the Board at the time of nomination. The findings and the decision of the Superintendent shall be final.

Probationary employees who have been denied permanent employment because of their criminal record shall receive a written notice from the criminal background check appeals workgroup and notice of the right to appeal such a decision. They shall be advised of their appeal rights to the Superintendent. The employee shall have the opportunity to respond in writing to the findings and the decision of the Superintendent shall be final.

Individuals whose fingerprints have not been retained by MDE must be re-fingerprinted and re-screened upon re-employment or re-engagement to provide service as a support staff member that has direct contact with students in order to comply with the law.

A. verbal warning;
B. written warning;
C. written reprimand;

Additionally, nothing in this policy limits the District's right to take other appropriate action, such as placing an Administrator on administrative leave during the pendency of an investigation or issuing a counseling memorandum, which is considered instructional, not disciplinary.

The Superintendent's decision to impose any disciplinary action that is not subject to Board review is final.

Discharge, demotion or non-renewal of an Administrator may only be imposed by the Board in adherence with the requirements of the Revised School Code.

3139 - STAFF DISCIPLINE

Additionally, nothing in this policy limits the District's right to take other appropriate action, such as placing on administrative leave during the pendency of an investigation or issuing a counseling memorandum, which is considered instructional, not disciplinary.

If it appears that disciplinary action beyond written reprimand may be necessary, the administrator should contact the Superintendent or his/her designee(s) to discuss the disciplinary action that is to be taken.

3139.01 - WORK RULES AND STAFF CORRECTIVE DISCIPLINE

As we educate and empower every student, in every community, every day to build a stronger Detroit, the Board of Education recognizes that a focus on maintaining high standards for staff conduct is critical to our success. This policy has been established to provide progressive disciplinary guidelines to be utilized when employees deviate from expected Detroit Public Schools Community District (DPSCD) standards, or fail to adhere to work rules, policies, administrative guidelines and procedures. The Department of Human Resources and Talent (Human Resources) will respond specifically to actions or activities of employees requiring disciplinary intervention.

DPSCD Work Rules

The following work rules are published for informational purposes and to minimize the likelihood of any employee, through misunderstanding or otherwise, becoming subject to any disciplinary action. Violation of these rules cannot be ignored by
management. In the event an employee is found to have violated these rules, he/she will be subject to immediate
discipline, including suspension, discharge, and criminal prosecution where warranted.

This list is not all-inclusive. Employees may be disciplined or discharged for other inappropriate conduct as determined by
the District.

A. All employees are expected to report for duty every working day. Excessive tardiness or absenteeism will not be
condoned.
B. Each employee must notify his/her administrator in charge of intended absence within the time limitations
specified.

periods).

permission.

**Staff Corrective Discipline**

Human Resources possesses the primary responsibility for managing and interpreting the District’s corrective discipline
process. This responsibility includes providing direct assistance to principals and supervisory administrators with respect
to applying and interpreting the work rules and implementing disciplinary procedures. Accordingly, pursuant to this policy,
Human Resources will conduct disciplinary hearings and make recommendations for disciplinary action. Human
Resources will provide guidance and training to administrators on the corrective discipline process. The set of corrective disciplinary guidelines and procedures outlines due process in dealing with unacceptable employee behavior.

Progressive discipline is designed to correct unacceptable employee conduct through a series of progressively more serious penalties. Depending on the circumstances, progressive discipline provides the employee with an opportunity to correct his/her behavior before discharge. Progressive disciplinary steps include, but are not limited to the following:

A. Warning;
B. Written Reprimand;
C. Suspension with or without pay; and
D. Demotion or Discharge.

Progressive discipline may be issued at an appropriate level based on the circumstances surrounding the infraction, the nature and severity of the offense, the employee's past record and previous history of discipline. Progressive discipline requires that any penalty imposed must correspond to the severity of the misconduct. It should be noted that several disciplinary steps may be skipped if the misconduct of the employee is so serious that a more severe penalty is appropriate. Consequently, under certain circumstances discharge may be warranted on the first offense. The District reserves the right to determine whether infractions committed warrant suspension or discharge.

Investigation & Due Process

Generally, prior to application of discipline, an investigation of the situation should be conducted. However, an employee may be subject to immediate suspension, depending upon the nature of the offense, pending an investigation. An investigation may include questioning available witnesses, obtaining statements, reviewing applicable records, and interviewing the employee who is subject to disciplinary action.

A fair and objective investigation should be conducted, and the degree of discipline administered should be reasonably related to the seriousness of the employee's proven offense and the prior disciplinary record of the employee.

The District shall abide by due process as required by law or as such term is set forth in a collective bargaining agreement, the Teacher Tenure Act or the individual contract, as applicable.

If any provision of these policies conflict with an express provision(s) of an applicable collective bargaining agreement, the latter shall supersede this policy to the extent necessary to comply with contractual obligations.

DISCHARGE, RESIGNATION AND NON-RENEWAL

1443 - NON-RENEWAL OF ADMINISTRATOR CONTRACTS

A. the reasons for possible non-renewal, which shall not be arbitrary or capricious; and
B. the right to meet with a majority of the Board, in open or closed session, to discuss the decision prior to the vote on non-renewal.

Such notice must be delivered to the administrator at least thirty (30) days prior to the date that the Board will vote on the issue of non-renewal together with a written statement of the reason the Board is considering non-renewal.

