

# Keyboard Tips

## 1 First Connecting the Keyboard

When using the keyboard for the first time, place the tablet on the keyboard with the screen facing the keyboard. Push the tablet down to connect with the keyboard.

## 2 Removing the Keyboard

To remove the tablet, press and hold the keyboard release button down on the keyboard, and pull the tablet up.

**Warning:** Do not pull the device away from the keyboard without holding down the keyboard release button. Attempting to do so could cause harm to the tablet or keyboard.

### 3 Attaching the Keyboard

To reattach the keyboard, line the tablet up with the connection port and push the tablet back down onto the keyboard to connect it again.

### 4 Maximum Opening Angle

The maximum opening angle of the device with the keyboard attached is  $120^{\circ}$  .

**Warning:** Do not exceed the maximum opening angle. Attempting to do so may cause harm to the tablet and keyboard.