The vote on non-renewal must occur:

A. At a meeting which shall be open to the public or a closed session as the affected person elects under section 8 of the open meetings act, 1976 PA 267, MCL 15.268; and
B. After notice of consideration of non-renewal (with statement of reason) is issued but before written notice of non-renewal decision is issued.

Written notice of the non-renewal decision must be provided to the administrator at least seven (7) days prior to the termination date of the administrator's contract.

If the Board fails to allow for a meeting, or if the non-renewal is for arbitrary or capricious reasons as determined by a court, then the contract is renewed for one additional year.

3140 - TERMINATION AND RESIGNATION

An employment contract may be suspended or terminated, upon a majority vote of the Board of Education. In such cases, the Board shall abide by due process and such terms as may beset forth in a negotiated, collectively-bargained agreement, the Teacher Tenure Act or the individual contract, as applicable.

Employees and those under contract to work regularly and continuously in the schools, whether part-time or full-time, may not continue employment with the Board if a criminal history records check or other authoritative source reveals a conviction of a "listed" offense under M.C.L. 28.722.

Individuals convicted of a felony other than a listed offense may not continue to work unless both the Superintendent and the Board give written approval. Such conviction(s) may subject professional staff to discharge or demotion of a teacher on continuing tenure. The State Board of Education will be notified of the report of conviction(s) as required by law.

RESIGNATION

A professional staff member may resign in accordance with the terms of the negotiated, collectively-bargained agreement or his/her employment contract.

An administrator may resign by filing a written resignation with the Superintendent at least thirty (30) days prior to the effective date of the resignation. A resignation, once accepted, may not then be rescinded.

The Superintendent may act for the Board in the acceptance of a resignation.

4140 - TERMINATION AND RESIGNATION

TERMINATION

Except as set forth in an applicable negotiated, collectively bargained agreement, an employee may be terminated for reasons that are lawful and not arbitrary or capricious. Terminations may only occur upon a majority vote of the Board.

When considering termination the Board shall abide by District policy and administrative guidelines. An employee shall be provided due process.

When the Board approves the termination of an individual from employment, the termination shall apply to all positions that the individual may hold at that time.

No person who has been separated from employment by the Board shall be reemployed in any department on any basis, unless a special request for doing so, is recommended by the Superintendent and approved by the Board.

RESIGNATION

A staff member may resign by submitting a written resignation with the Superintendent, his/her designees, or the employee’s immediate supervisor with a suggested timeframe of thirty (30) days prior to the effective date of the resignation. The District will respectfully request that a written confidential statement of reasoning for resignation, subject to FOIA, be submitted to the Board. A resignation, once accepted by Superintendent and his/her designees, or an employee’s immediate supervisor shall not then be rescinded. The Superintendent may act for the Board in the acceptance of employee resignations.
The Superintendent shall present to the Board a report of monthly personnel transactions providing District terminations and resignations.

PERFORMANCE EVALUATION

1420 - SCHOOL ADMINISTRATOR EVALUATIONS

The Board of Education, through the powers derived from the Revised School Code and other relevant statutes, is responsible for the employment and discharge of all personnel. To carry out this responsibility, the Board with the involvement of school administrators, shall adopt and implement a rigorous, transparent, and fair performance evaluation system in accordance with State law that does the following:

A. Evaluates the school administrator’s job performance at least annually in a year-end evaluation, while providing timely and constructive feedback.

The Superintendent or designee shall perform administrators’ evaluations. Administrators rated highly effective on three (3) consecutive year-end evaluations may be evaluated every other year, instead of annually, at the District’s discretion.

B. Establishes clear approaches to measuring student growth.

C. Evaluates a school administrator’s job performance as highly effective, effective, minimally effective or ineffective, using multiple rating categories that take into account student growth and assessment data. For the 2015 - 2016, 2016 - 2017 and 2017 2018 school years twenty-five percent (25%) of the annual year-end evaluation shall be based on student growth and assessment data. Beginning with the 2018 2019 school year, forty percent (40%) of the annual year end evaluation shall be based on student growth and assessment data.

For building level administrators, the data to be used is the aggregate student growth and assessment data that are consistent with and used in teacher annual year-end evaluations in each school in which the school administrator works as an administrator. For a central office-level administrator, the pertinent data is that of the entire School District.

D. Uses the evaluations, at a minimum, to inform decisions regarding all of the following:

1. The effectiveness of school administrators, so that they are given ample opportunities for improvement.

2. Promotion, retention, and development of school administrators, including providing relevant coaching, instruction support, or professional development.

3. Removing ineffective school administrators after they have had ample opportunities to improve, and providing that these decisions are made using rigorous standards and streamlined, transparent, and fair procedures.

E. The portion of the annual year-end evaluation that is not based on student growth and assessment data shall be based on at least the following for the school in which the school administrator works as an administrator:

1. The school administrators’ training and proficiency in conducting teacher performance evaluations if s/he does so or his/her designee’s proficiency and training if the administrator designates such duties.

2. The progress made by the school or District in meeting the goals established in the school/District improvement plan.

3. Student attendance.

4. Student, parent and teacher feedback and other information considered pertinent by the Board.

F. For the purposes of conducting annual year-end evaluations under the performance evaluation system, by the beginning of the 2016 2017 school year, the District shall adopt and implement one (1) or more of the evaluation tools for teachers or administrators, if available, that are included on the list established and maintained by the Michigan Department of Education (“MDE”). However, if the District has one (1) or more local evaluation tools for
administrators or modifications of an evaluation tool on the list, and the District complies with H., below, the District may conduct annual year-end evaluations for administrators using one (1) or more local evaluation tools or modifications. The evaluation tools shall be used consistently among the schools operated by the District so that all similarly situated school administrators are evaluated using the same measures.

G. Beginning with the 2016 - 2017 school year, the District shall post on its public website all of the following information about the measures it uses for its performance evaluation system for school administrators:

1. The research base for the evaluation framework, instrument, and process or, if the District adapts or modifies an evaluation tool from the MDE list, the research base for the listed evaluation tool and an assurance that the adaptations or modifications do not compromise the validity of that research base.

2. The identity and qualifications of the author or authors or, if the District adapts or modifies an evaluation tool from the MDE list, the identity and qualifications of a person with expertise in teacher evaluations who has reviewed the adapted or modified evaluation tool.

3. Either evidence of reliability, validity, and efficacy or a plan for developing that evidence or, if the District adapts or modifies an evaluation tool from the MDE list, an assurance that the adaptations or modifications do not compromise the reliability, validity, or efficacy of the evaluation tool or the evaluation process.

4. The evaluation frameworks and rubrics with detailed descriptors for each performance level on key summative indicators.

5. A description of the processes for conducting classroom observations, collecting evidence, conducting evaluation conferences, developing performance ratings, and developing performance improvement plans.

6. A description of the plan for providing evaluators and observers with training.

H. Beginning with the 2016 - 2017 school year:

1. The District shall provide training to school administrators on the measures used by the District in its performance evaluation system and on how each of the measures is used. This training may be provided by a District or by a consortium consisting of two (2) or more Districts, the intermediate school District or a public school academy.

2. The District shall ensure that training is provided to all evaluators and observers. The training shall be provided by an individual who has expertise in the evaluation tool or tools used by the District, which may include either a consultant on that evaluation tool or framework or an individual who has been trained to train others in the use of the evaluation tool or tools. The District may provide the training in the use of the evaluation tool or tools if the trainer has expertise in the evaluation tool or tools.

The evaluation system shall ensure that if the administrator is rated as minimally effective or ineffective, the person(s) conducting the evaluation shall develop and require the school administrator to implement an improvement plan to correct the deficiencies. The improvement plan shall recommend professional development opportunities and other measures designed to improve the rating of the administrator on his/her next annual year-end evaluation. An administrator rated as "ineffective" on three (3) consecutive year-end evaluations must be dismissed from employment with the District. This subdivision does not affect the ability of the District to dismiss a school administrator from his/her employment regardless of whether the school administrator is rated ineffective on three (3) consecutive evaluations.

Evaluations shall be conducted of each administrator as required by the Revised School Code and School District guidelines and procedures. An administrator shall be given a copy of or provided access to documents relating to his/her performance evaluation which are to be placed in the personnel file.

This policy shall not deprive an administrator of any rights provided by State law or any contractual rights consistent with State law.
3220 - PROFESSIONAL STAFF EVALUATIONS

The Board of Education, through the powers derived from the Revised School Code and other relevant statutes, is responsible for the employment and discharge of all personnel. To carry out this responsibility, the Board, with involvement of professional staff, shall adopt and implement a rigorous, transparent, and fair performance evaluation system in accordance with State law that does all of the following:

A. Evaluates the employee's job performance at least annually in a year-end evaluation, while providing timely and constructive feedback;

   Teachers rated highly effective on three (3) consecutive year-end evaluations may be evaluated every other year, at the District's discretion.

B. Establishes clear approaches to measuring student growth;

C. Evaluates an employee's job performance, using rating categories of highly effective, effective, minimally effective, and ineffective, which take into account student growth and assessment data. For the 2015 - 2016, 2016 - 2017 and the 2017 - 2018 school year twenty five percent (25%) of the annual year-end evaluation shall be based on student growth and assessment data. Beginning with the 2018 - 2019 school year, forty percent (40%) of the annual year-end evaluation shall be based on student growth and assessment data.

For these purposes, teacher performance shall be measured by the following:

1. The portion of a teacher's annual year-end evaluation that is not based on student growth and assessment data shall be based primarily on a teacher's performance as measured by the evaluation instrument developed or adopted by the District.

2. Beginning with the 2018 - 2019 school year, for core content areas in grades and subjects in which state assessments are administered, fifty (50) percent of student growth must be measured using the state assessments, and the portion of student growth not measured using state assessments must be measured using multiple research-based growth measures or alternative assessments that are rigorous and comparable across schools within the District. Student growth also may be measured by student learning objectives or nationally normed or locally adopted assessments that are aligned to state standards, or based on achievement of individualized education program goals.

3. If there are student growth and assessment data available for a teacher for at least three (3) school years, the annual year-end evaluation shall be based on the student growth and assessment data for the most recent three (3) consecutive school-year period. If there are not student growth and assessment data available for a teacher for at least three (3) school years, the annual year-end evaluation shall be based on all student growth and assessment data that are available for the teacher.

4. The portion of a teacher's evaluation that is not measured using student growth and assessment data or using the evaluation tool developed or adopted by the District shall incorporate criteria enumerated in section M.C.L. 380.1248(1)(b)(i) to (iii) that are not otherwise evaluated under the tool. (See Policy 3131.)

D. uses the evaluations, at a minimum, to inform decisions regarding all of the following:

1. the effectiveness of employees, so that they are given ample opportunities for improvement

2. promotion, retention, and development of employees, including providing relevant coaching, instruction support, or professional development

3. whether to grant tenure or full certification, or both, to employees, using rigorous standards and streamlined, transparent, and fair procedures

4. removing ineffective tenured and untenured employees after they have had ample opportunities to improve, and providing that these decisions are made using rigorous standards and streamlined, transparent, and fair procedures
5. to evaluate job performance for employees hired after the accountability system required by MCL 380.380 has been implemented.

E. provides a mid-year progress report for every teacher who is in the first year of probation or has received a rating of minimally effective or ineffective on the most recent annual year-end evaluation

This mid-year report shall not replace the annual year-end evaluation. The mid-year report shall:

1. be based, at least in part, on student achievement;
2. be aligned with the teacher’s individualized development plan;
3. include specific performance goals and any recommended training for the remainder of the school year, as well as written improvement plan developed in consultation with the teacher that incorporates the goals and training.

F. includes classroom observations in accordance with the following:

1. must include review of the lesson plan, State curriculum standards being taught and student engagement in the lesson
2. must include multiple observations unless the teacher has received an effective or higher rating on the last two (2) year end evaluations
3. observations need not be for an entire class period
4. at least one (1) observation must be unscheduled;
5. the school administrator responsible for the teacher’s performance evaluation shall conduct at least one (1) of the observations;
   Other observations may be conducted by other observers who are trained in the use of the evaluation tool as described below. These other observers may be teacher leaders.
6. the District shall ensure that, within thirty (30) days after each observation, the teacher is provided with feedback from the observation.

G. For the purposes of conducting annual year-end evaluations under the performance evaluation system, in 2017-18, the District will adopt and implement one (1) or more of the evaluation tools for teachers that are included on the list established and maintained by the Michigan Department of Education (“MDE”). However, if the District has one (1) or more local evaluation tools for professional tools or modifications of an evaluation tool on the list, and the District complies with H., below, the District may conduct annual year-end evaluations for administrators using one (1) or more local evaluation tools or modifications. The evaluation tools shall be used consistently among the schools operated by the District so that all similarly situated school administrators are evaluated using the same measures.

The evaluation tool(s) shall be used consistently among the schools operated by the District so that all similarly situated teachers are evaluated using the same evaluation tool.

H. The District will post on its public website all of the following information about the measures it uses for its performance evaluation system for teachers:

1. The research base for the evaluation framework, instrument, and process or, if the District adapts or modifies an evaluation tool from the MDE list, the research base for the listed evaluation tool and an assurance that the adaptations or modifications do not compromise the validity of that research base.
2. The identity and qualifications of the author or authors or, if the District adapts or modifies an evaluation tool from the MDE list, the identity and qualifications of a person with expertise in teacher evaluations who has reviewed the adapted or modified evaluation tool.
3. Either evidence of reliability, validity, and efficacy or a plan for developing that evidence or, if the District adapts or modifies an evaluation tool from the MDE list, an assurance that the adaptations or modifications do not compromise the reliability, validity, or efficacy of the evaluation tool or the evaluation process.

4. The evaluation frameworks and rubrics with detailed descriptors for each performance level on key summative indicators.

5. A description of the processes for conducting classroom observations, collecting evidence, conducting evaluation conferences, developing performance ratings, and developing performance improvement plans.

6. A description of the plan for providing evaluators and observers with training.

I. Training:

1. The District will provide training to teachers on the evaluation tool(s) used by the District in its performance evaluation system and how each evaluation tool is used. This training may be provided by a District or by a consortium consisting of the District, the intermediate school District or a public school academy.

2. The District will ensure that training is provided to all evaluators and observers. The training shall be provided by an individual who has expertise in the evaluation tool or tools used by the District, which may include either a consultant on that evaluation tool or framework or an individual who has been trained to train others in the use of the evaluation tool or tools. The District may provide the training in the use of the evaluation tool or tools if the trainer has expertise in the evaluation tool or tools.

The staff evaluation program shall aim at the early identification of specific areas in which the individual professional staff member needs help so that appropriate assistance may be provided or arranged for. A supervisor offering suggestions for improvement to a professional staff member shall not release that professional staff member from the responsibility to improve. If a professional staff member, after receiving a reasonable degree of assistance, fails to perform his/her assigned responsibilities in a satisfactory manner, dismissal, or non-renewal procedures may be invoked. A teacher rated as "ineffective" on three (3) consecutive year-end evaluations must be dismissed from employment as a teacher with the District. In such an instance, all relevant evaluation documents may be used in the proceedings. This subdivision does not affect the ability of the District to dismiss a teacher from his/her employment regardless of whether professional staff are rated ineffective on three (3) consecutive evaluations.

If a non-probationary teacher is rated as ineffective on an annual year-end evaluation, the teacher may request a review of the evaluation and the rating by the Superintendent. The request for a review must be submitted in writing within twenty (20) days after the teacher is informed of the rating. Upon receipt of the request, the Superintendent shall review the evaluation and rating and may make any modifications as appropriate based on his/her review. However, the performance evaluation system shall not allow for a review as described in this subdivision more than twice in a three (3) school year period.

Evaluations shall be conducted of each professional staff member as stipulated in the Teacher Tenure Act, the revised School Code, a negotiated agreement or contract, the Superintendent's administrative guidelines and as directed by the Michigan Department of Education. A professional staff member shall be given a copy of any documents relating to his/her performance which are to be placed in the personnel file.

This policy shall not deprive a professional staff member of any rights provided by State law or contractual rights consistent with State law.

PERSONNEL FILES

8320 - PERSONNEL FILE

A personnel information system shall be prepared for the retention of appropriate files bearing upon an employee's duties and responsibilities to the District and the District's responsibilities to the employee.
Sufficient records shall exist to ensure an employee's qualifications for the job held, compliance with Federal, State, and local benefit programs, conformance with District policies, and evidence of completed evaluations. The records will be maintained in compliance with the laws of the State of Michigan.

"Personnel file" shall mean all records, information, data, or materials maintained by the District, in any form or retrieval system, with respect to any of its staff, which are uniquely applicable to that employee, whether maintained in one (1) or more locations.

Information relating to the professional role of the employee and submitted by authorized school administrative personnel and the Board may be entered in the official record file. An employee may submit a statement to be included in the file if there is disagreement with information contained within the personnel file. A copy of each entry shall be provided to the employee upon request.

Personnel files shall be maintained, handled and accessible to employees as required by the Bullard-Plawecki Employee Right to Know Act, M.C.L. 423.501 et. seq. The employee shall have access to his/her file upon request.

PROFESSIONAL DEVELOPMENT

3242 - INSTRUCTIONAL STAFF GROWTH REQUIREMENTS

The Board believes that study is a prerequisite for professional growth of staff and, therefore, encourages the participation of professional staff members in in-service and other training programs. Additionally, staff are encouraged to seek development opportunities independently.

The Superintendent and his/her designees shall plan and implement a program of staff development for:

A. professional staff members; and
B. support staff members.

Such staff development programs should be designed to address the professional development needs of staff members who are working at a particular level, involved in a particular course or subject, or need to be prepared for a new assignment.

A. Whenever feasible, principals should participate with their staff members in order to ensure better follow-up and support;
B. The Superintendent and his/her designees may reimburse staff members for the costs incurred in participation therein, subject to prior approval from Superintendent and his/her designees.
C. Participation in the program shall be voluntary unless considered part of the duties of any participating staff member according to provisions in a negotiated, collectively-bargained agreement or other contractual arrangements.

During the first three (3) years of employment, each nontenured instructional staff member shall be provided fifteen (15) days of professional development related to his/her Individual Development Plan (IDP). The Superintendent and his/her designees shall also arrange for the assignment to each such staff member of one or more mentors who have demonstrated proficiency in the teaching skills established in the staff member’s IDP.

The Superintendent and his/her designees shall arrange to provide each member of the teaching staff with at least five (5) days of professional development annually. These days shall be in addition to any of the required fifteen (15) days of professional development provided to non-tenured teachers during their first three (3) years of teaching.

TENURE

3370 - TENURE

Professional staff members covered by the Michigan Teachers’ Tenure Act shall acquire tenure in accordance with the Michigan Teacher’s Tenure Act (M.C.L. 38.71 et. seq.).
In accordance with the time periods specified in the Act, the Superintendent shall make recommendations to the Board regarding whether probationary employees covered by the Act should be permitted to acquire tenure. These recommendations shall be acted upon by the Board.

Administrators shall not be entitled to acquire tenure in administrative positions.

STUDENT ISSUES

1613 - STUDENT SUPERVISION AND WELFARE

Administrators shall maintain a standard of care for the supervision, control, and protection of students commensurate with their assigned duties and responsibilities and are expected to establish and maintain professional staff/student boundaries that are consistent with their legal, professional and ethical duty of care for students.

The School District shall maintain and enforce the following standards:

A. Each administrator shall report immediately any accident, safety hazard, or other potentially harmful condition or situation s/he detects.

B. Each administrator shall immediately report any knowledge of threats or violence by students.

C. An administrator shall not send students on any personal errands.

D. An administrator shall not associate or fraternize with students at any time in a manner that may give the appearance of impropriety, including, but not limited to, the creation or participation in any situation or activity that could be considered abusive or sexually suggestive or involve harmful substances such as illegal drugs, alcohol or tobacco. Any sexual or other inappropriate conduct with a student by any administrator will subject the offender to potential criminal prosecution and disciplinary action by the Board up to and including termination of employment.

E. If a student approaches an administrator to seek advice or to ask questions regarding a personal problem related to sexual behavior, substance abuse, mental or physical health, and/or family relationships, etc., the administrator may attempt to assist the student by facilitating contact with certified or licensed individuals in the District or community who specialize in the assessment, diagnosis, and treatment of the student’s stated problem. However, under no circumstances should an administrator attempt, unless properly licensed and authorized to do so, to counsel, assess, diagnose, or treat the student's problem or behavior, nor should such administrator inappropriately disclose personally identifiable information concerning the student to third persons not specifically authorized by law.

F. An administrator shall not transport students in a private vehicle without the approval of the Superintendent or his/her designee.

G. A student shall not be required to perform work or services that may be detrimental to his/her health.

H. Administrators shall only engage in electronic communication with students via email, texting, social media and/or online networking media, when such communication is directly related to curricular matters or co-curricular/extracurricular events or activities with prior approval of the principal.

I. Administrators are prohibited from electronically transmitting any personally identifiable image of a student(s), including video, photographs, streaming video, etc. via email, text message, or through the use of social media and/or online networking media, unless written parent consent or School District publicity release form is completed. Such transmission has been made as part of a pre-approved curricular matter or co-curricular/extracurricular event or activity such as a school-sponsored publication or production.

Since most information concerning a child in school, other than directory information described in the student records policy is confidential under Federal and State laws, any administrator who shares confidential information with another
person not authorized to receive the information may be subject to discipline and/or civil liability. This includes, but is not limited to, information concerning assessments, grades, behavior, family background, and alleged child abuse.

Pursuant to the laws of the State and Board Policy 1252 regarding student abuse and neglect, each administrator shall report to the proper legal authorities, immediately, any sign of suspected child abuse or neglect.

See Board Policy 1252 – Student Abuse & Neglect

8462 - STUDENT ABUSE AND NEGLECT

The Board of Education is concerned with the physical and mental well-being of the students of this District and will cooperate in identifying and reporting cases of child abuse or neglect in accordance with law.

Michigan Child Protection Law requires professional staff (mandatory reporters) who have reasonable cause to suspect child abuse and/or neglect to file reports with the Department of Human Services, Children’s Protective Services Division.

All mandatory reporters who have reasonable cause to suspect child abuse or neglect shall immediately report any such case to 1) his/her supervisor, and 2) the principal or his/her designee who shall, in turn, immediately notify Children’s Protective Services.

The District shall establish a procedure for all mandatory reporters to report situations of suspected child abuse/neglect and shall advise staff members of their responsibilities.

The identity of all mandatory reporters shall remain confidential, subject only to disclosure by consent or court order. All mandatory reporters shall not be dismissed or otherwise penalized for making a report of child abuse or neglect.

Information concerning alleged child abuse is confidential. Any unauthorized disclosure by an official or employee of the District is a violation of the law and subjects the disseminator to civil liability for resulting damages.

Each administrator or his/her designee should be mindful of the possibility of physical or mental abuse being inflicted on a student by a staff member. Any such instances, whether real or alleged, should be dealt with in accordance with the administrative guidelines established by the Superintendent or his/her designee.

3213 - STUDENT NON-FRATERNIZATION

The Board expects all District internal and external stakeholders who directly engage with students on or off District property, to maintain the highest professional, moral and ethical standards in their conduct with students. The interactions and relationships between all District internal and external stakeholders should be based upon mutual respect and trust, an understanding of the appropriate boundaries between adults and students in an educational settings; and consistent with District and community standards.

The Board expects all professional and support staff, contractors, as well as all athletic coaches, counselors, administrators, volunteers, and other District stakeholder who directly engage with students on or off District property, to maintain appropriate professional relationships with students and be sensitive to the appearance of impropriety in their conduct with students. All professional and support members are encouraged to discuss issues and concerns with District administrators or other personnel who function in an administrative/supervisory capacity whenever they are unsure whether particular conduct may constitute or appear as a violation of this policy.

Fraternization of any type may create the perception of inappropriate conduct or may lead to allegations or instances of sexual harassment or child abuse. Accordingly, all staff members are prohibited from engaging in any of the following types of prohibited conduct, regardless of whether the conduct occurs on or off school property of whether the conduct occurs during or outside of school hours. The following list of prohibited conduct does not, and is not intended to, constitute the entire list of conduct for which discipline may be imposed:

A. allow a student into his/her home, or enter the home of a student, at any time without the express permission of the principal or the parent(s) or legal guardian of the student, and a record of the permission placed on file;

B. engaging in any romantic or sexual relationships with students, including dating, flirting, sexual contact, inappropriate physical displays of affection, or sexually suggestive comments between staff and students,
regardless of whether staff or student initiates the behavior, whether the relationship is consensual, or whether the student has parental permission;

C. fostering, encouraging, or participating in inappropriate emotionally or socially intimate relationships with students in which the relationship is outside the bounds of the reasonable, professional staff-student relationship and in which the relationship could reasonably cause a student to view the professional or support staff person as more than an administrator, teacher, or coach;

D. initiating or continuing communications with students, including those through District and personal accounts, for reasons unrelated to any appropriate purpose, including oral or written communication; telephone calls; electronic communication such as texting, instant messaging, email, chat rooms, Facebook, or other social networking sites; webcams; or photographs;

E. providing any mood altering substances to students;

F. socializing with students outside of class time for reasons unrelated to any appropriate purpose; and

G. transporting students in personal vehicles, or ride in a personal vehicle with a student, before, during or after school hours without the express permission of the principal and the parent(s) or legal guardian(s) of the student, and a record of the permission placed on file.

Any person with knowledge or suspicion of an improper relationship between staff and a student must immediately report the conduct to school administration. Staff who makes a good-faith report of a suspected fraternization violation, or who cooperates in inquiries or investigations related to the investigation of such a report, shall be protected from retaliation in accordance with District policy.

Reports of suspected fraternization violations by represented staff shall follow the procedures set forth in accordance with the appropriate District disciplinary policies and guidelines. The District shall take appropriate disciplinary action, up to and including dismissal, against any staff found to have violated this non-fraternization policy.

4213 - STUDENT NON-FRATERNIZATION

The Board expects all District internal and external stakeholders who directly engage with students on or off District property, to maintain the highest professional, moral and ethical standards in their conduct with students. The interactions and relationships between all District internal and external stakeholders should be based upon mutual respect and trust, an understanding of the appropriate boundaries between adults and students in an educational setting; and consistent with District and community standards.

The Board expects all professional and support staff, contractors, as well as all athletic coaches, counselors, administrators, volunteers, and other District stakeholder who directly engage with students on or off District property, to maintain appropriate professional relationships with students and be sensitive to the appearance of impropriety in their conduct with students. All professional and support members are encouraged to discuss issues and concerns with District administrators or other personnel who function in an administrative/ supervisory capacity whenever they are unsure whether particular conduct may constitute or appear as a violation of this policy.

Fraternization of any type may create the perception of inappropriate conduct or may lead to allegations or instances of sexual harassment or child abuse. Accordingly, all staff members are prohibited from engaging in any of the following types of prohibited conduct, regardless of whether the conduct occurs on or off school property of whether the conduct occurs during or outside of school hours. The following list of prohibited conduct does not, and is not intended to, constitute the entire list of conduct for which discipline may be imposed:

A. allow a student into his/her home, or enter the home of a student, at any time without the express permission of the principal or the parent(s) or legal guardian of the student, and a record of the permission placed on file;

B. engaging in any romantic or sexual relationships with students, including dating, flirting, sexual contact, inappropriate physical displays of affection, or sexually suggestive comments between staff and students, regardless of whether staff or student initiates the behavior, whether the relationship is consensual, or whether the student has parental permission;
C. fostering, encouraging, or participating in inappropriate emotionally or socially intimate relationships with students in which the relationship is outside the bounds of the reasonable, professional staff-student relationship and in which the relationship could reasonably cause a student to view the professional or support staff person as more than an administrator, teacher, or coach;

E. providing any mood altering substances to students;

F. socializing with students outside of class time for reasons unrelated to any appropriate purpose; and

G. transporting students in personal vehicles, or ride in a personal vehicle with a student, before, during or after school hours without the express permission of the principal and the parent(s) or legal guardian(s) of the student, and a record of the permission placed on file.

Any person with knowledge or suspicion of an improper relationship between staff and a student must immediately report the conduct to school administration. Staff who makes a good-faith report of a suspected fraternization violation, or who cooperates in inquiries or investigations related to the investigation of such a report, shall be protected from retaliation in accordance with District policy.

Reports of suspected fraternization violations by represented staff shall follow the procedures set forth in accordance with the appropriate District disciplinary policies and guidelines. The District shall take appropriate disciplinary action, up to and including dismissal, against any staff found to have violated this non-fraternization policy.

5630 - CORPORAL PUNISHMENT AND USE OF REASONABLE FORCE AND RESTRAINT

District employees shall assume full-authority over students under their span of control and maintain order. Under no circumstance shall District employees find it necessary to resort to physical force or violence to compel student obedience and manage disruptive behavior. Instead, district employees shall consider the application of alternative discipline approaches that include, but are not limited to, counseling, student mediation, conflict resolution, parental involvement, alternative education programs, restorative justice, and other forms of positive reinforcement. If all other means fail, professional staff shall consider the administrative removal of disruptive students through detention and indoor/outdoor suspension. By no means, shall corporal punishment ever be exercised to manage disruptive behavior.

Corporal Punishment

While recognizing that students may require disciplinary action in various forms, the Board does not condone, in any form, the use of corporal punishment as an appropriate means to discipline students. Corporal punishment is therefore strictly prohibited.

If any staff member, full-time, part-time, or substitute intentionally inflicts, or causes physical pain to be inflicted by hitting, paddling, spanking, slapping, head-butting, forcing prolonged maintenance of physically-painful positions, or make use of any other kind of physical force as a means of disciplining a student, the professional or support staff member shall be subject to discipline up to and including discharge.

When an employee inflicts unnecessary, unreasonable, irrational, or inappropriate force upon a student, he/she shall also be subject to criminal charges and prosecution.

Reasonable Force and Restraint

Staff may use or apply incidental, minor, or reasonable physical contact (reasonable physical force) as necessary to maintain order and control in a school or school-related setting for the purpose of providing an environment conducive to safety and learning, under limited circumstances, as described below:

A. if after requesting that the student refrain from further disruptive acts, staff may restrain a student whose behavior is interfering with the orderly exercise and performance of school district functions;
B. for self-defense or defense of another;

C. to quell a disturbance threatening physical injury to others;

D. to obtain possession of weapons or other dangerous objects upon or within the control of the student; or

E. for the protection of property.

The above referenced policy governs the use of reasonable force and restraint. Appropriate District staff and contractors will be trained in accordance with this policy. The Board directs all staff to comply with Michigan law and policy, as well as, District policy related to the use of emergency seclusion and emergency physical restraint as defined and prohibited, as well as, permitted.

2240 - CONTROVERSIAL ISSUES

The District believes that the consideration of controversial issues has a legitimate place in the instructional program of the schools.

Properly introduced and conducted, the consideration of such issues can help students learn to identify important issues, explore fully and fairly all sides of an issue, weigh carefully the values and factors involved, and develop techniques for formulating and evaluating positions.

For purposes of this policy, a controversial issue is a topic on which opposing points of view have been promulgated by responsible opinion.

The Board will allow the introduction and proper educational use of controversial issues, as part of curriculum or course of study, provided that their use in the instructional program:

A. is related to the instructional goals of the course of study and level of maturity of the students;

B. does not tend to indoctrinate or persuade students to a particular point of view; and

C. encourages open-mindedness and is conducted in a spirit of scholarly inquiry.

Controversial issues related to the program may be initiated by the students themselves provided they are presented in the ordinary course of classroom instruction and it is not substantially disruptive to the educational setting.

Controversial issues may not be initiated by a source outside the schools unless prior approval has been given by the principal. When controversial issues have not been specified in the course of study, the Board shall permit the instructional use of only those issues which have been approved by the Superintendent and his/her designees.

In the discussion of any issue, a teacher may express a personal opinion, but shall identify it as such, and must not express such an opinion for the purpose of persuading students to his/her point of view.

The Board recognizes that a course of study or certain instructional materials may contain content and/or activities that some parents find objectionable. If after careful, personal review of the program lessons and/or materials, a parent indicates to the school that either content or activities conflicts with his/her religious beliefs or value system, the school will honor a written request for his/her child to be excused from particular classes for specified reasons. The student, however, will not be excused from participating in the course or activities mandated by the State and will be provided alternative learning activities during times of parent requested absences.

The Superintendent and his/her designees shall develop administrative guidelines and shall provide training for professional personnel to constructively handle controversial issues.
2270 - RELIGION IN THE CURRICULUM

The District believes that an understanding of religions and their effects on civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, curriculum may include as appropriate to the various ages and attainments of the students, instruction about the religions of the world.

The District acknowledges the degree to which a religious consciousness has permeated the arts, literature, music, and issues of morality. The instructional and resource materials approved for use in the District's schools frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may be religious in nature shall not, by itself, bar their use by the District. The Board directs that professional staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

The District recognizes that religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the education of the District's students, not for its conformity to religious principles. Students should receive unbiased instruction in the schools, so they may privately accept or reject the knowledge thus gained, in accordance with their own religious tenets.

Subject to Board Policy 2240, Controversial Issues, no student shall be exempted from attendance in a required course of study on the grounds that the instruction therein interferes with the free exercise of his/her religion. The Superintendent and his/her designees shall prepare administrative guidelines which ensure protections against the establishment of religion and that students are not influenced to accept a particular religious belief or point of view.

2410 - PROHIBITION OF REFERRAL OR ASSISTANCE

In accordance with Michigan statute, any officer, agent, or employee of the Board of Education shall strictly comply with Michigan Revised School Code as it relates to provision of sex education and is prohibited from referring a student for an abortion or assisting a student in obtaining an abortion.

Whenever it becomes necessary to discipline a member of the staff for violation of this policy, the Superintendent shall utilize related procedures described in the Staff Discipline Policy 1439, Policy 3139, and Policy 4139 or the current negotiated agreement, if applicable.

The Superintendent and his/her designees shall conduct an investigation, as appropriate to the situation, including providing the employee with reasonable notice and the opportunity to respond.

If it is determined that any officer, agent, or employee of the Board has violated this policy, the Board shall apply a financial penalty against such individual that is equivalent to not less than three percent (3%) of that individual's annual compensation.

The District shall refund to the State School Aid fund an amount of money equal to the amount of the penalty or fine.

5340 - STUDENT ACCIDENTS AND INCIDENTS

The Board of Education believes that school personnel have certain responsibilities in case of accidents which occur in school. Said responsibilities extend to the administration of first aid by persons trained to do so, summoning of medical assistance, notification of administration personnel, notification of parents, and the filing of accident and incident reports.

Employees should administer first aid within the limits of their knowledge of recommended practices. All employees should make an effort to increase their understanding of the proper steps to be taken in the event of an accident or incident. The Superintendent or designee may provide for an in-service program on first aid and CPR procedures.

The administrator in charge must submit an accident or incident report to the Superintendent or designee on all accidents or incidents.
Pursuant to Section 504 of the Rehabilitation Act of 1973 and its implementing regulations ("Section 504") and the provisions of the Americans with Disabilities Act (ADA) as more fully set forth below, no otherwise qualified individual with a disability shall, solely by reason of his/her disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity operated by the District. The School Board does not discriminate in admission or access to, participation in, or treatment, or employment in, its programs or activities. As such, the Board's policies and practices will not discriminate against employees and students with disabilities, will provide equal opportunity for employment, and will make accessible to qualified individuals with disabilities its facilities, programs, and activities. No discrimination will be knowingly permitted against any individual with a disability on the sole basis of that disability in any of the programs, activities, policies, and/or practices in the District.

Definitions

In accordance with the ADA and Section 504, an individual with a disability means and individual who (a) has a physical or mental impairment that substantially limits one or more major life activities of such an individual; (b) has a record of such an impairment; or (c) is regarded as having such an impairment. An impairment that is episodic in nature or in remission is considered a disability if it substantially limits a major life activity when active.

The determination of whether an impairment substantially limits a major life activity must be made without regard to the ameliorative effects of mitigating measures such as medication, medical supplies, equipment or appliances, low-vision devices (defined as devices that magnify, enhance, or otherwise augment a visual image, but not including ordinary eyeglasses or contact lenses), prosthetics (including limbs and devices), hearing aid(s) and cochlear implant(s) or other implantable hearing devices, mobility devices, oxygen therapy equipment or supplies, use of assistive technology, reasonable accommodations or "auxiliary aides or services," learned behavioral or adaptive neurological modifications.

With respect to employment, a qualified person with a disability means a person with a disability who satisfies the requisite skills, requirements and experience for the job, and who, with or without, reasonable accommodation, can perform the essential functions of the job in question.

Under Section 504, with respect to public preschool, elementary, and secondary educational services, a qualified person with a disability means a person with a disability:

With respect to vocational education services, a qualified person with a disability means a person with a disability who meets the academic and technical standards requisite to admission or participation in the vocational program or activity.

With respect to other services, a qualified person with a disability means a person who meets the essential eligibility requirements for the receipt of such services.
